SCC PLATFORM

Interface design concepts

A complete desktop visual concept for registering cases, reviewing close-outs and reporting across projects and departments, with the agreed workflows and data.

BASED ON REQUIREMENTS v2.8

Prepared for Rayan Alghamdi
SCC Supervisor | 17 October 2026

ONE CONSISTENT WORKSPACE

Navy navigation, clear forms, amber emphasis and distinct status labels, in light and dark modes. Each following page shows one screen at a readable scale.

DESIGN REVIEW BASIS

All counts, identities, attachments and photographs are illustrative. Items still to be confirmed are listed in Section 12 of the requirements.

Screen map

37 detailed screens and interaction states

02-16 **Dashboard**
Overview and a dashboard for each category, light and dark

17-21 **AI Camera Observations**
Register, close out, review and return

22-25 **Dashcam and Speed**
Registration, driver confirmation and approval

26-27 **SOS Alerts**
Register and close with four required fields

28-29 **Weather Monitoring**
Hourly readings and air quality

30-32 **Contacts and SCC HW**
Project contacts and device reports

33-34 **Reports**
Weekly summary and detailed record

35-38 **Administration and handoff**
Users, lists, Operator Performance and state rules

Dashboard

Overview of all records. Open a category for its own dashboard

Live, updated 14 Oct 2026, 10:42 AM | Light | Dark | Sample data

Overview | AI Camera 88 | Dashcam 54 | Speed 33 | SOS 10

VIEW: Over All | All Projects | All Departments

PERIOD: This week | Last week | This month | Custom range

11 to 17 Oct 2026 (Week 42)
Compared with Week 41, 4 to 10 Oct 2026

Total records	AI Camera	Dashcam	Speed	SOS
▲ 21% vs last week	▲ 25% vs last week	▲ 29% vs last week	0% vs last week	0% vs last week
185	88	54	33	10
29 this week, 24 last week	15 this week, 12 last week	9 this week, 7 last week	4 this week, 4 last week	1 this week, 1 last week

Records over the last 8 weeks

Records registered each week, by category

By status

Open	31	17%
Under Process	22	12%
Closed	132	71%

Needs attention

What is waiting for someone right now

9	Dashcam and Speed violations wait for Confirm Driver & Submit	View →
22	Records wait for Admin review	Review →
2	SOS alerts are still open	Open →
5	AI Camera observations open for more than 7 days	View →

AI Camera Observations

88 ▲ 25% vs last week

Open 14 | Under Process 9 | Closed 65

Open dashboard

DashCam Observations

54 ▲ 29% vs last week

Open 9 | Under Process 8 | Closed 37

Open dashboard

Speed Violations

33 0% vs last week

Open 6 | Under Process 5 | Closed 22

Open dashboard

SOS Alerts

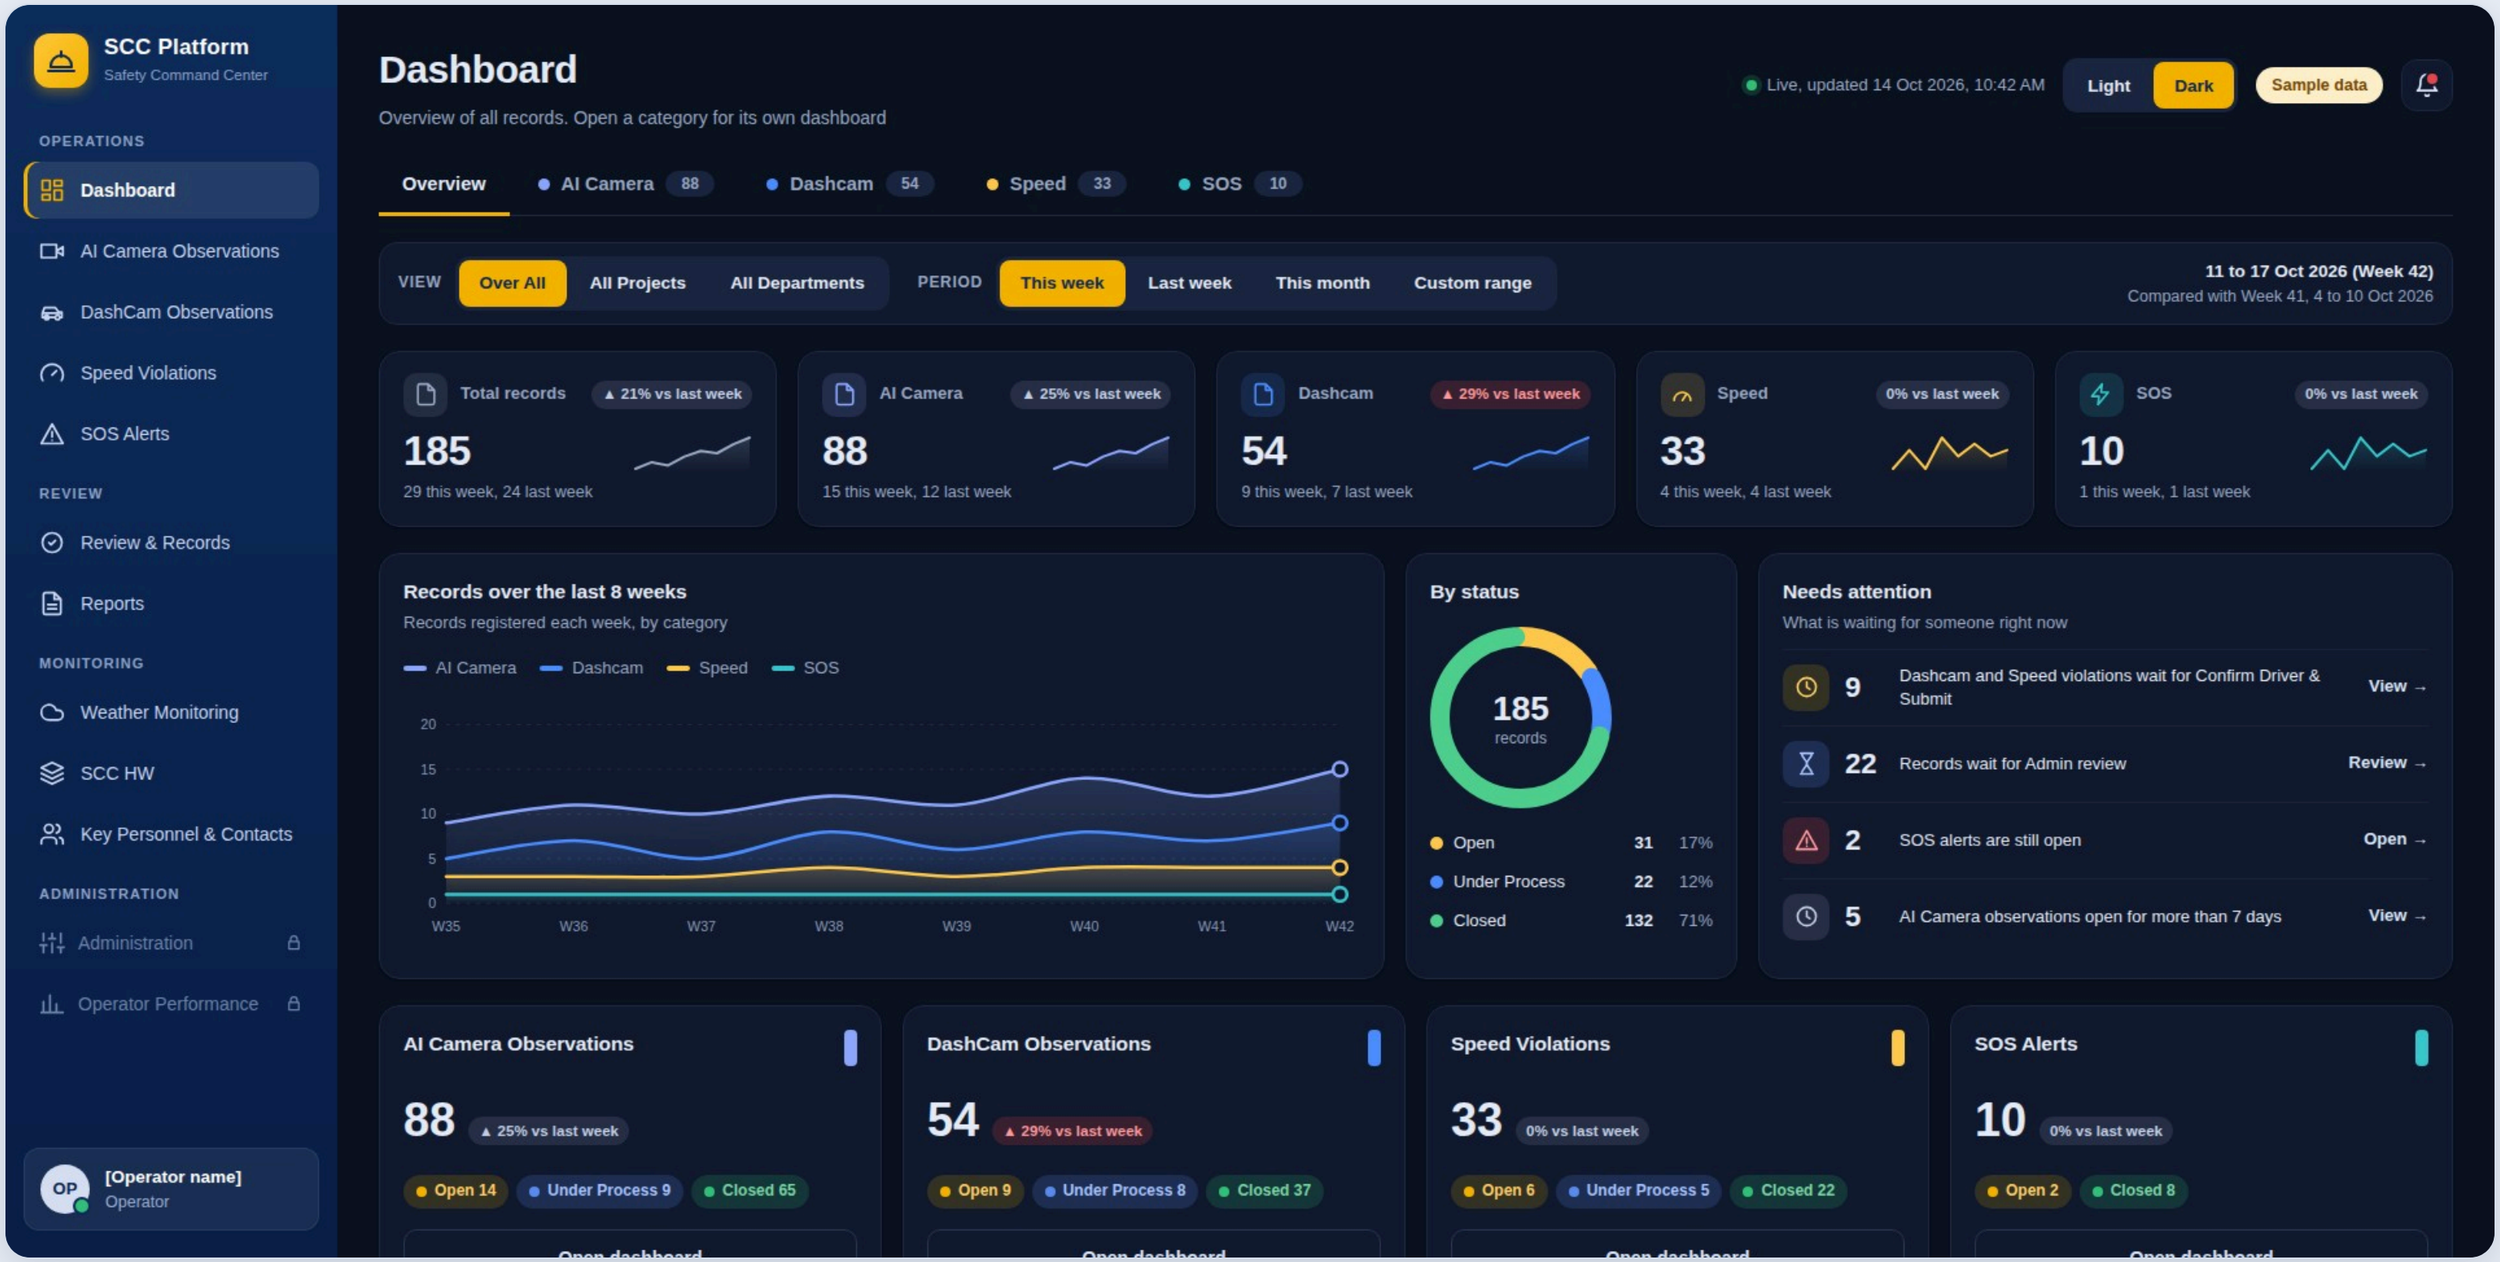

10 0% vs last week

Open 2 | Closed 8

Open dashboard

DESIGN NOTE The overview opens on Over All. Every KPI card compares the period with the previous one, and each category has its own tile and dashboard.

Dashboard overview in dark mode

DESIGN NOTE Dark mode keeps the same layout. Each record category keeps its colour, lightened so every chart stays readable. The user switches modes from the dashboard header.

By Alert Type

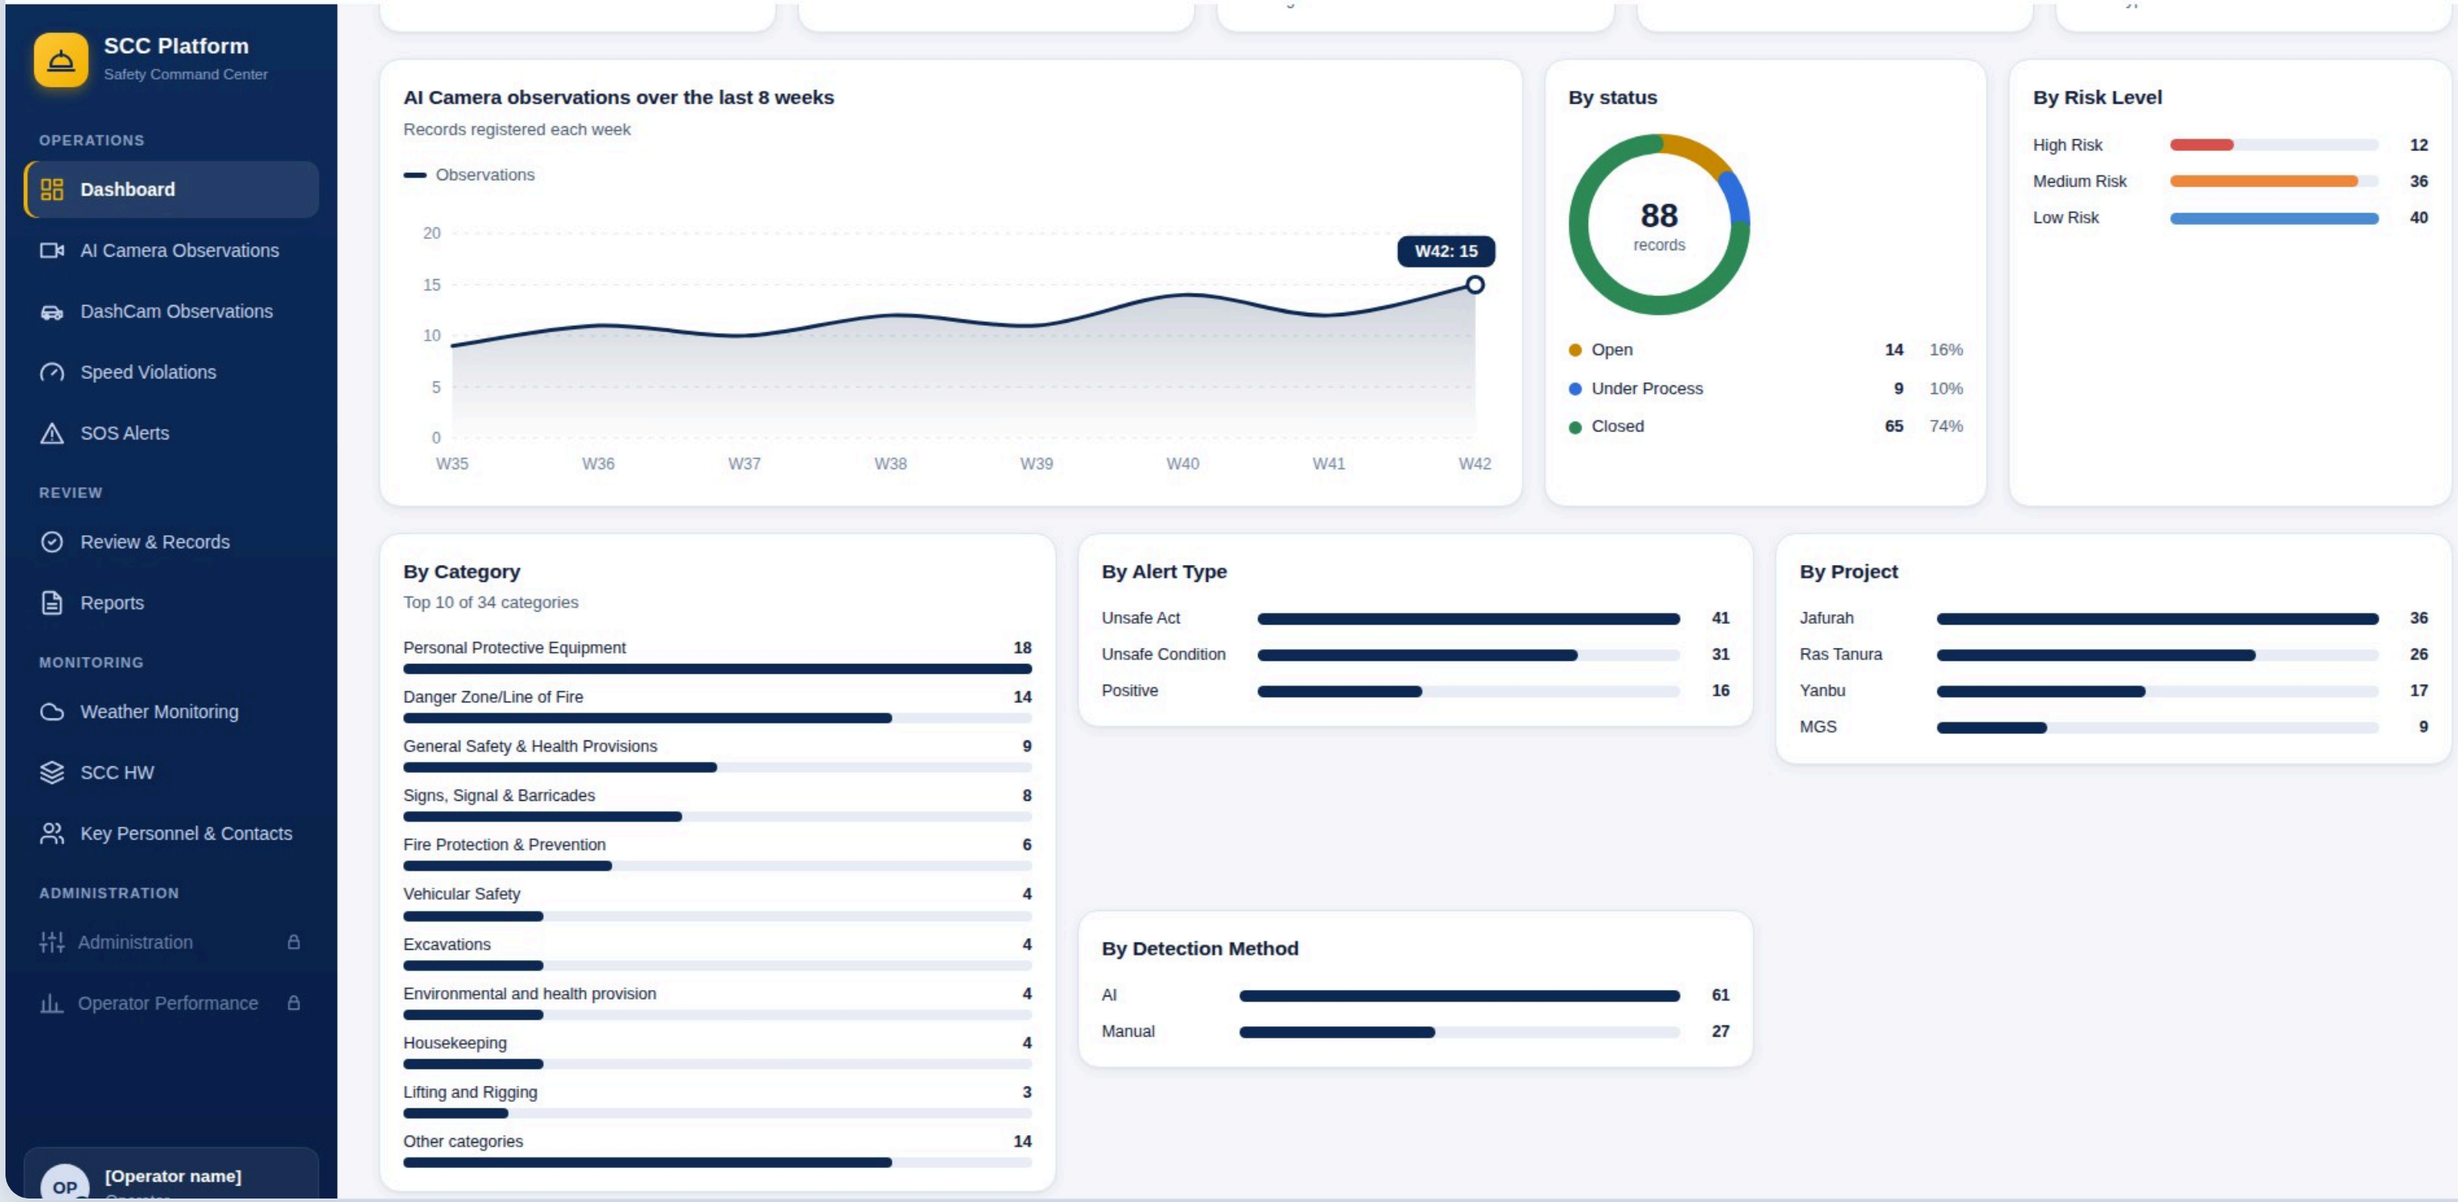

Unsafe Act	41
Unsafe Condition	31
Positive	16

By Project

Jafurah	36
Ras Tanura	26
Yanbu	17
MGS	9

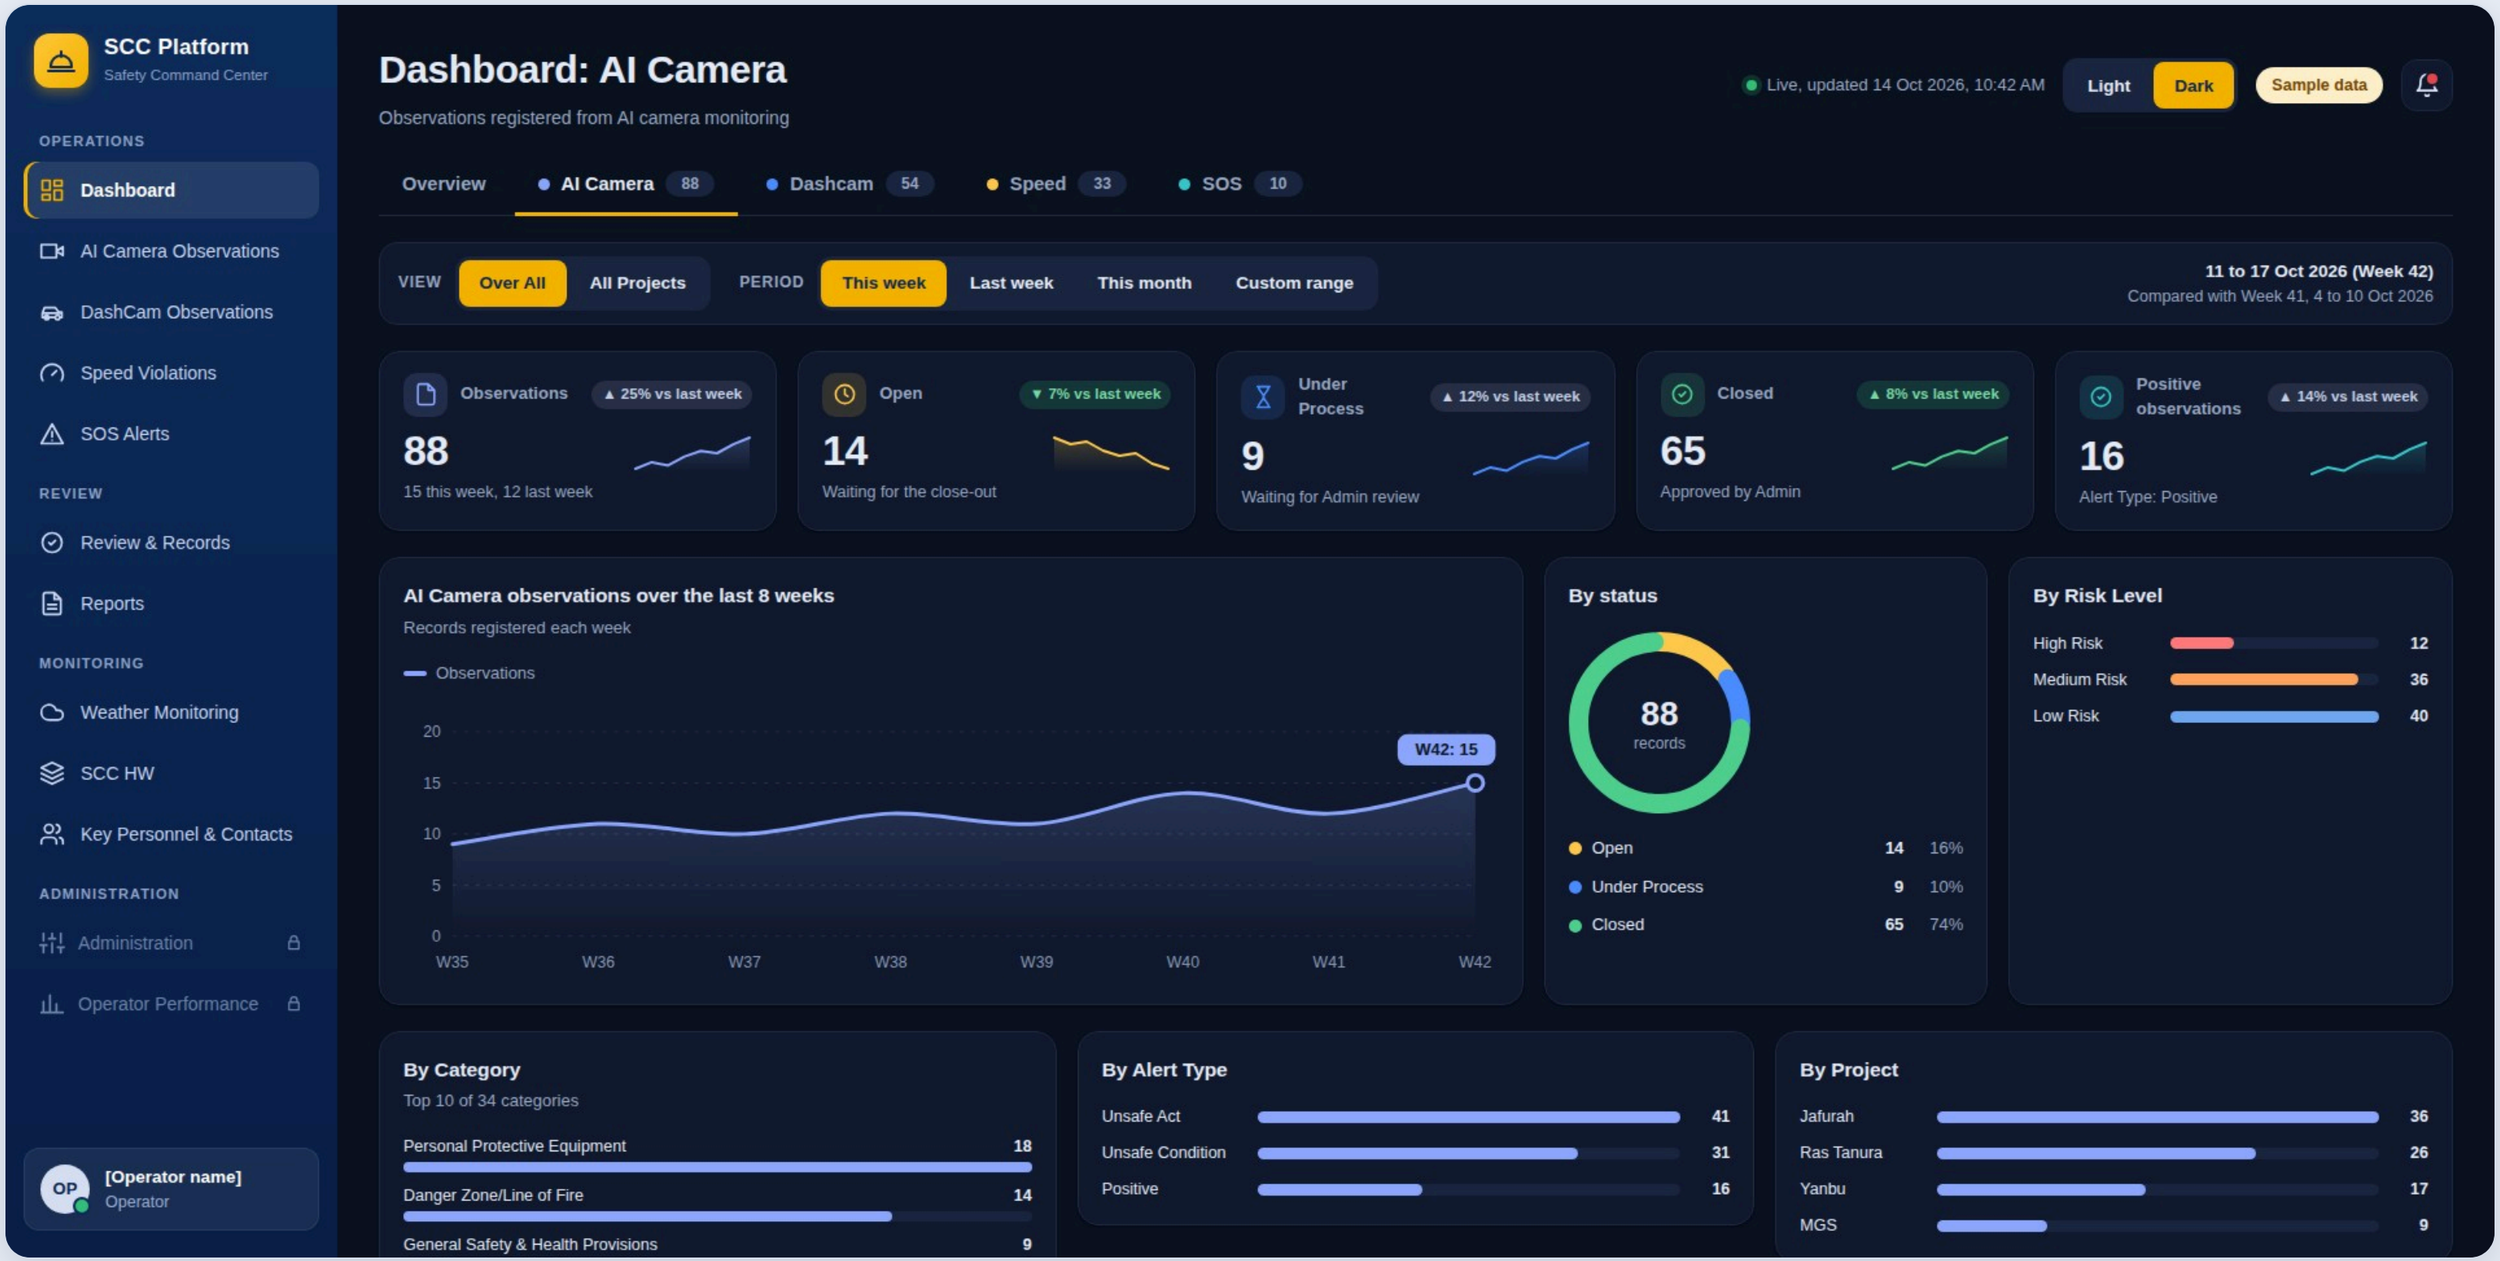

DESIGN NOTE Observations by status and Risk Level, with a weekly curve. The AI Camera dashboard has no department view, because observations belong to a project only.

AI Camera dashboard: categories

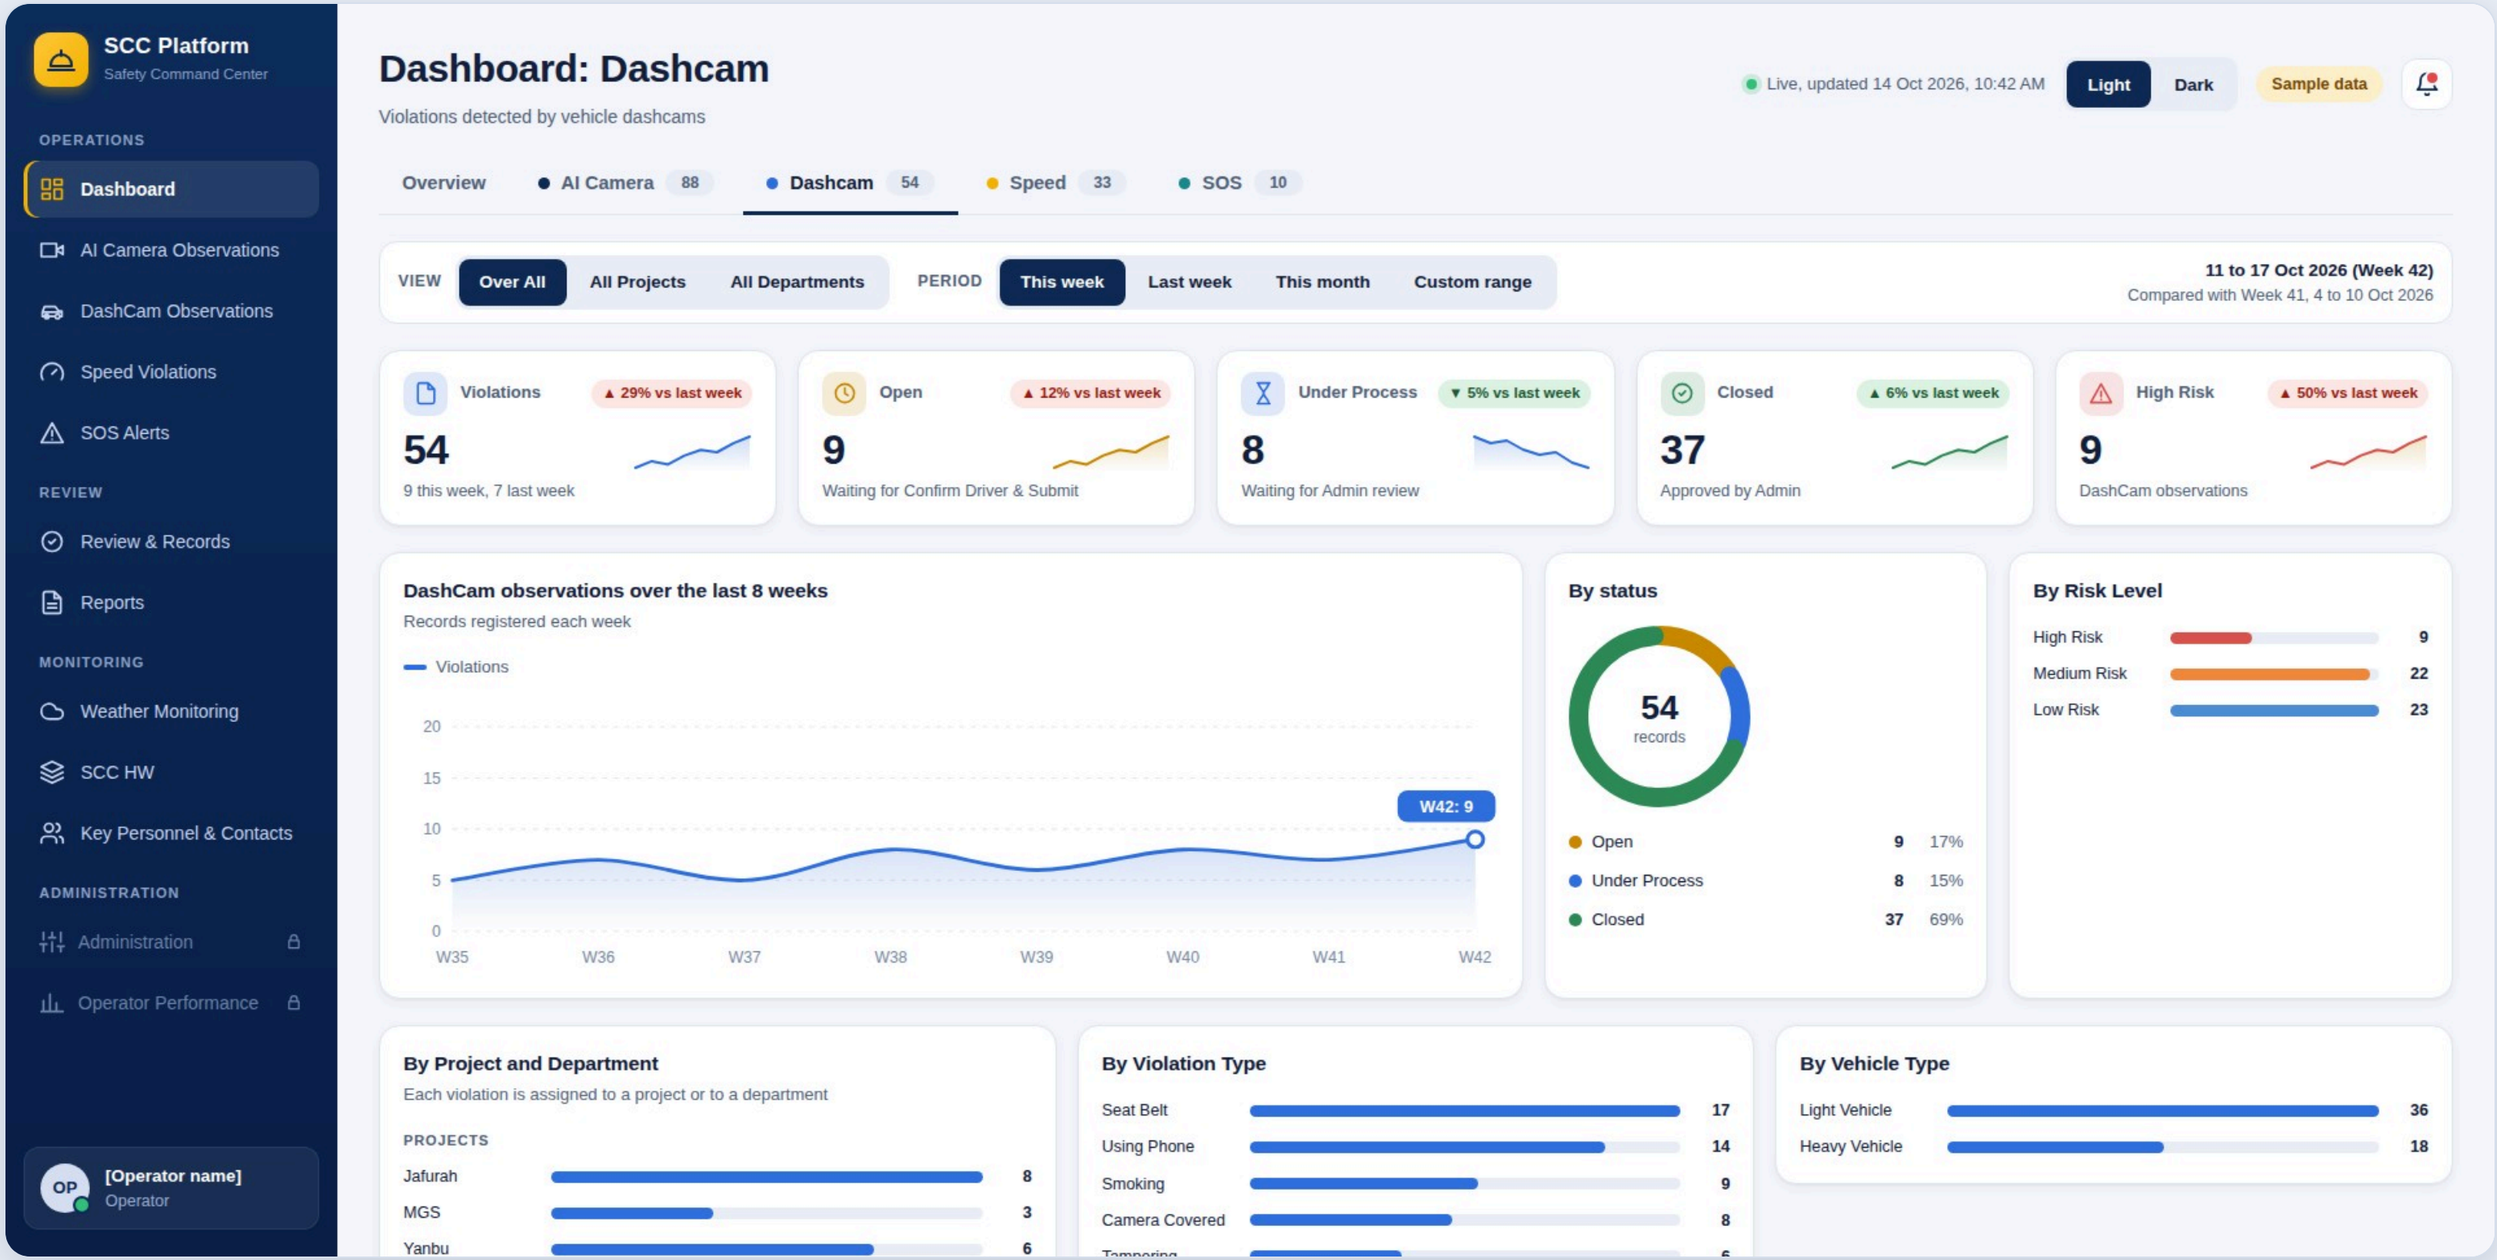

DESIGN NOTE Top 10 of the 34 categories, plus Alert Type, project and detection method. The page ends with the latest observations.

AI Camera dashboard in dark mode

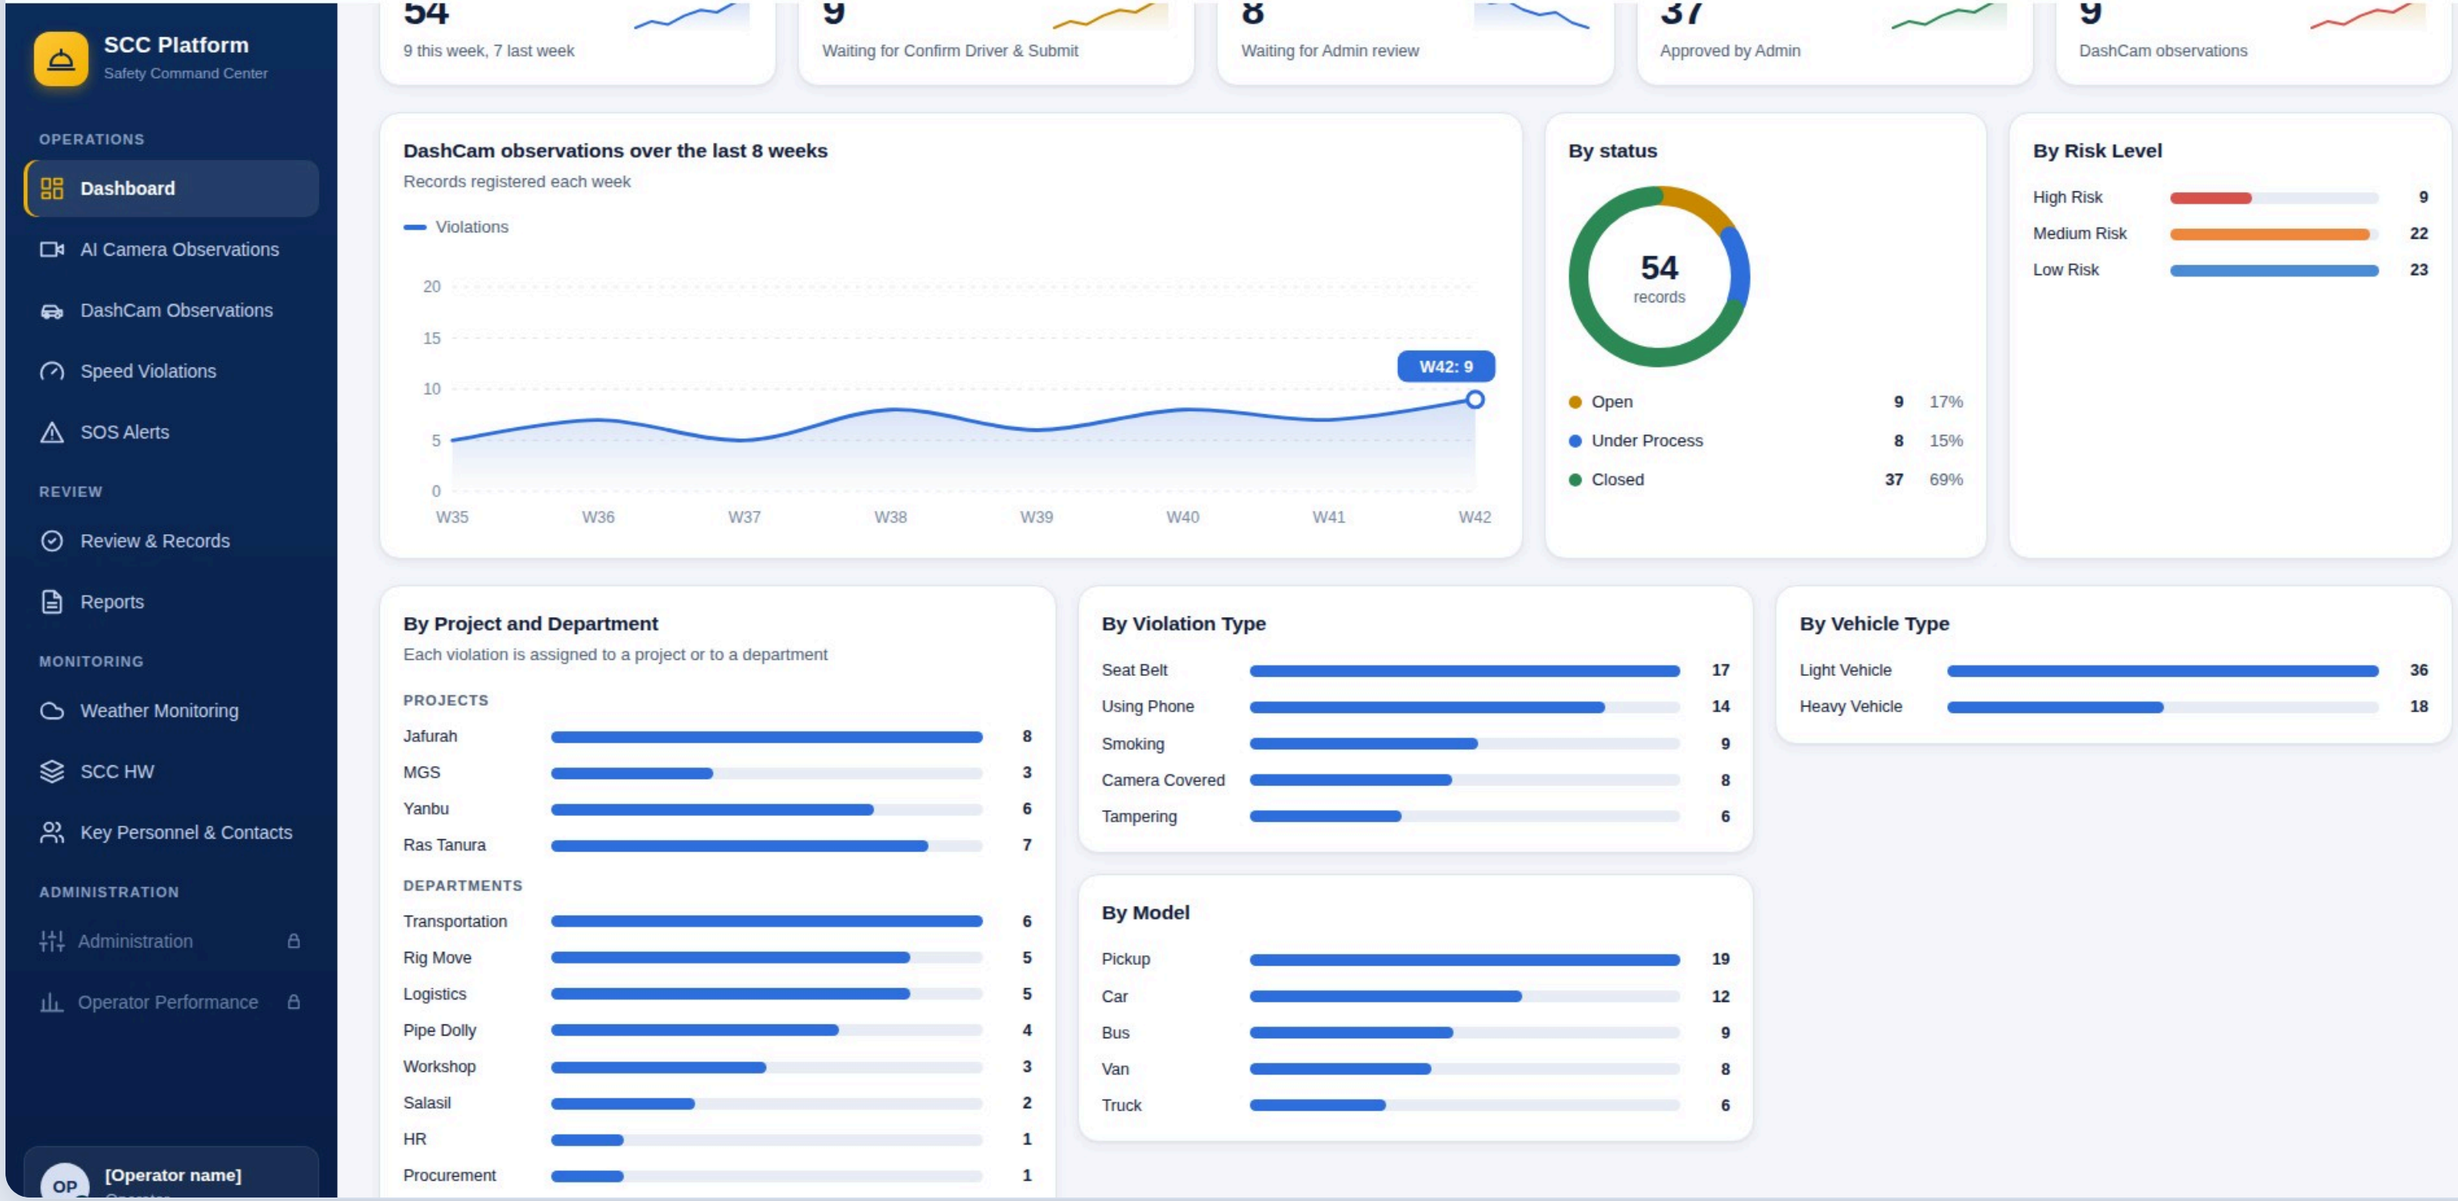

DESIGN NOTE The same dashboard in dark mode.

Dashcam dashboard

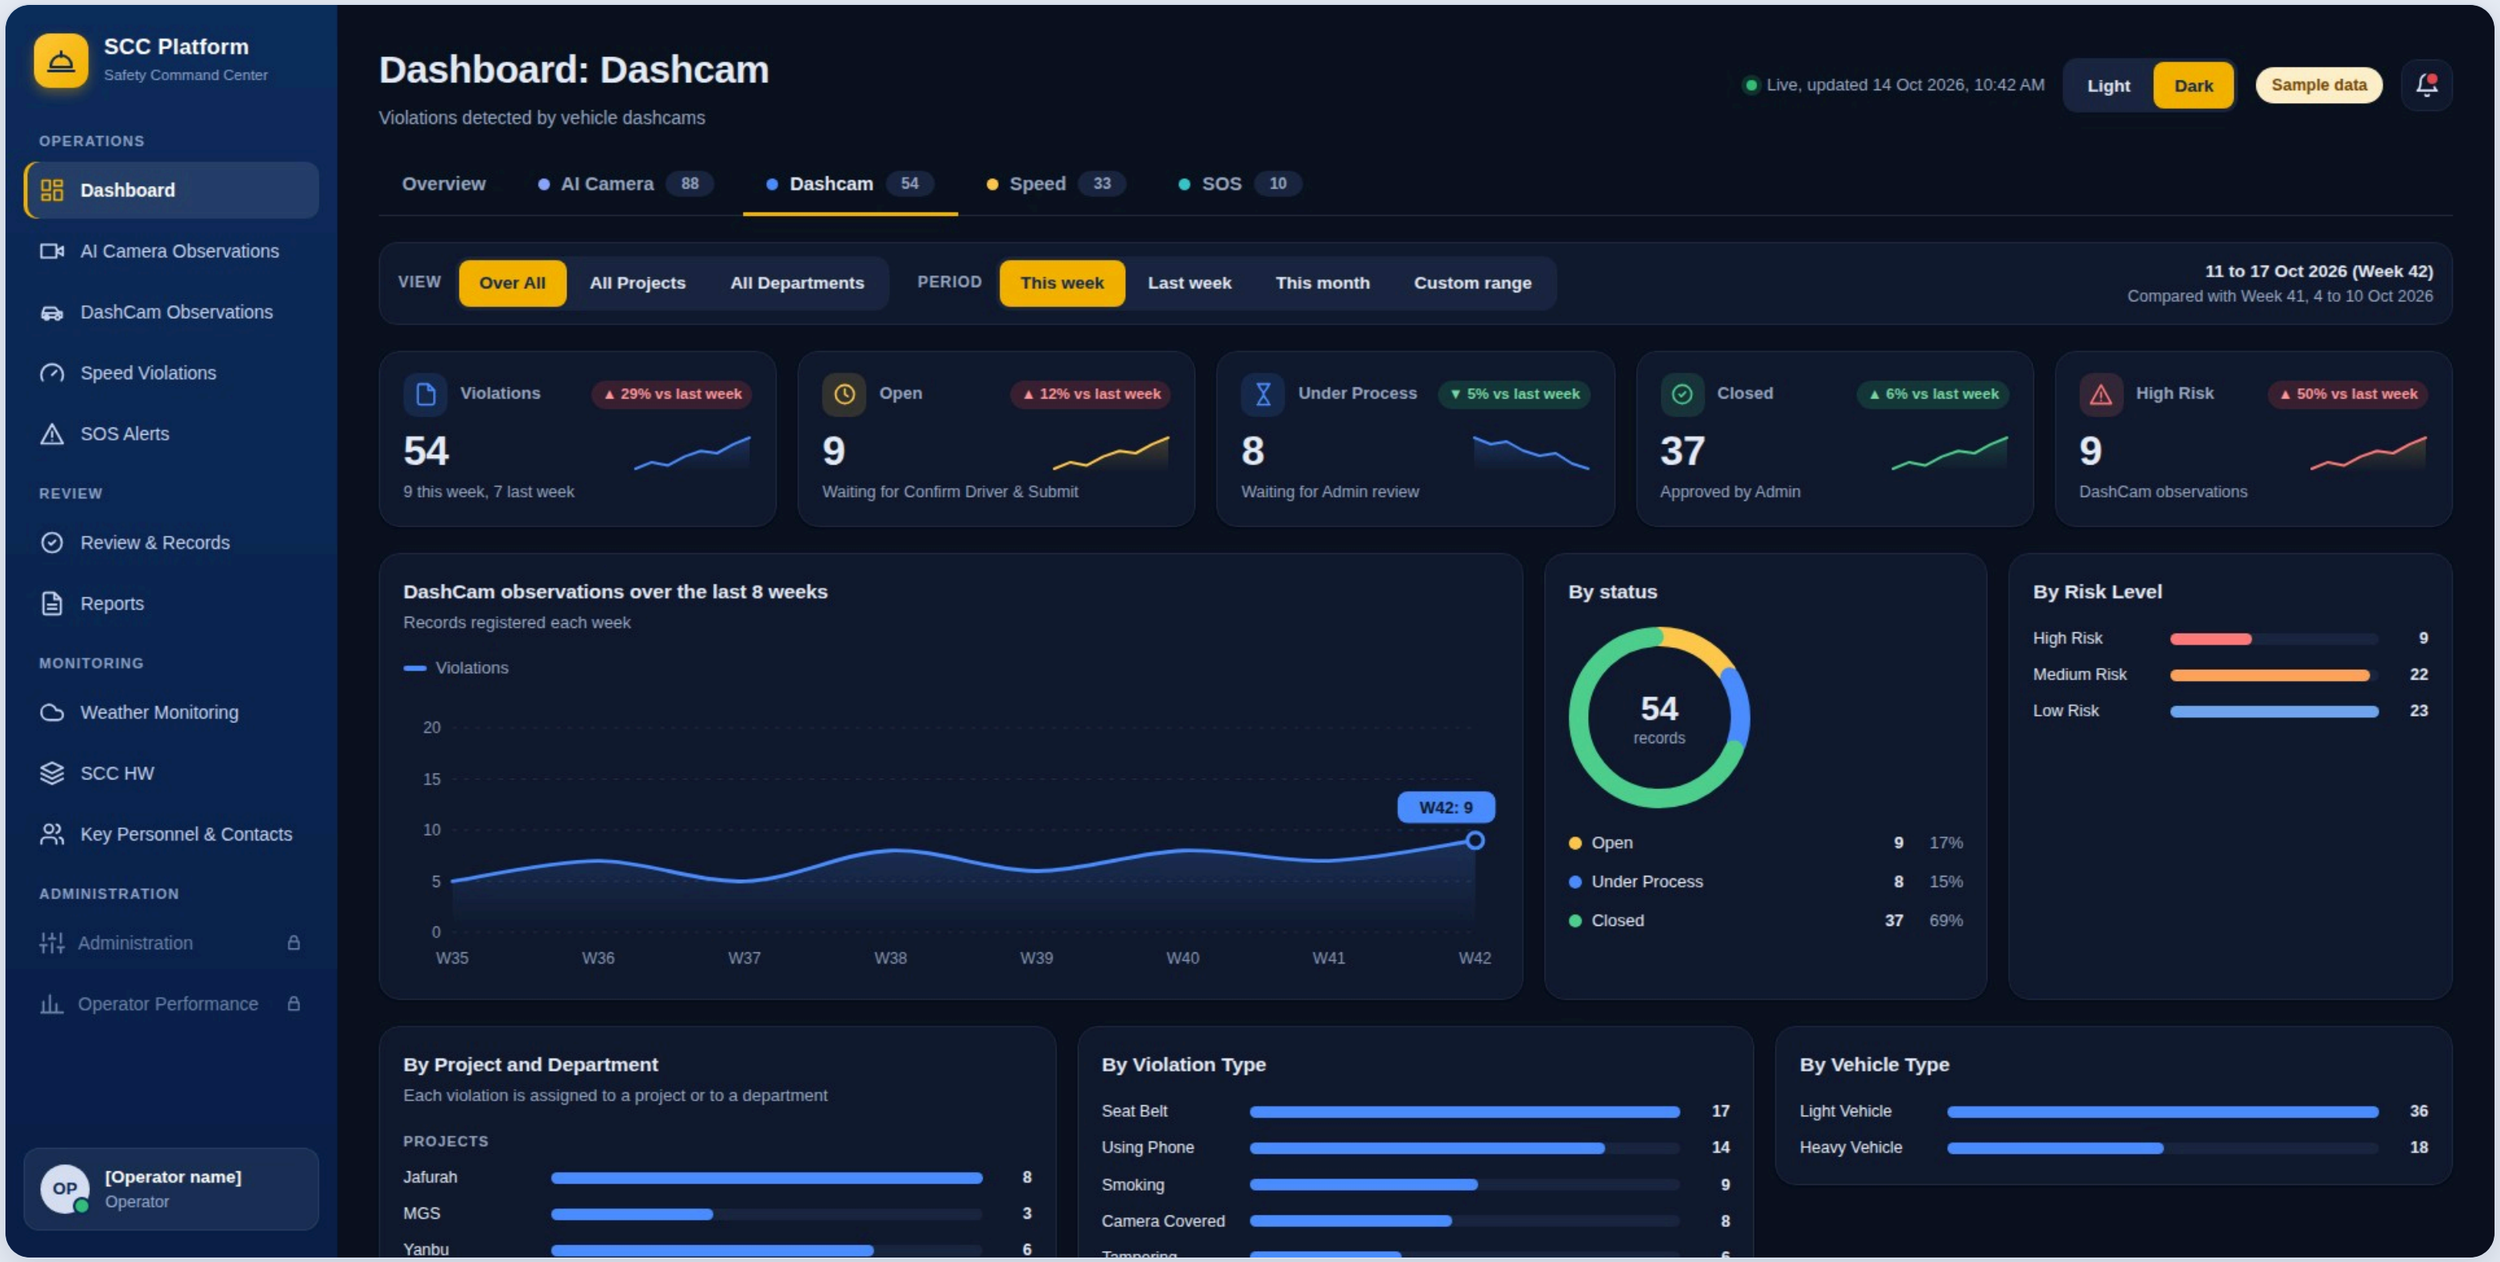

DESIGN NOTE DashCam observations by status and Risk Level. Open means the violation waits for Confirm Driver and Submit.

Dashcam dashboard: project and department

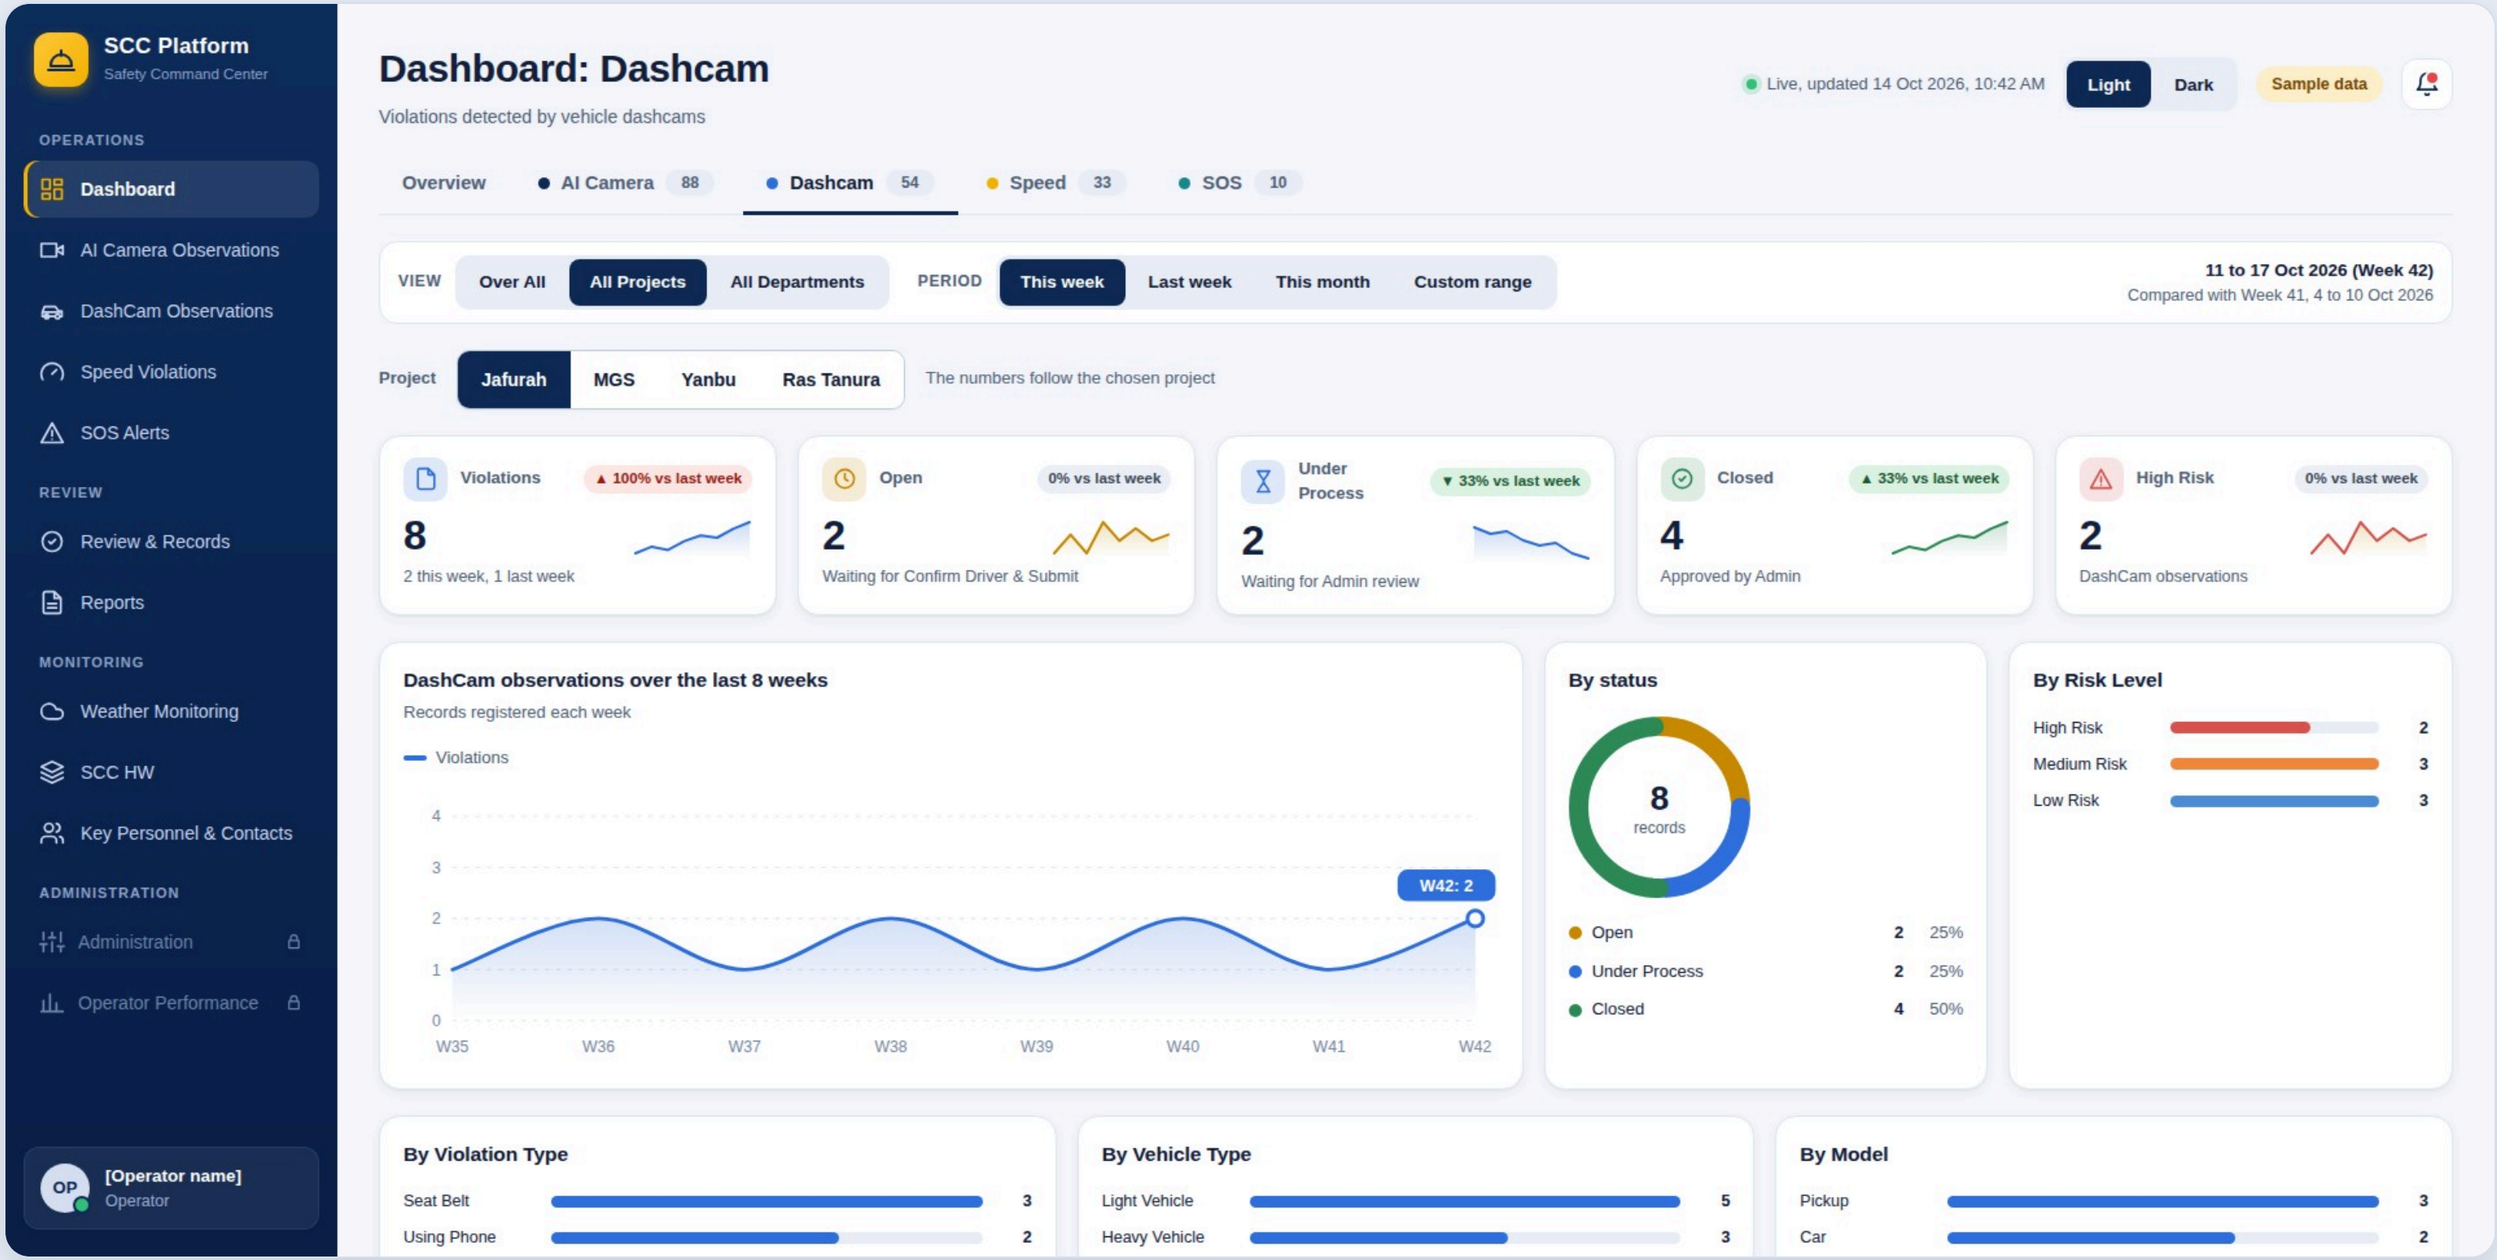

DESIGN NOTE Projects and departments sit in one card, because each violation is assigned to a project or to a department. Violation Type, Vehicle Type and Model follow.

Dashcam dashboard in dark mode

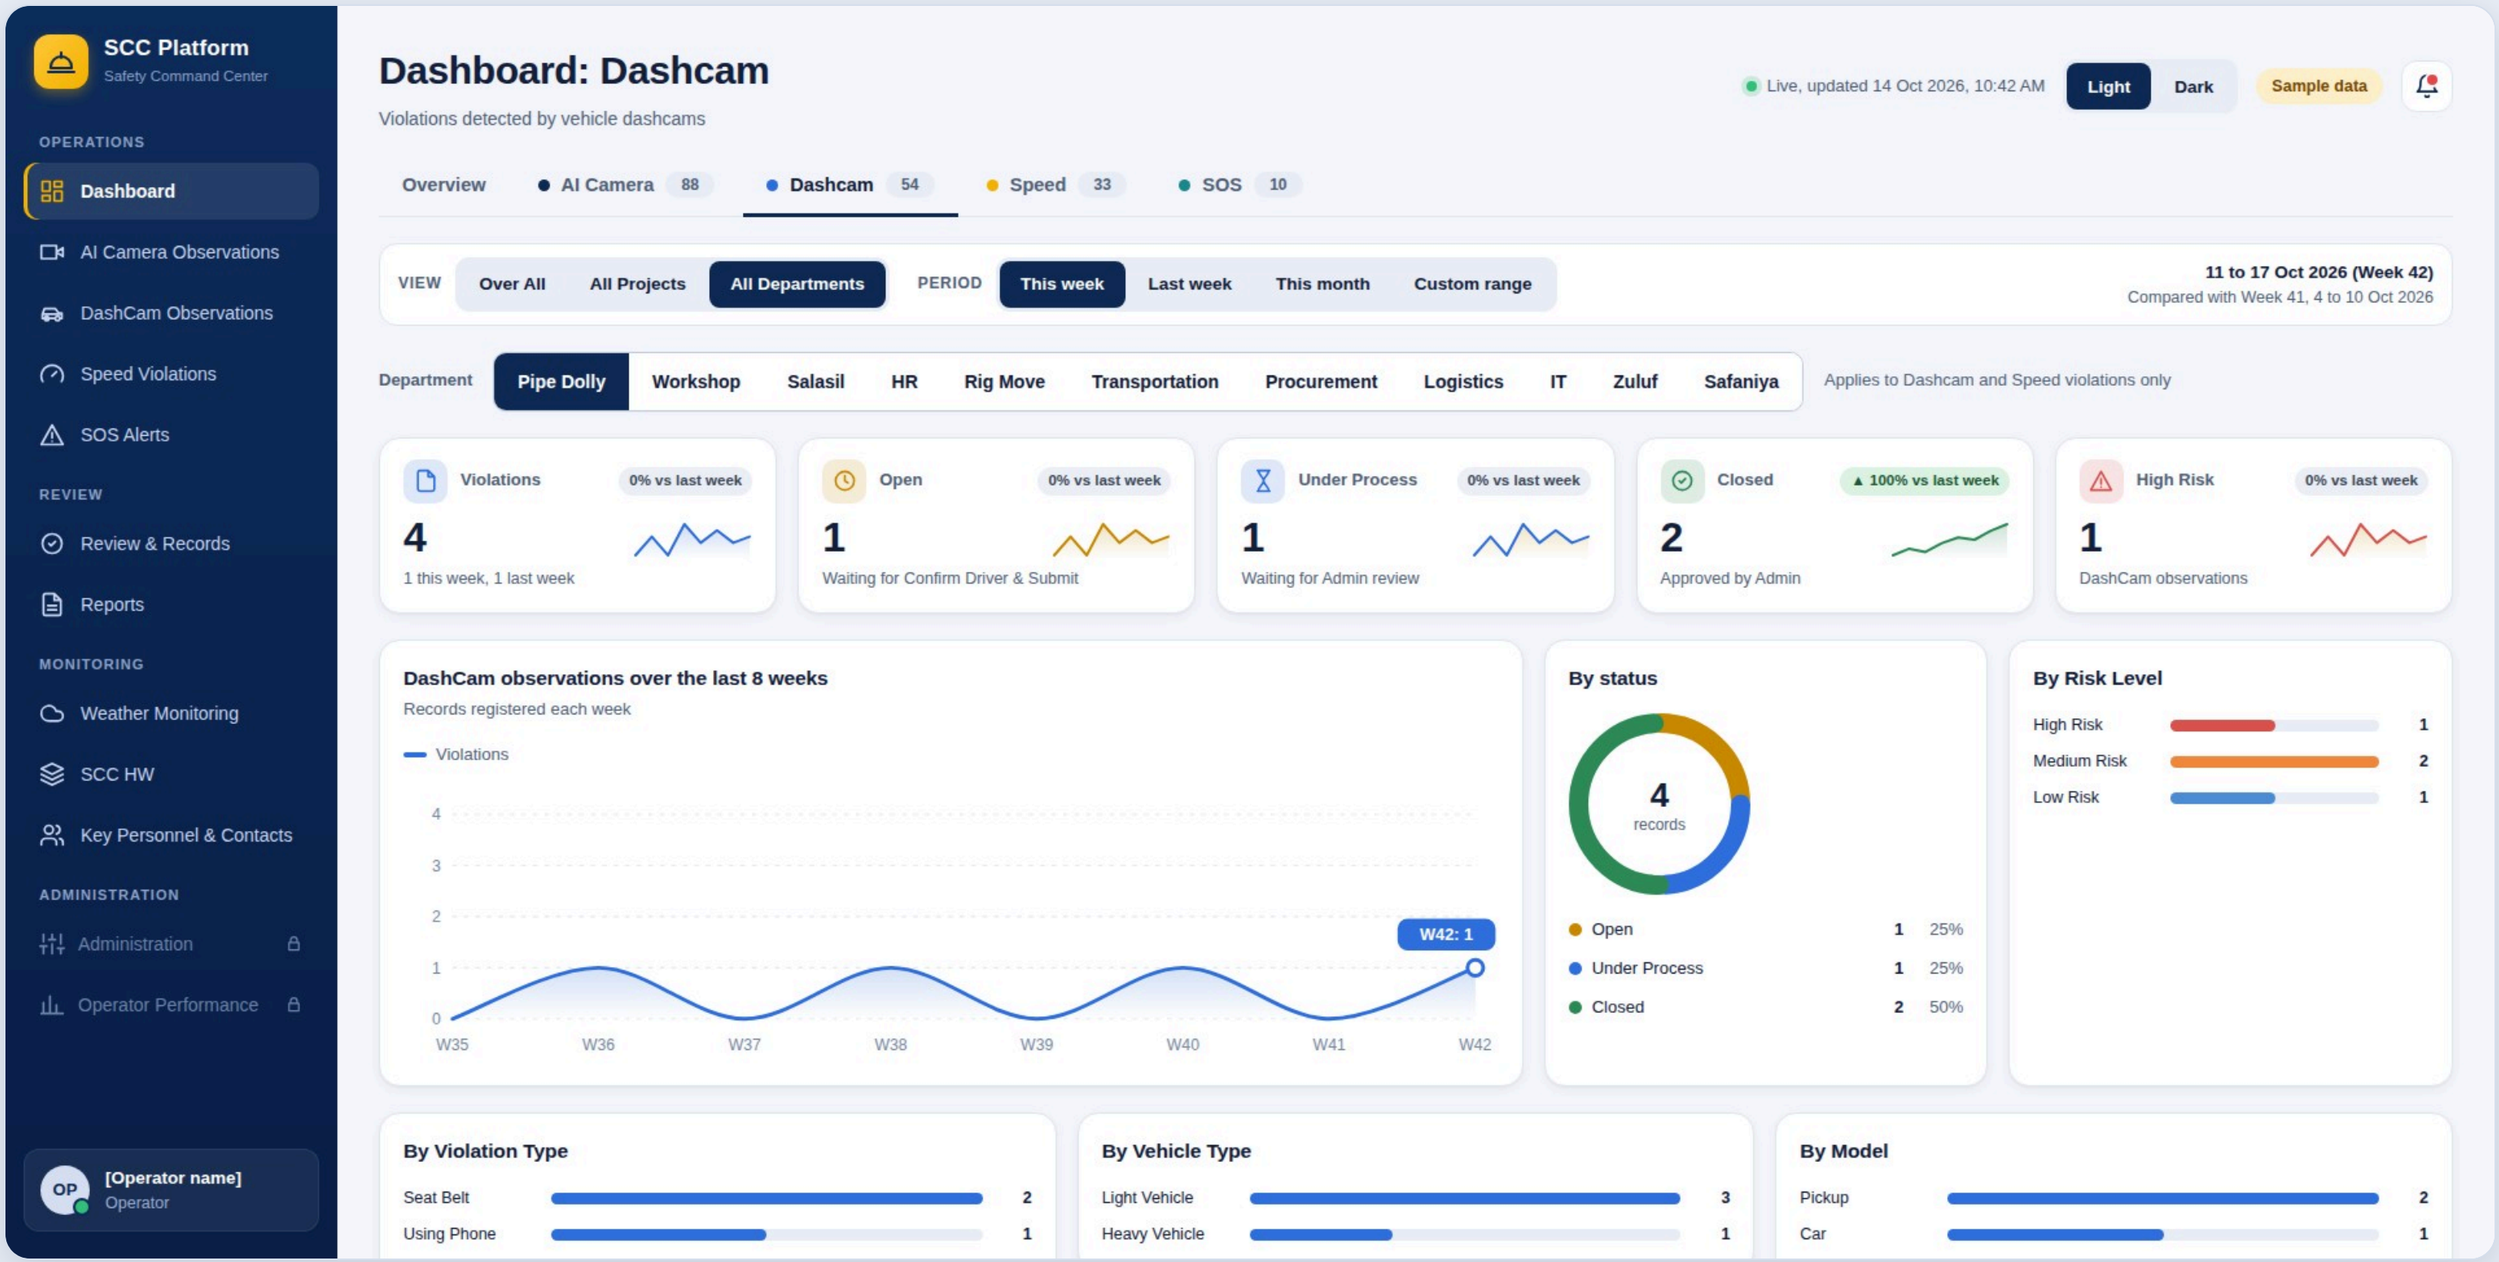

DESIGN NOTE The same dashboard in dark mode.

Dashcam dashboard: All Projects view

DESIGN NOTE Choosing All Projects adds a second row with the projects. The figures follow the chosen project.

Dashcam dashboard: All Departments view

DESIGN NOTE Choosing All Departments adds a second row with the 11 departments. It applies to Dashcam and Speed only.

Slowest 4 min 10 s 8

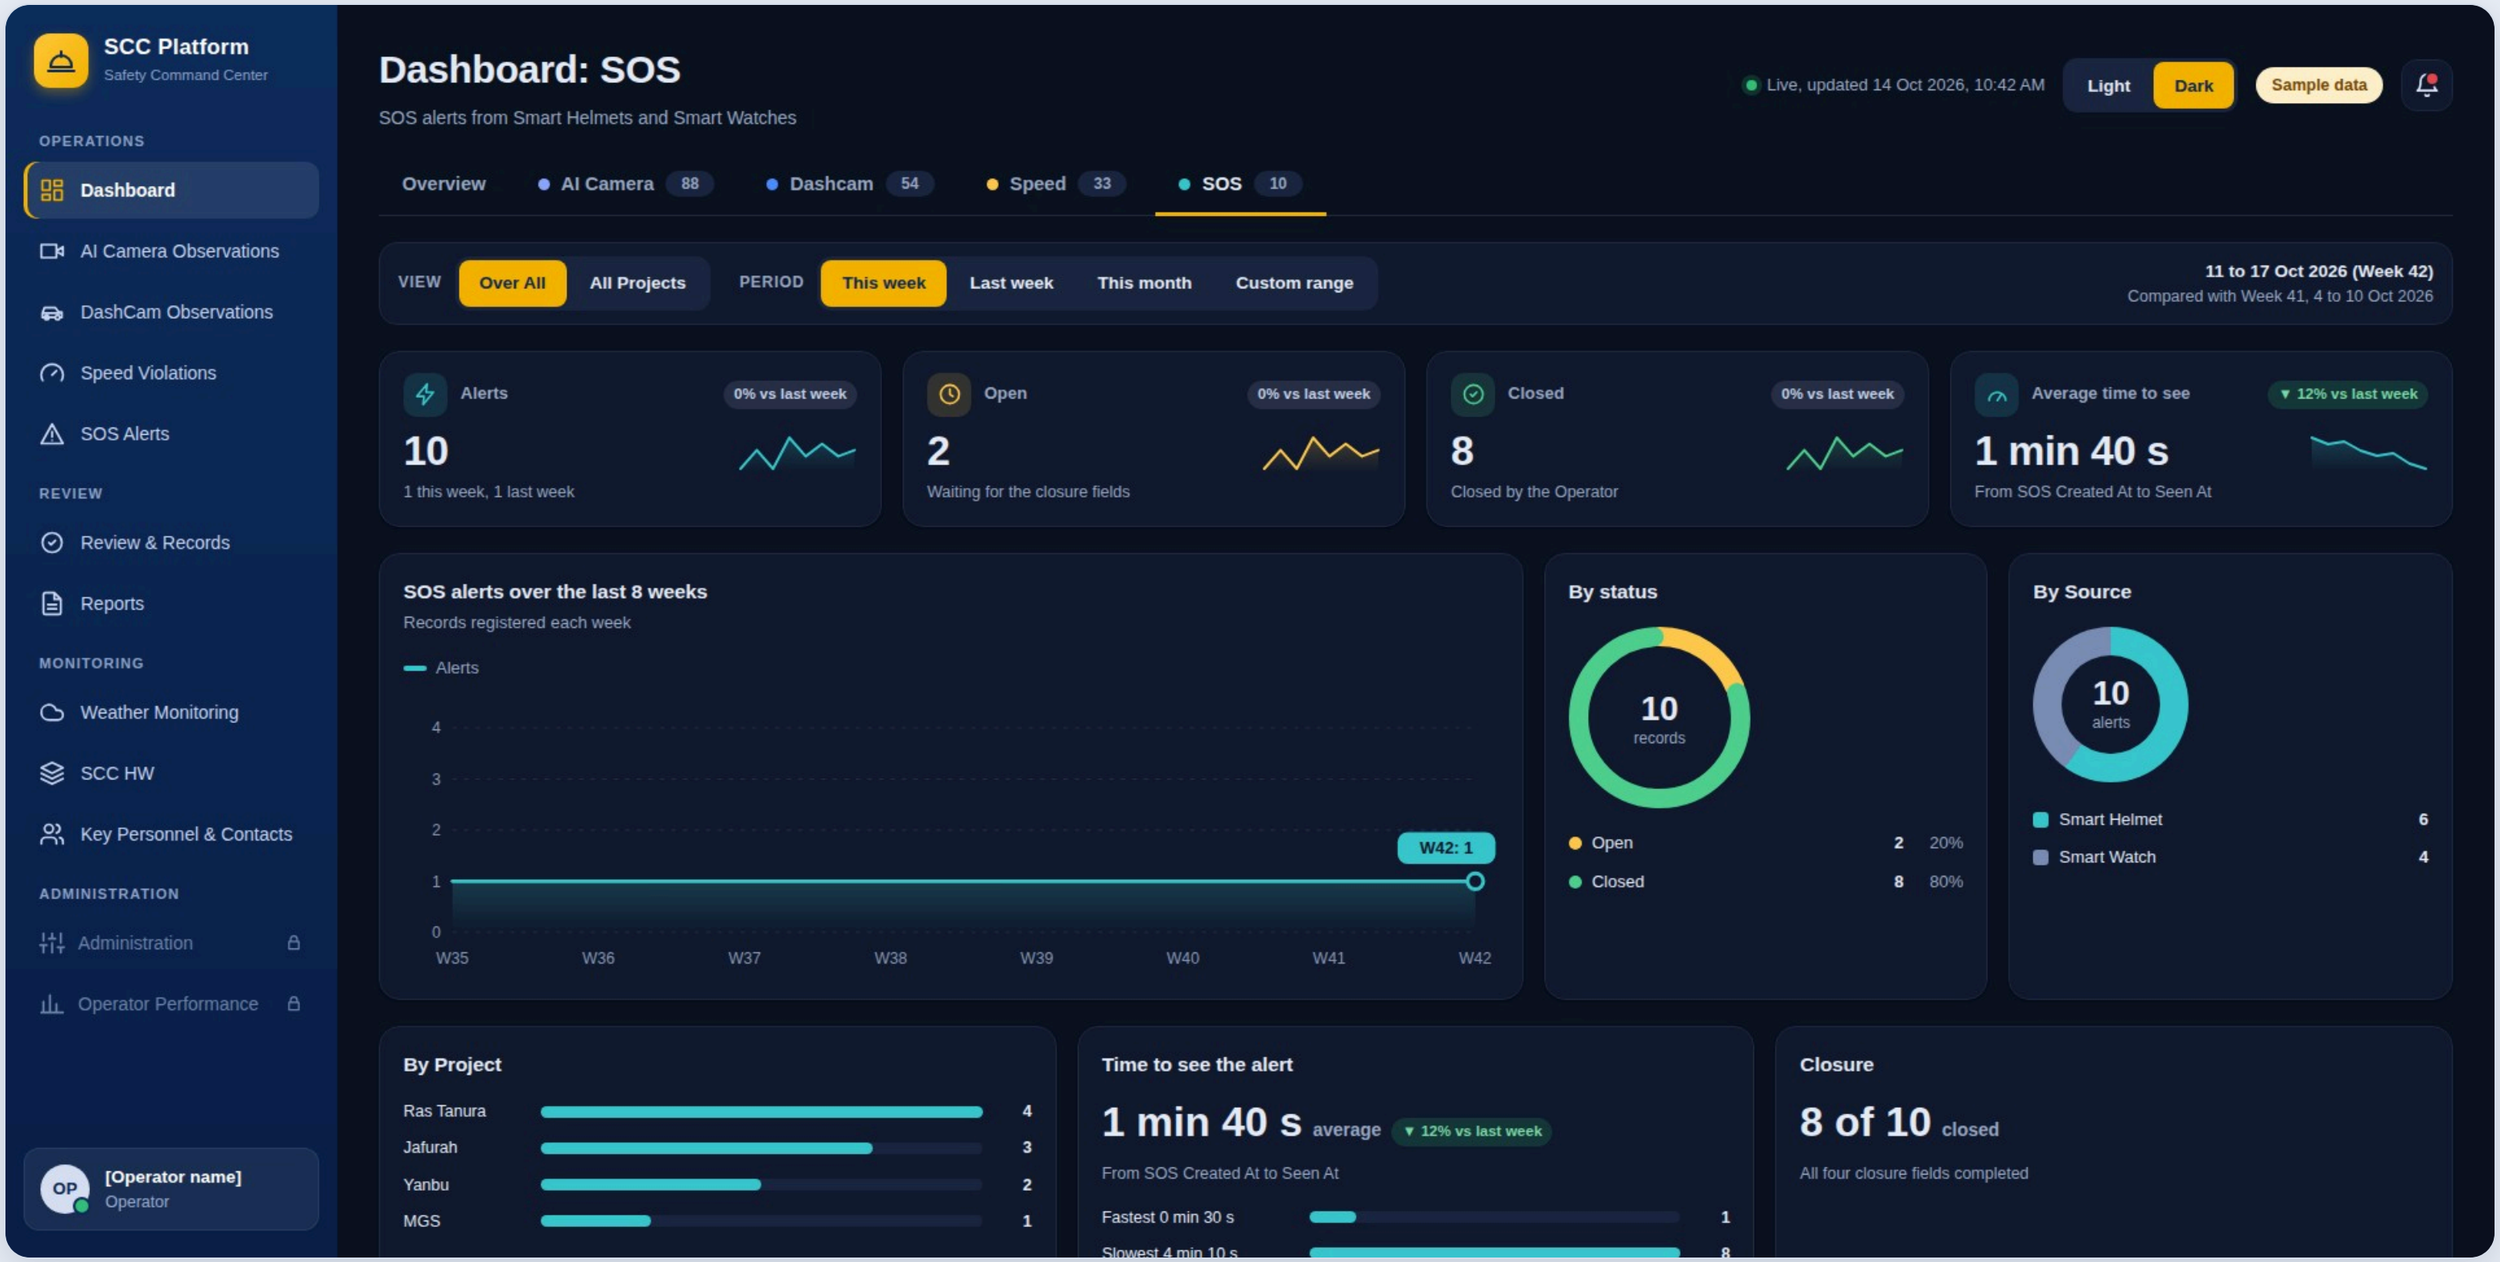

Closure

8 of 10 closed

All four closure fields completed

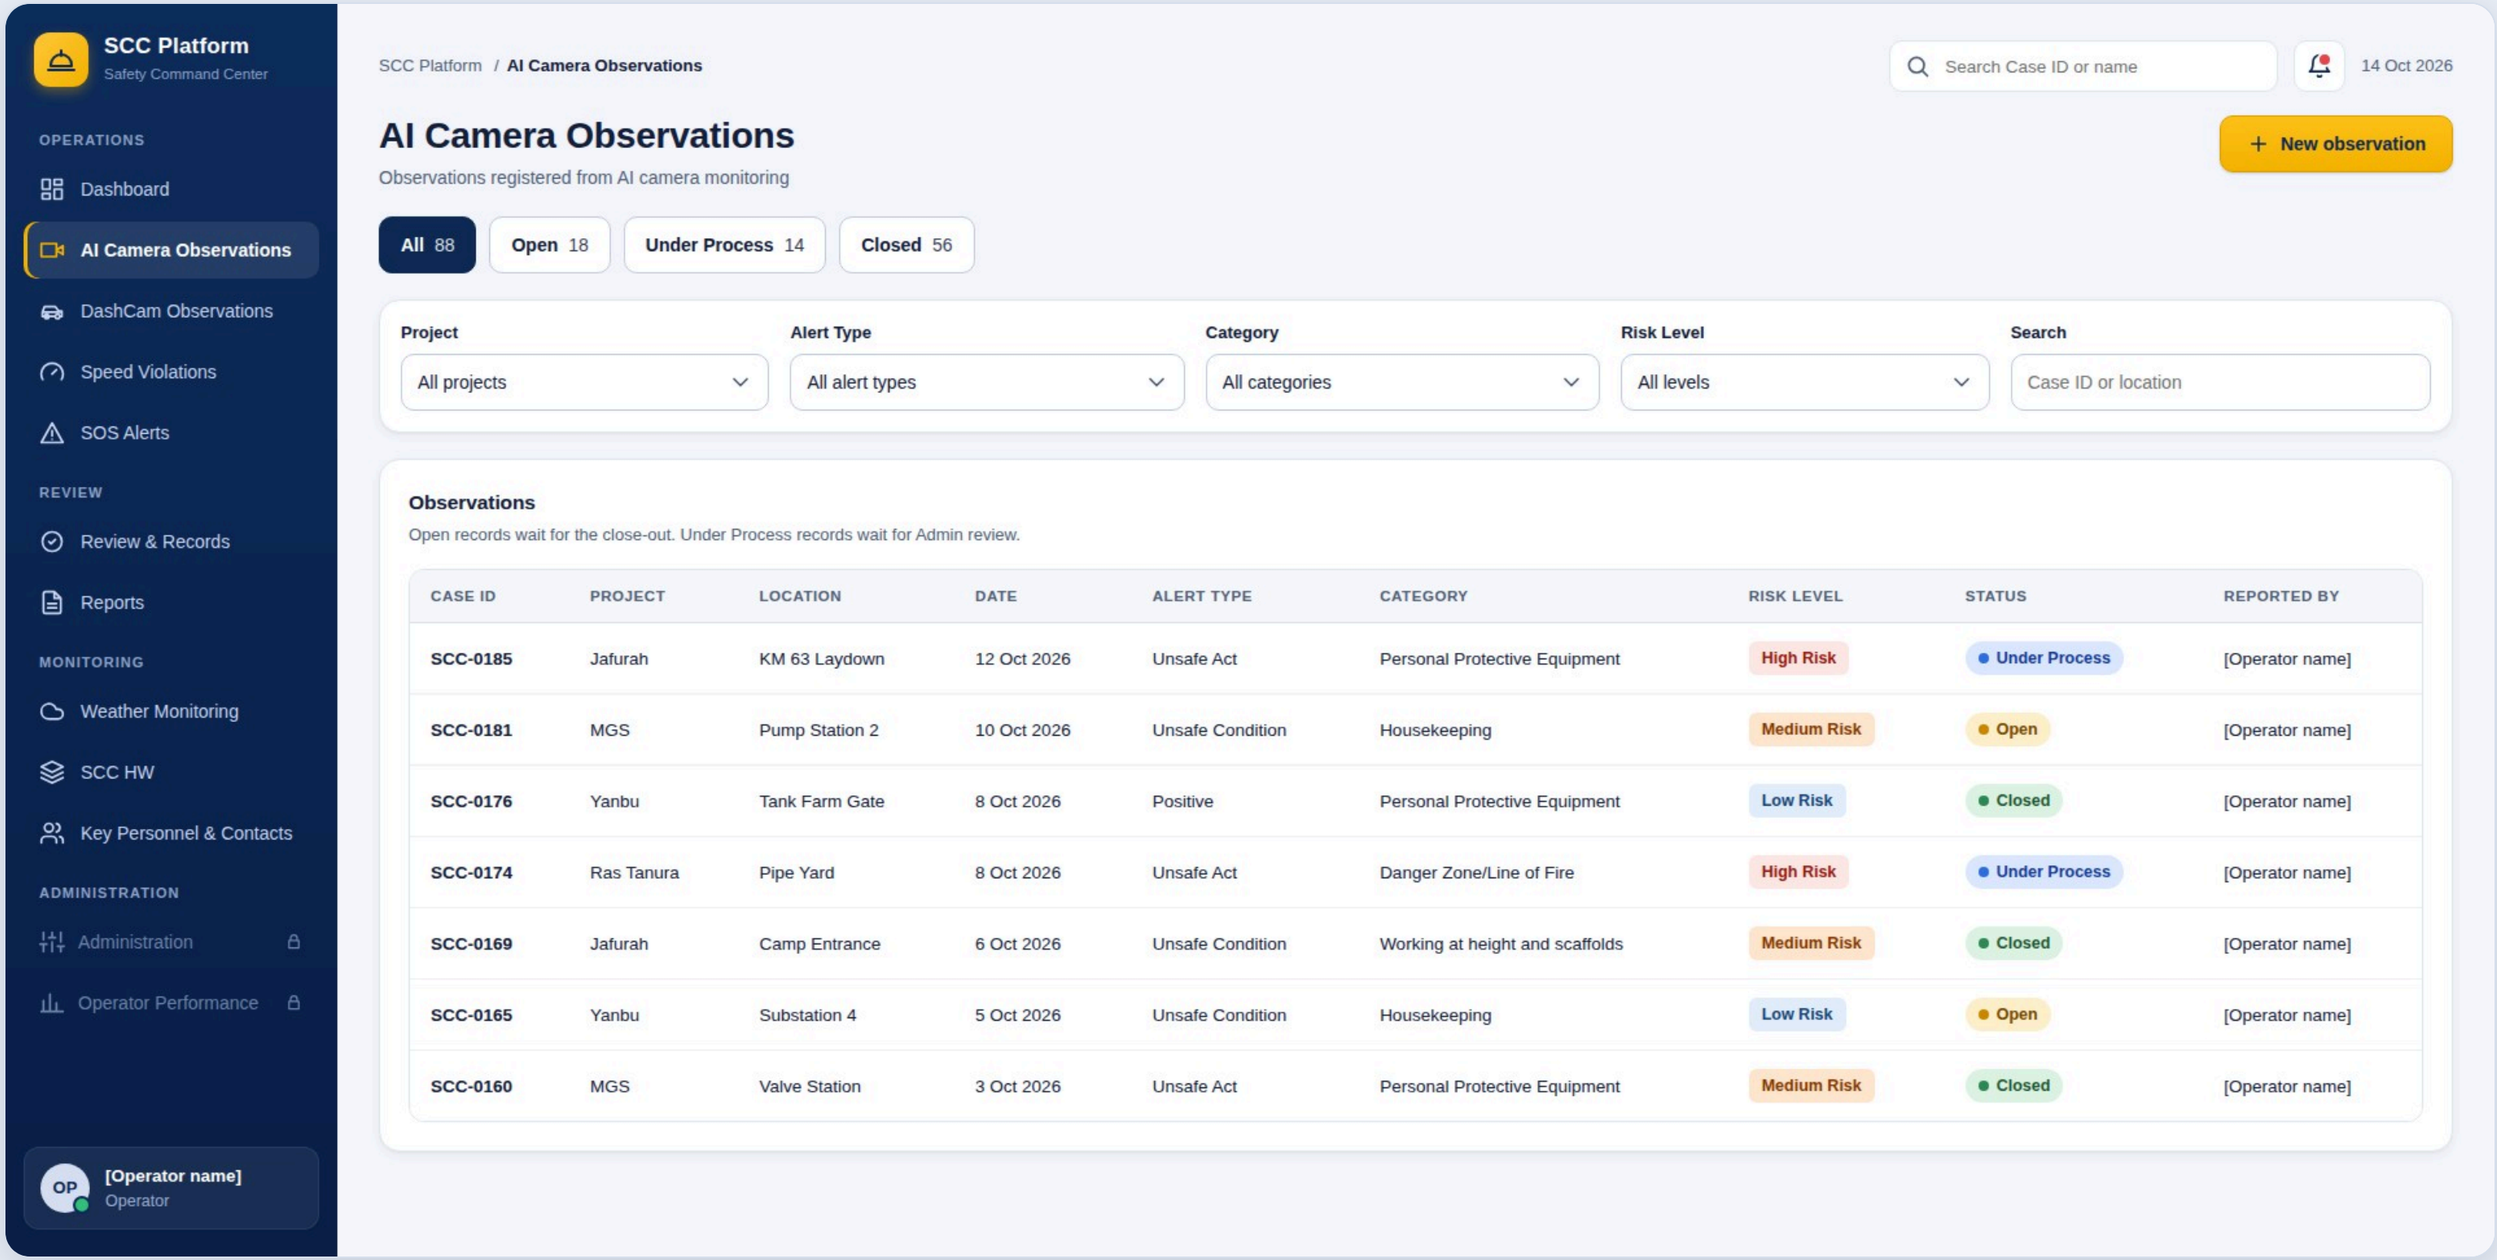

DESIGN NOTE SOS alerts have only Open and Closed. The dashboard adds the average time to see an alert, from SOS Created At to Seen At.

SOS dashboard in dark mode

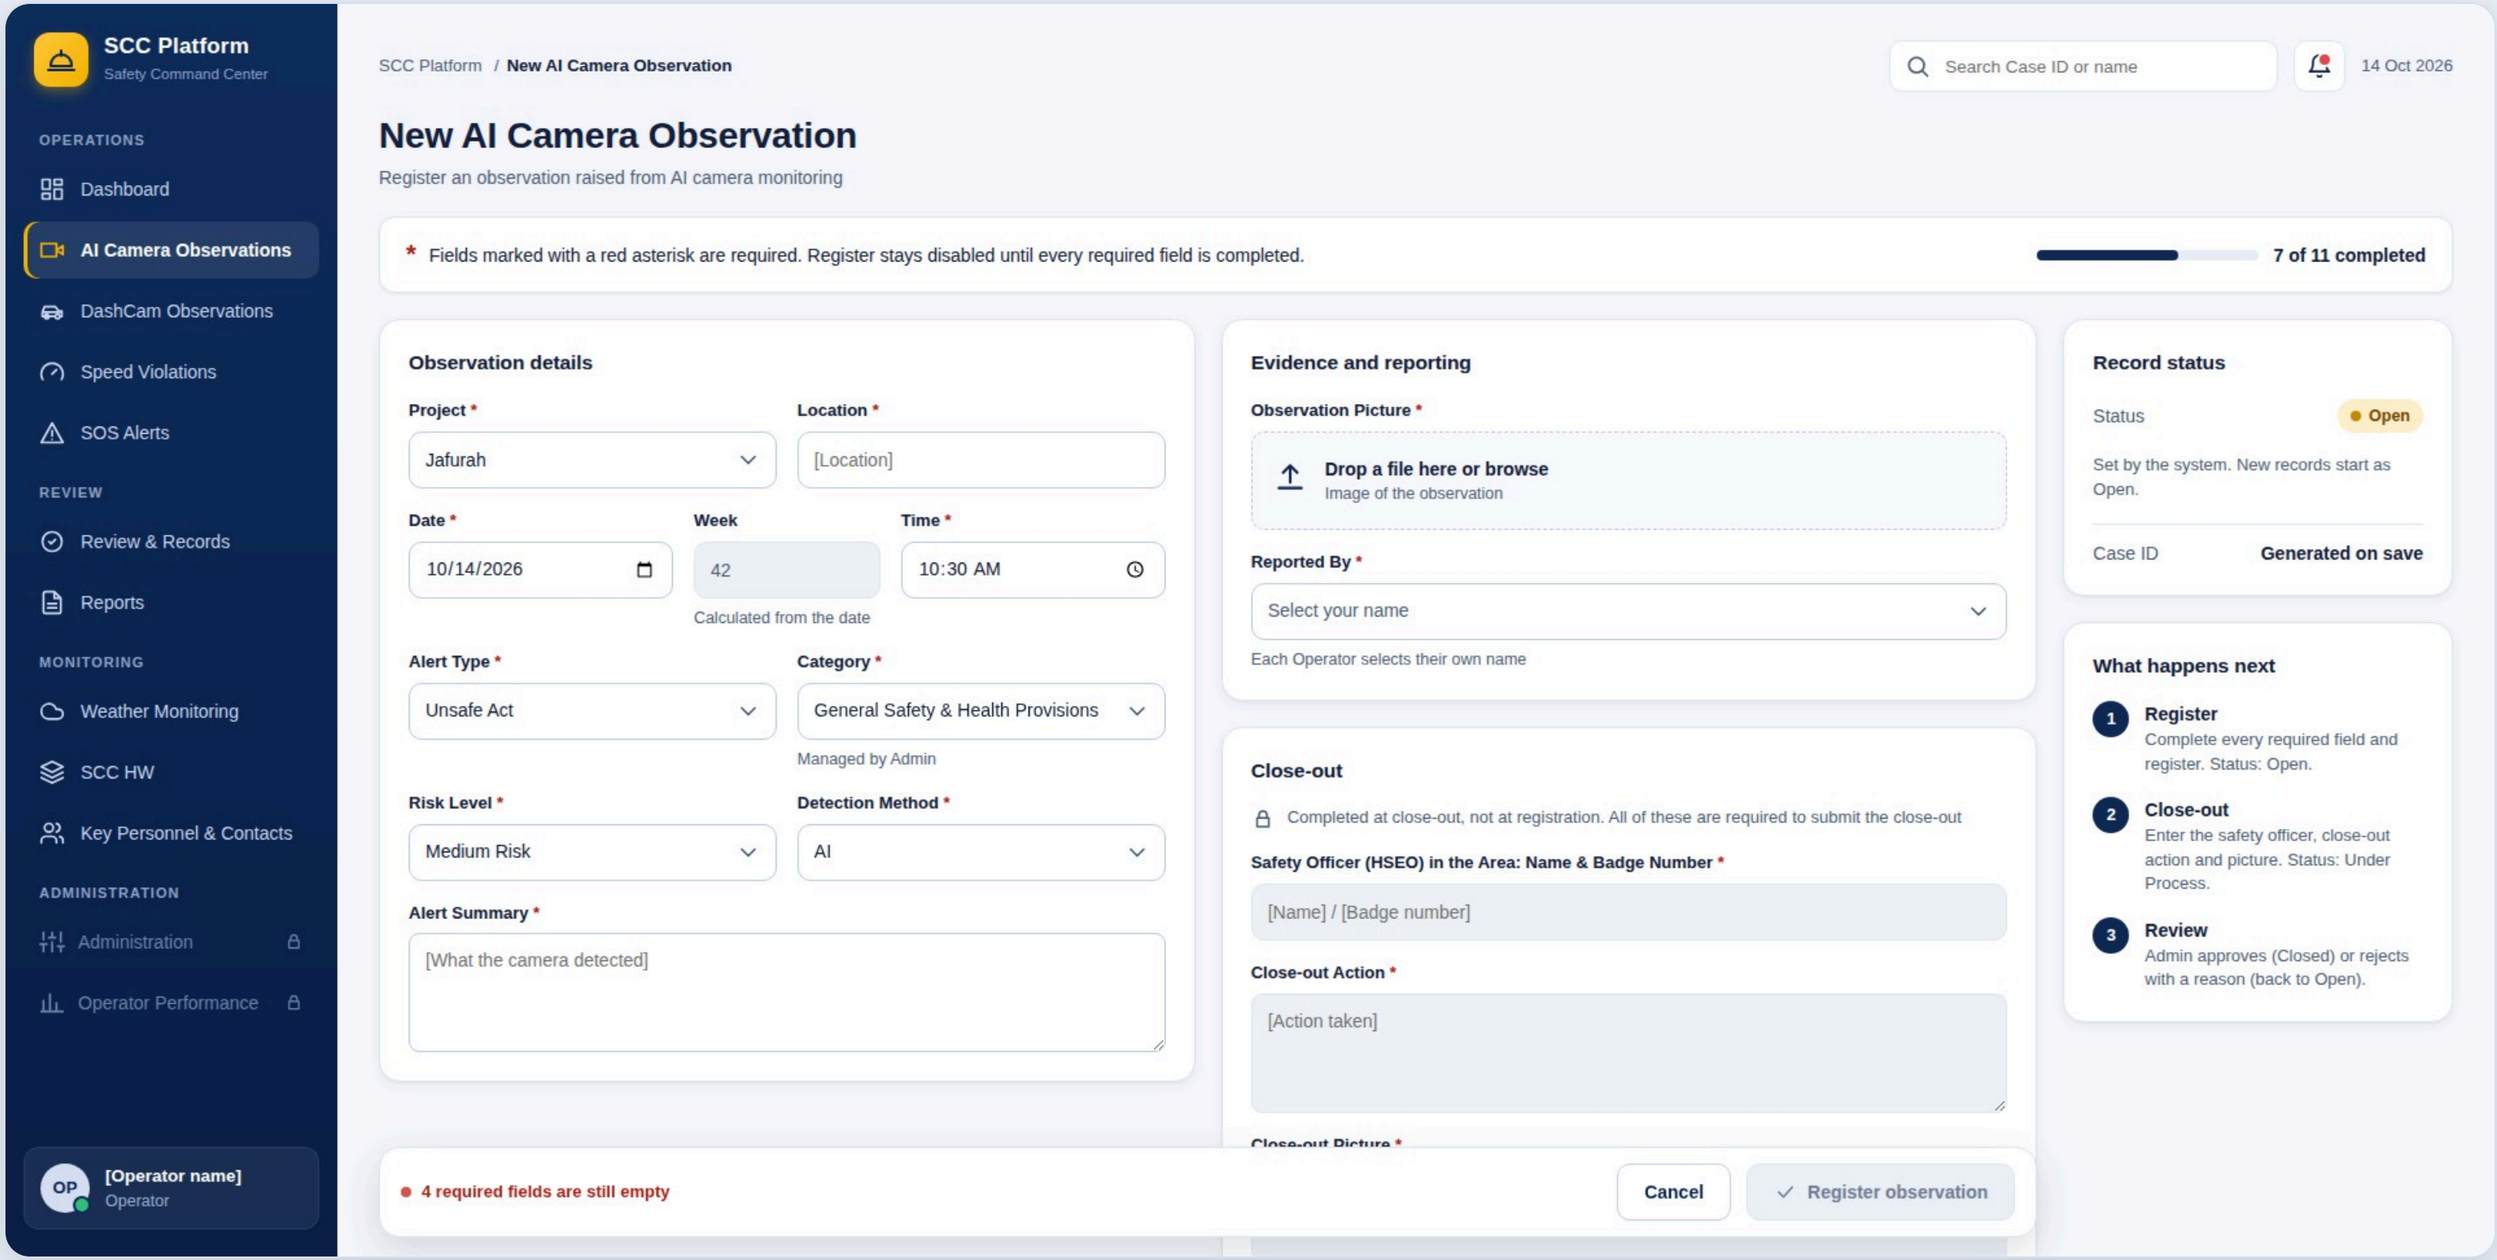

DESIGN NOTE The same dashboard in dark mode.

AI Camera observation register

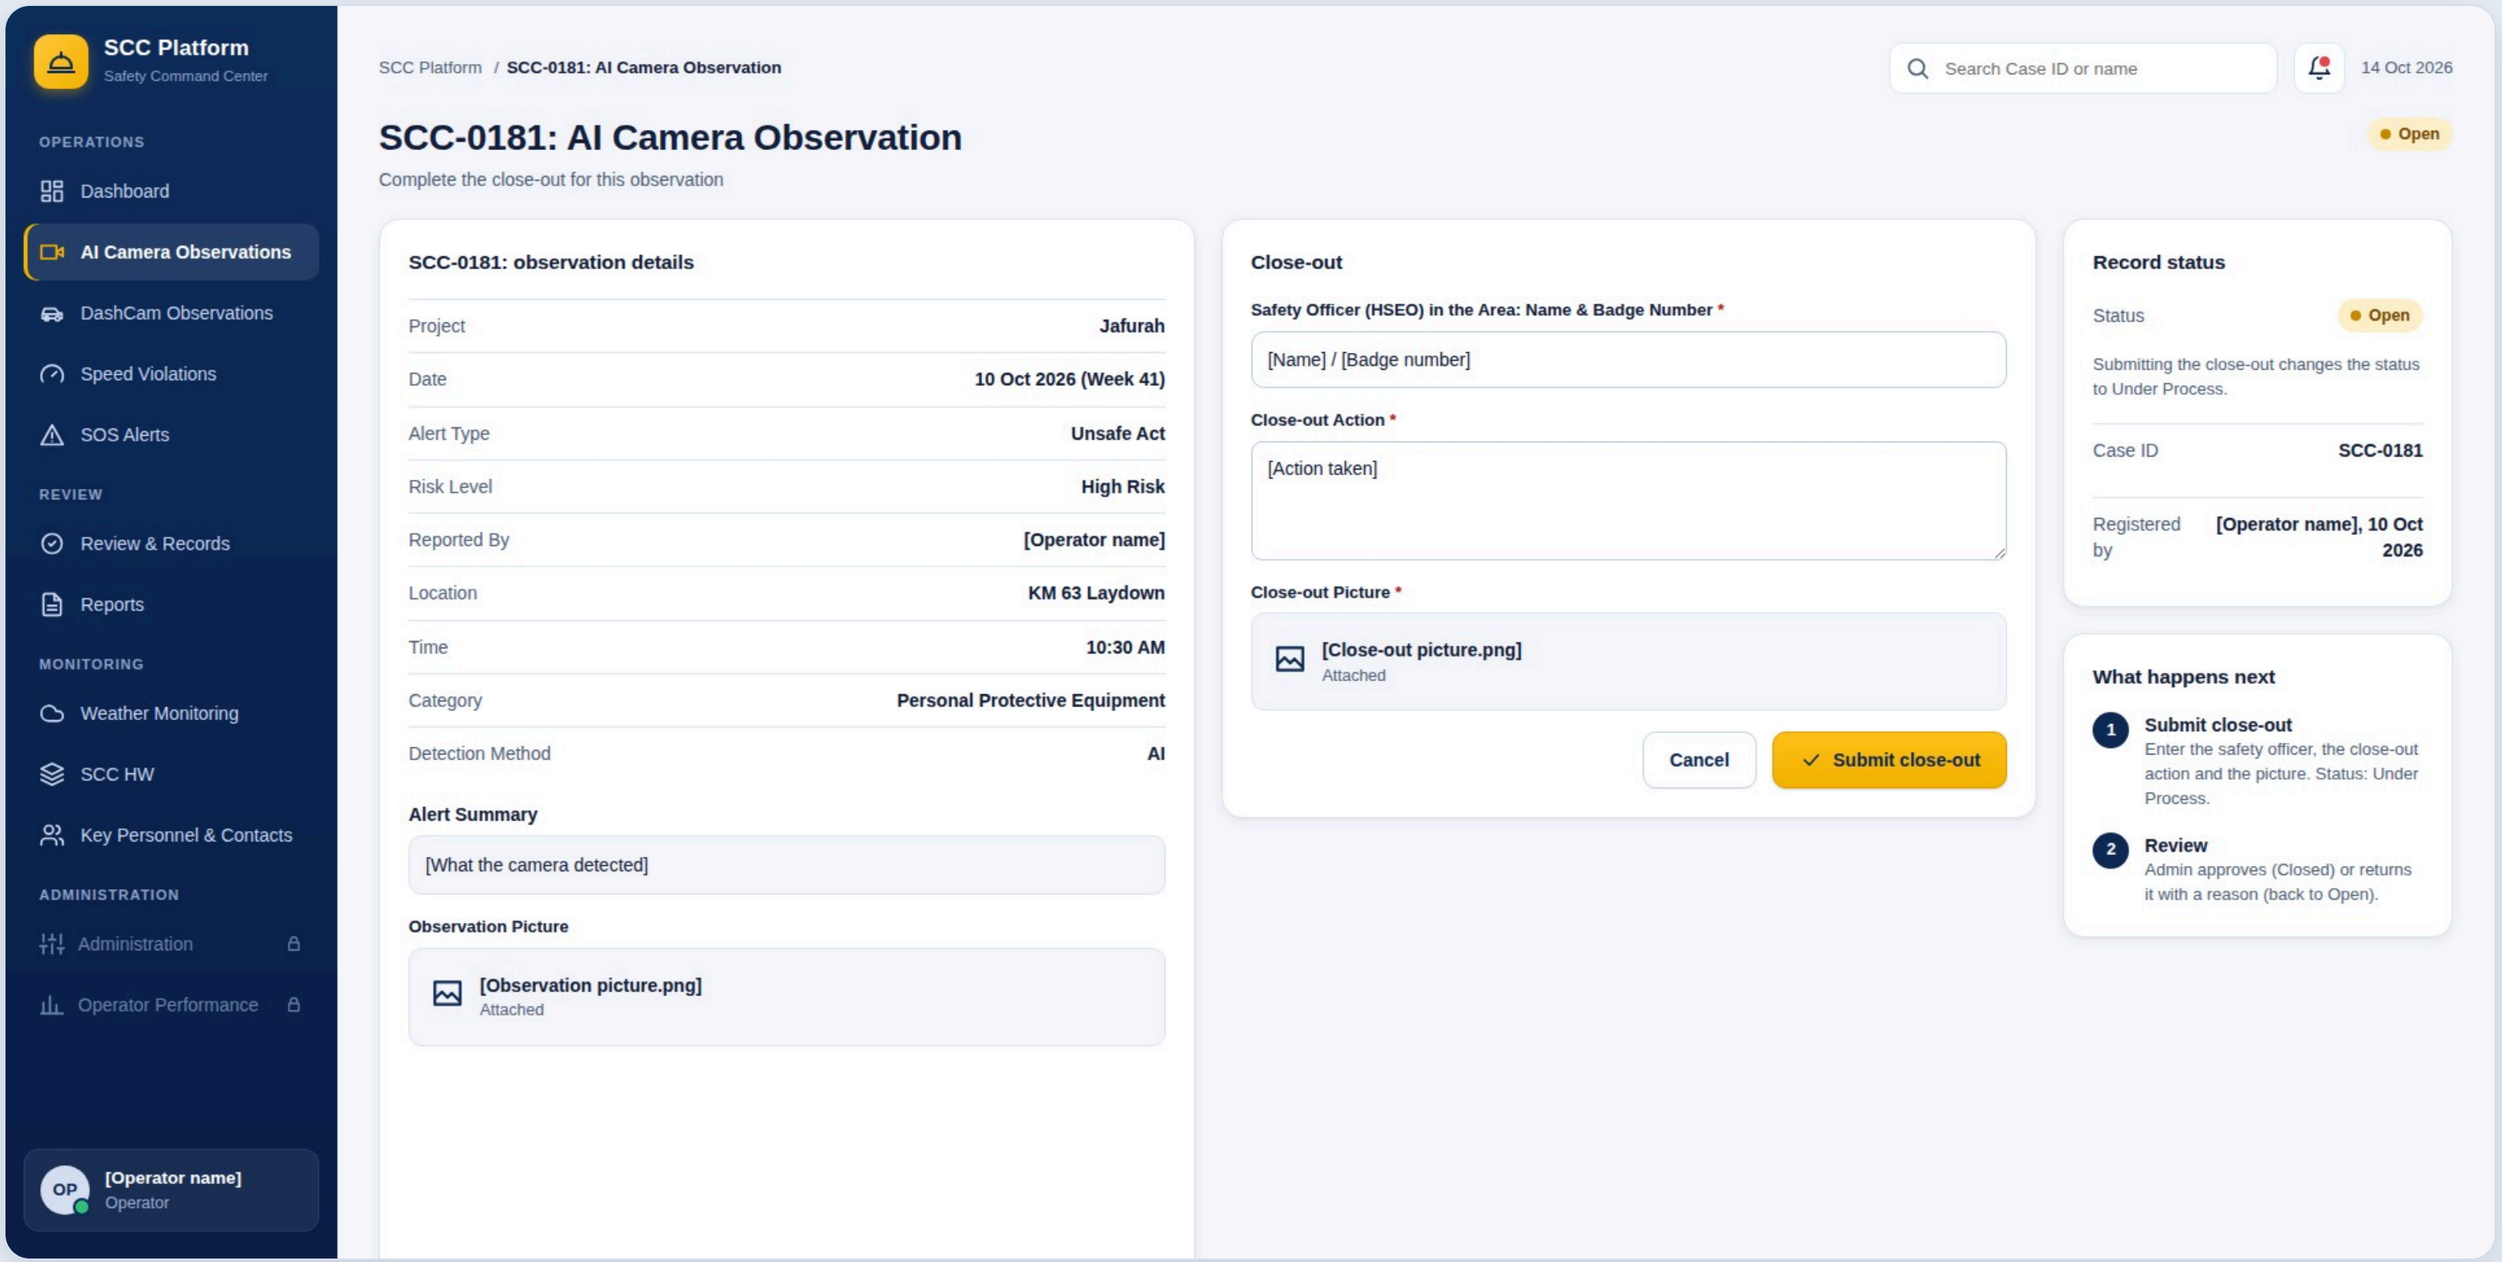

DESIGN NOTE Status counts follow the workflow: Open, Under Process and Closed. A new observation starts as Open.

Register an AI Camera observation

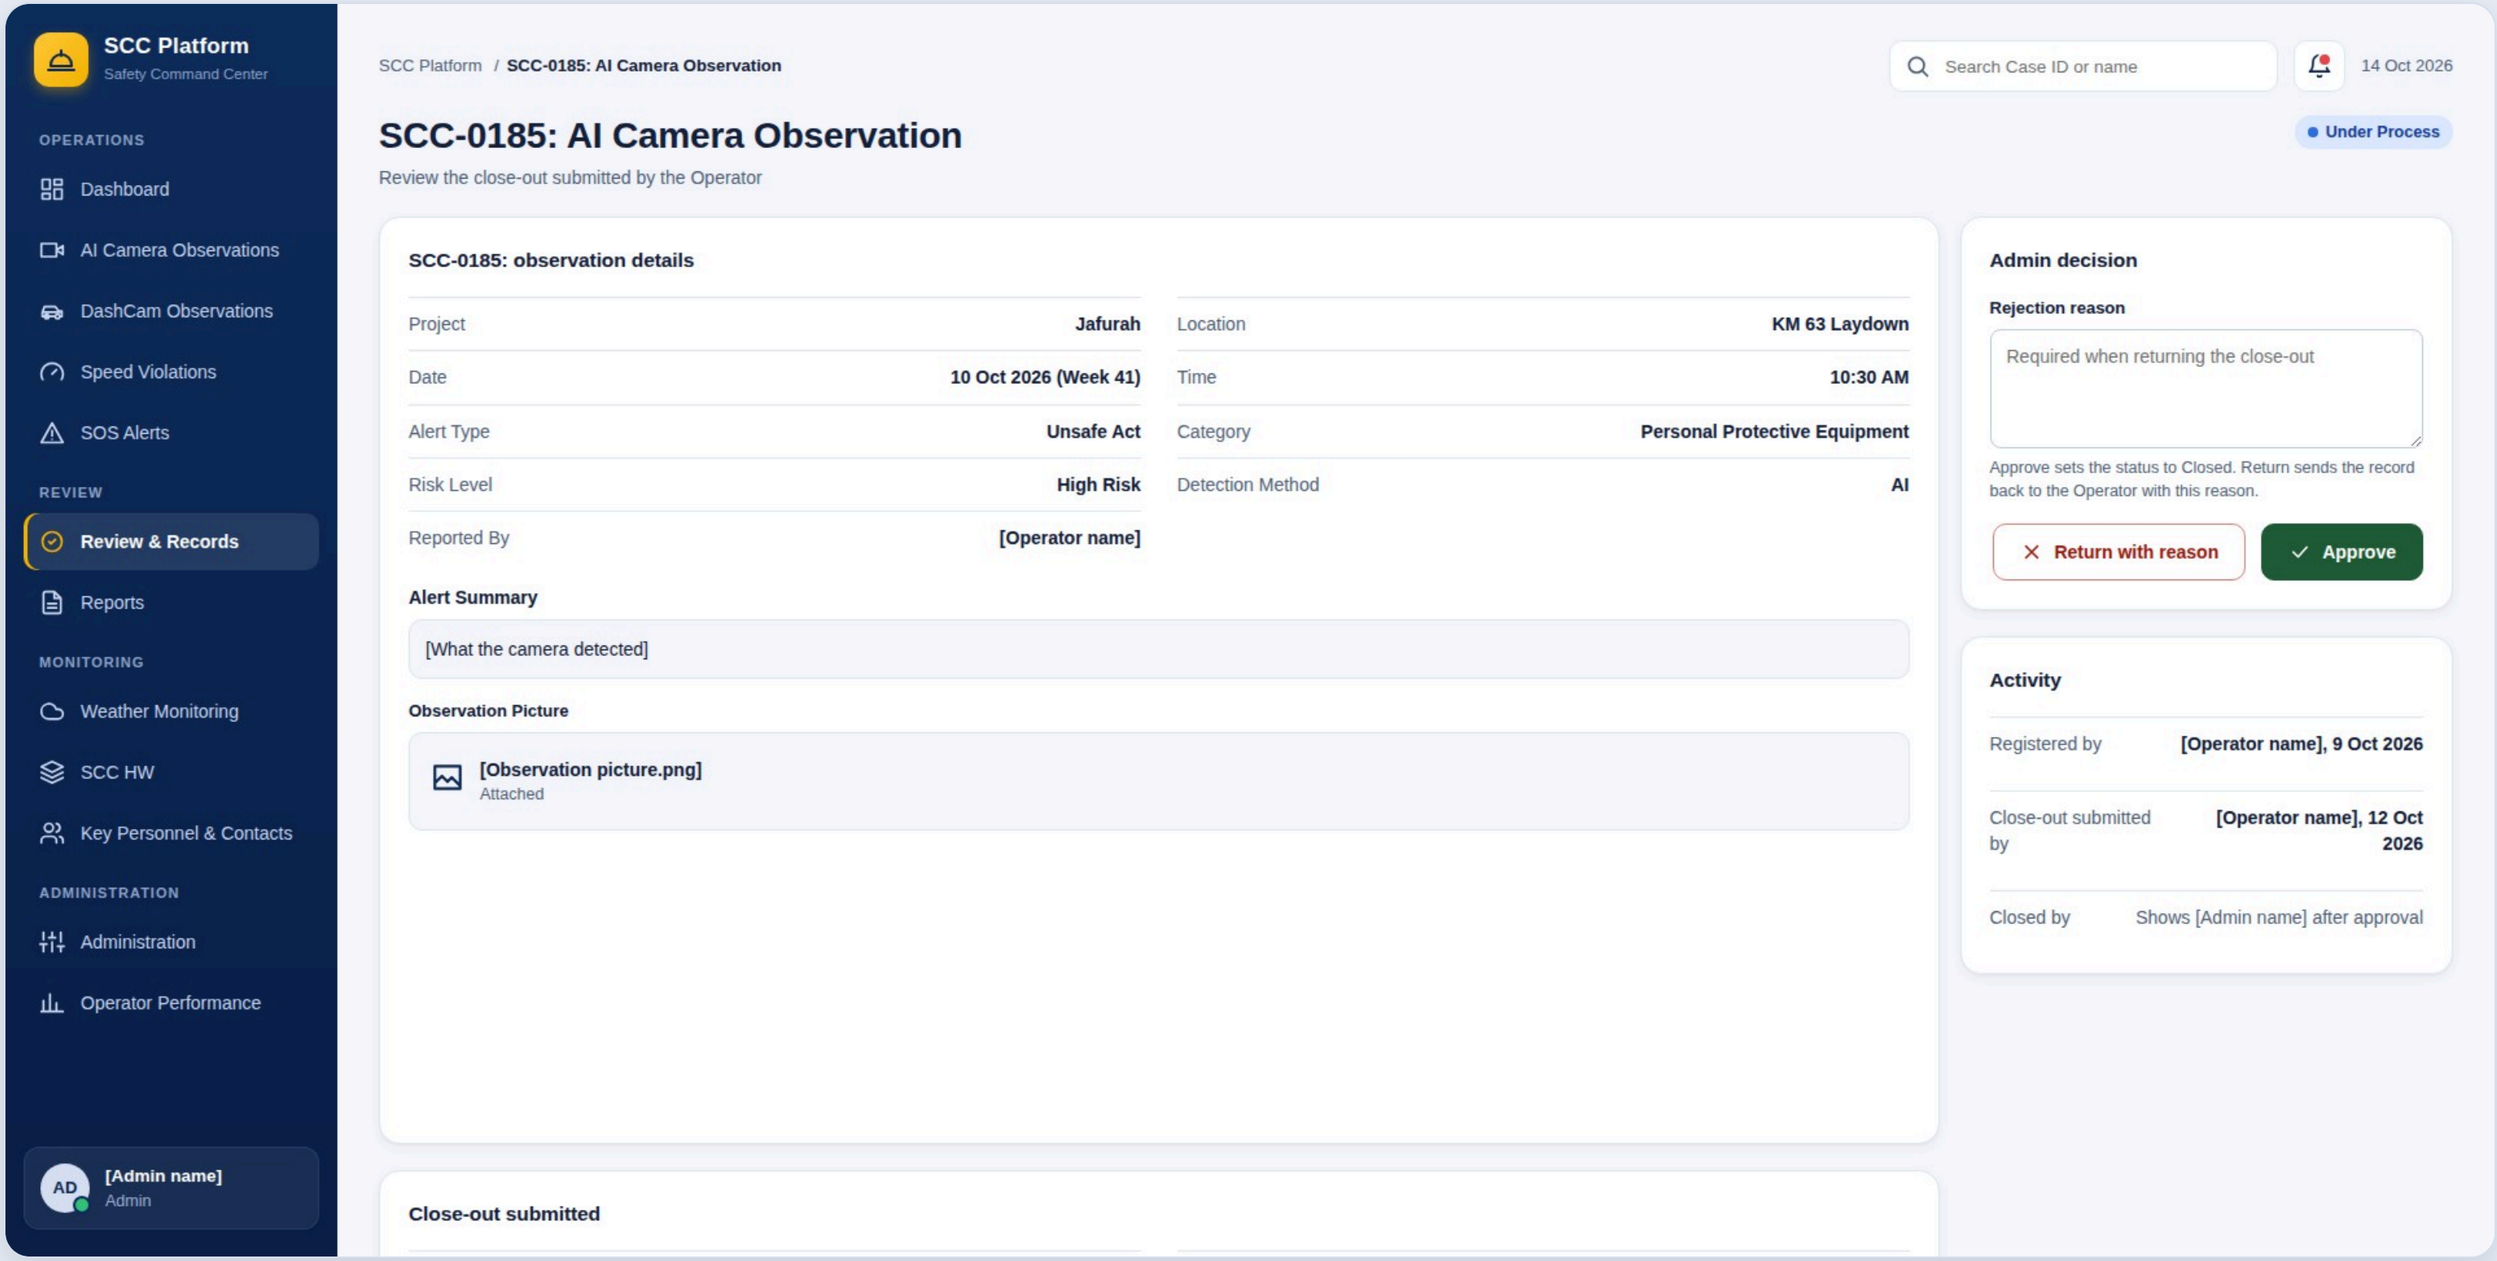

DESIGN NOTE Register stays disabled until every required field is completed. Week is calculated from the date. The close-out fields are locked until the record is registered.

Submit an observation close-out

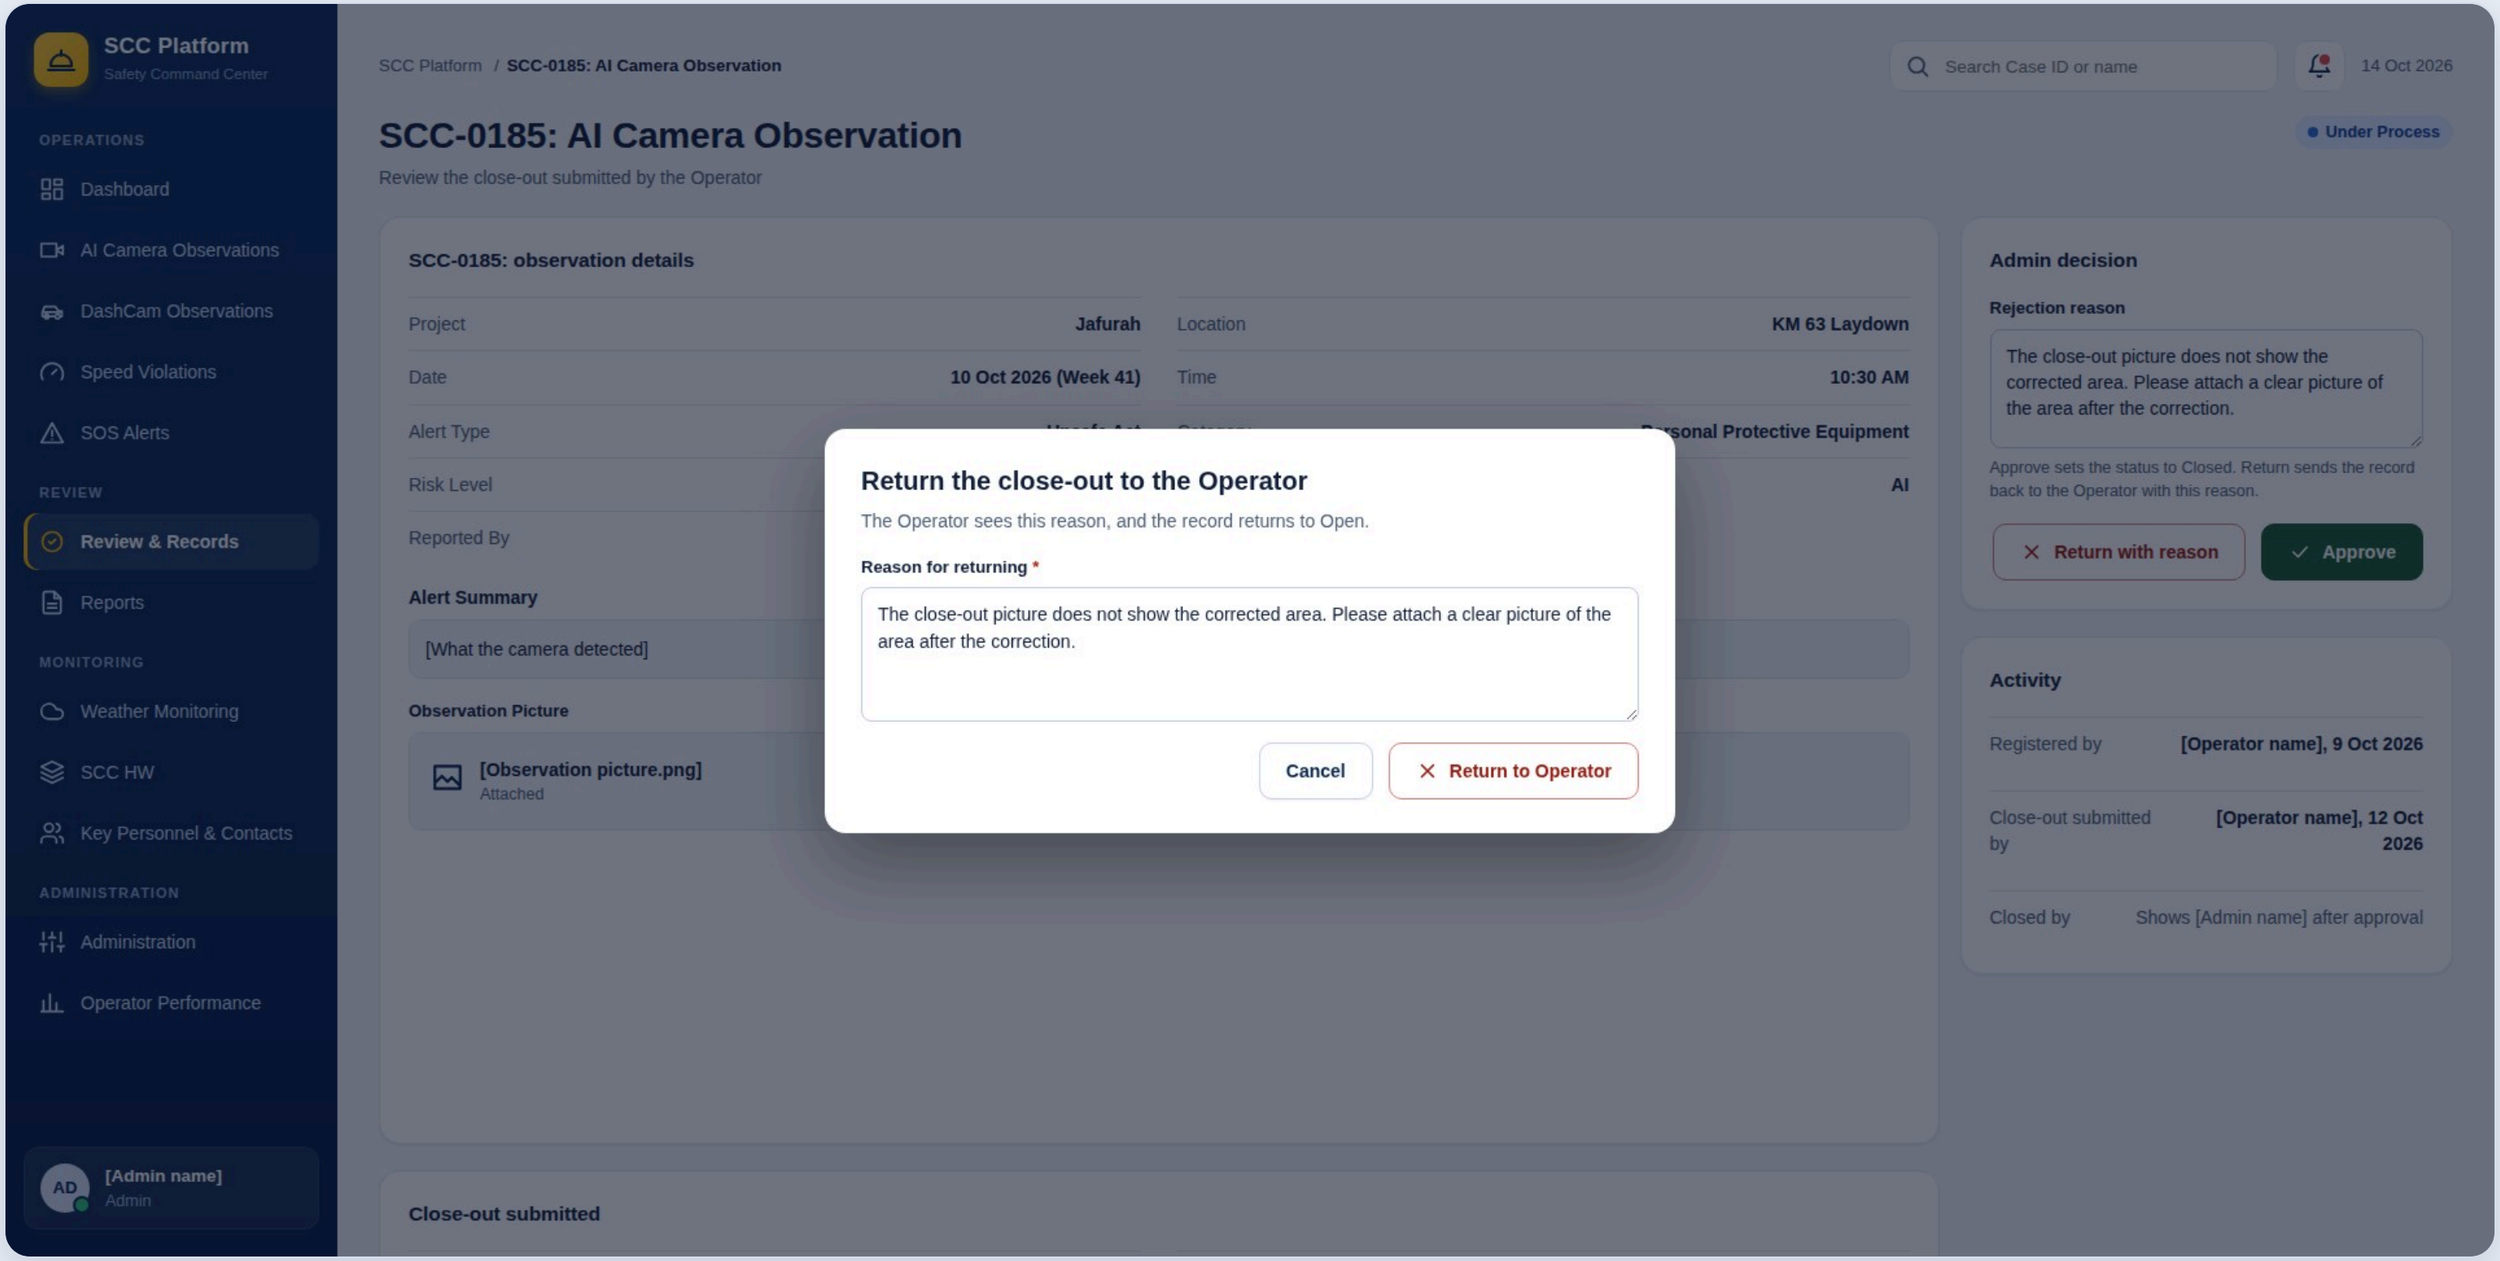

DESIGN NOTE The close-out action, the close-out picture and the Safety Officer (HSEO) name and badge number move the record to Under Process.

Admin review of observation close-out

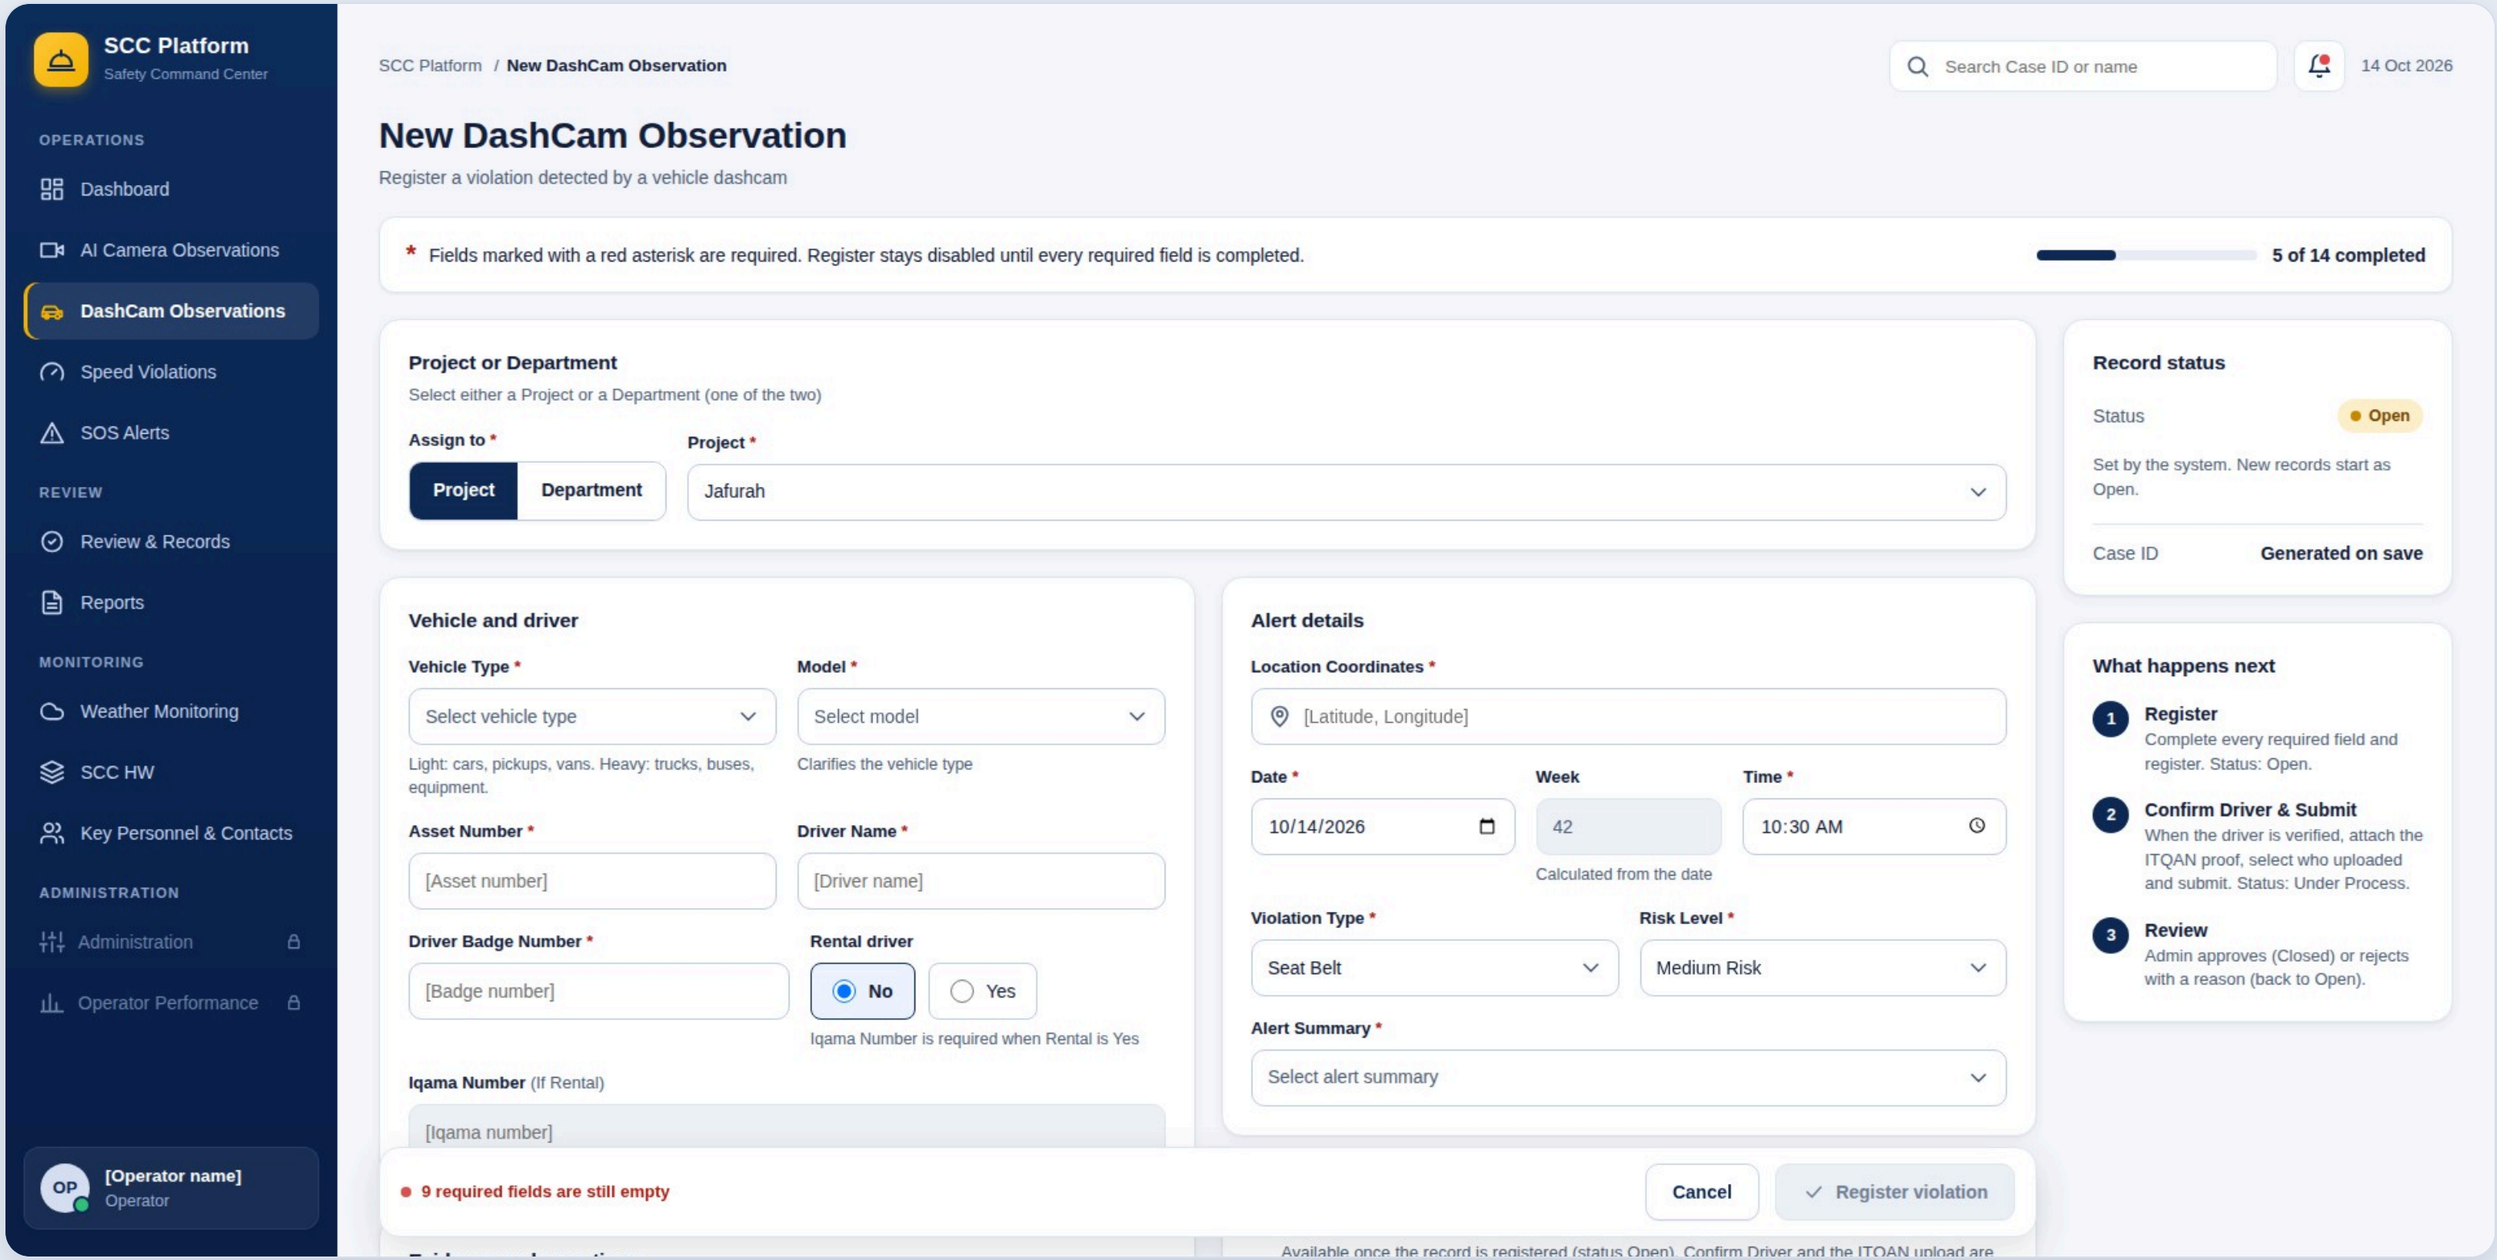

DESIGN NOTE Admin reviews the close-out and approves it, which closes the record, or returns it with a reason.

Return a close-out with a reason

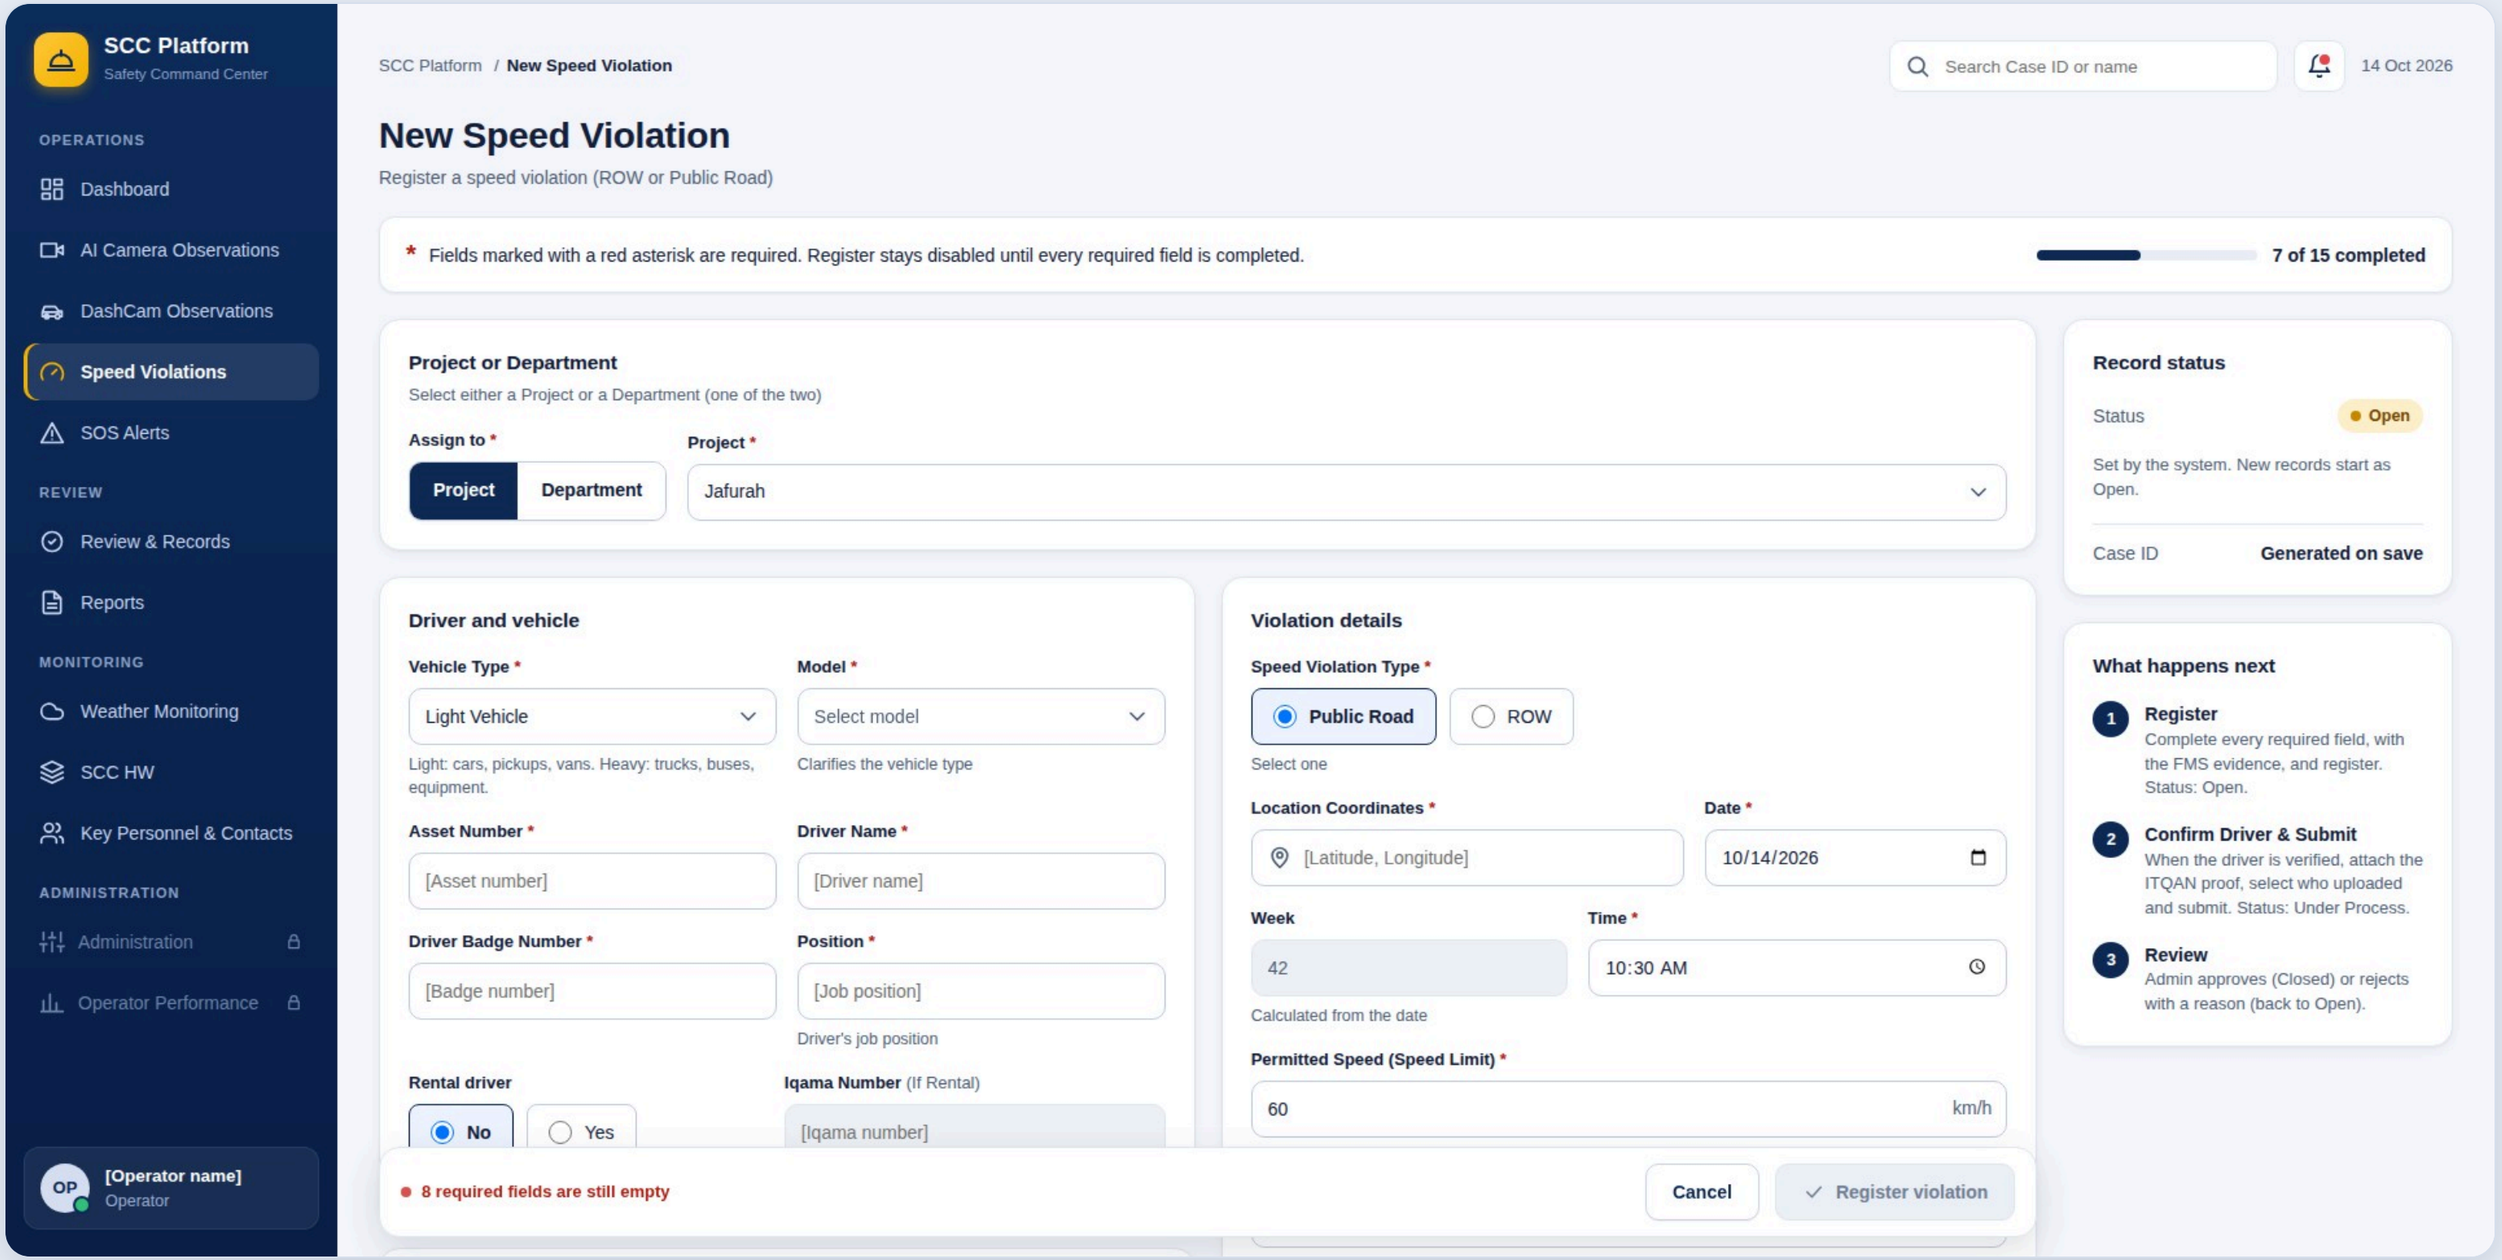

DESIGN NOTE A reason is required when returning a close-out. The Operator sees it and the record goes back to Open.

Register a DashCam observation

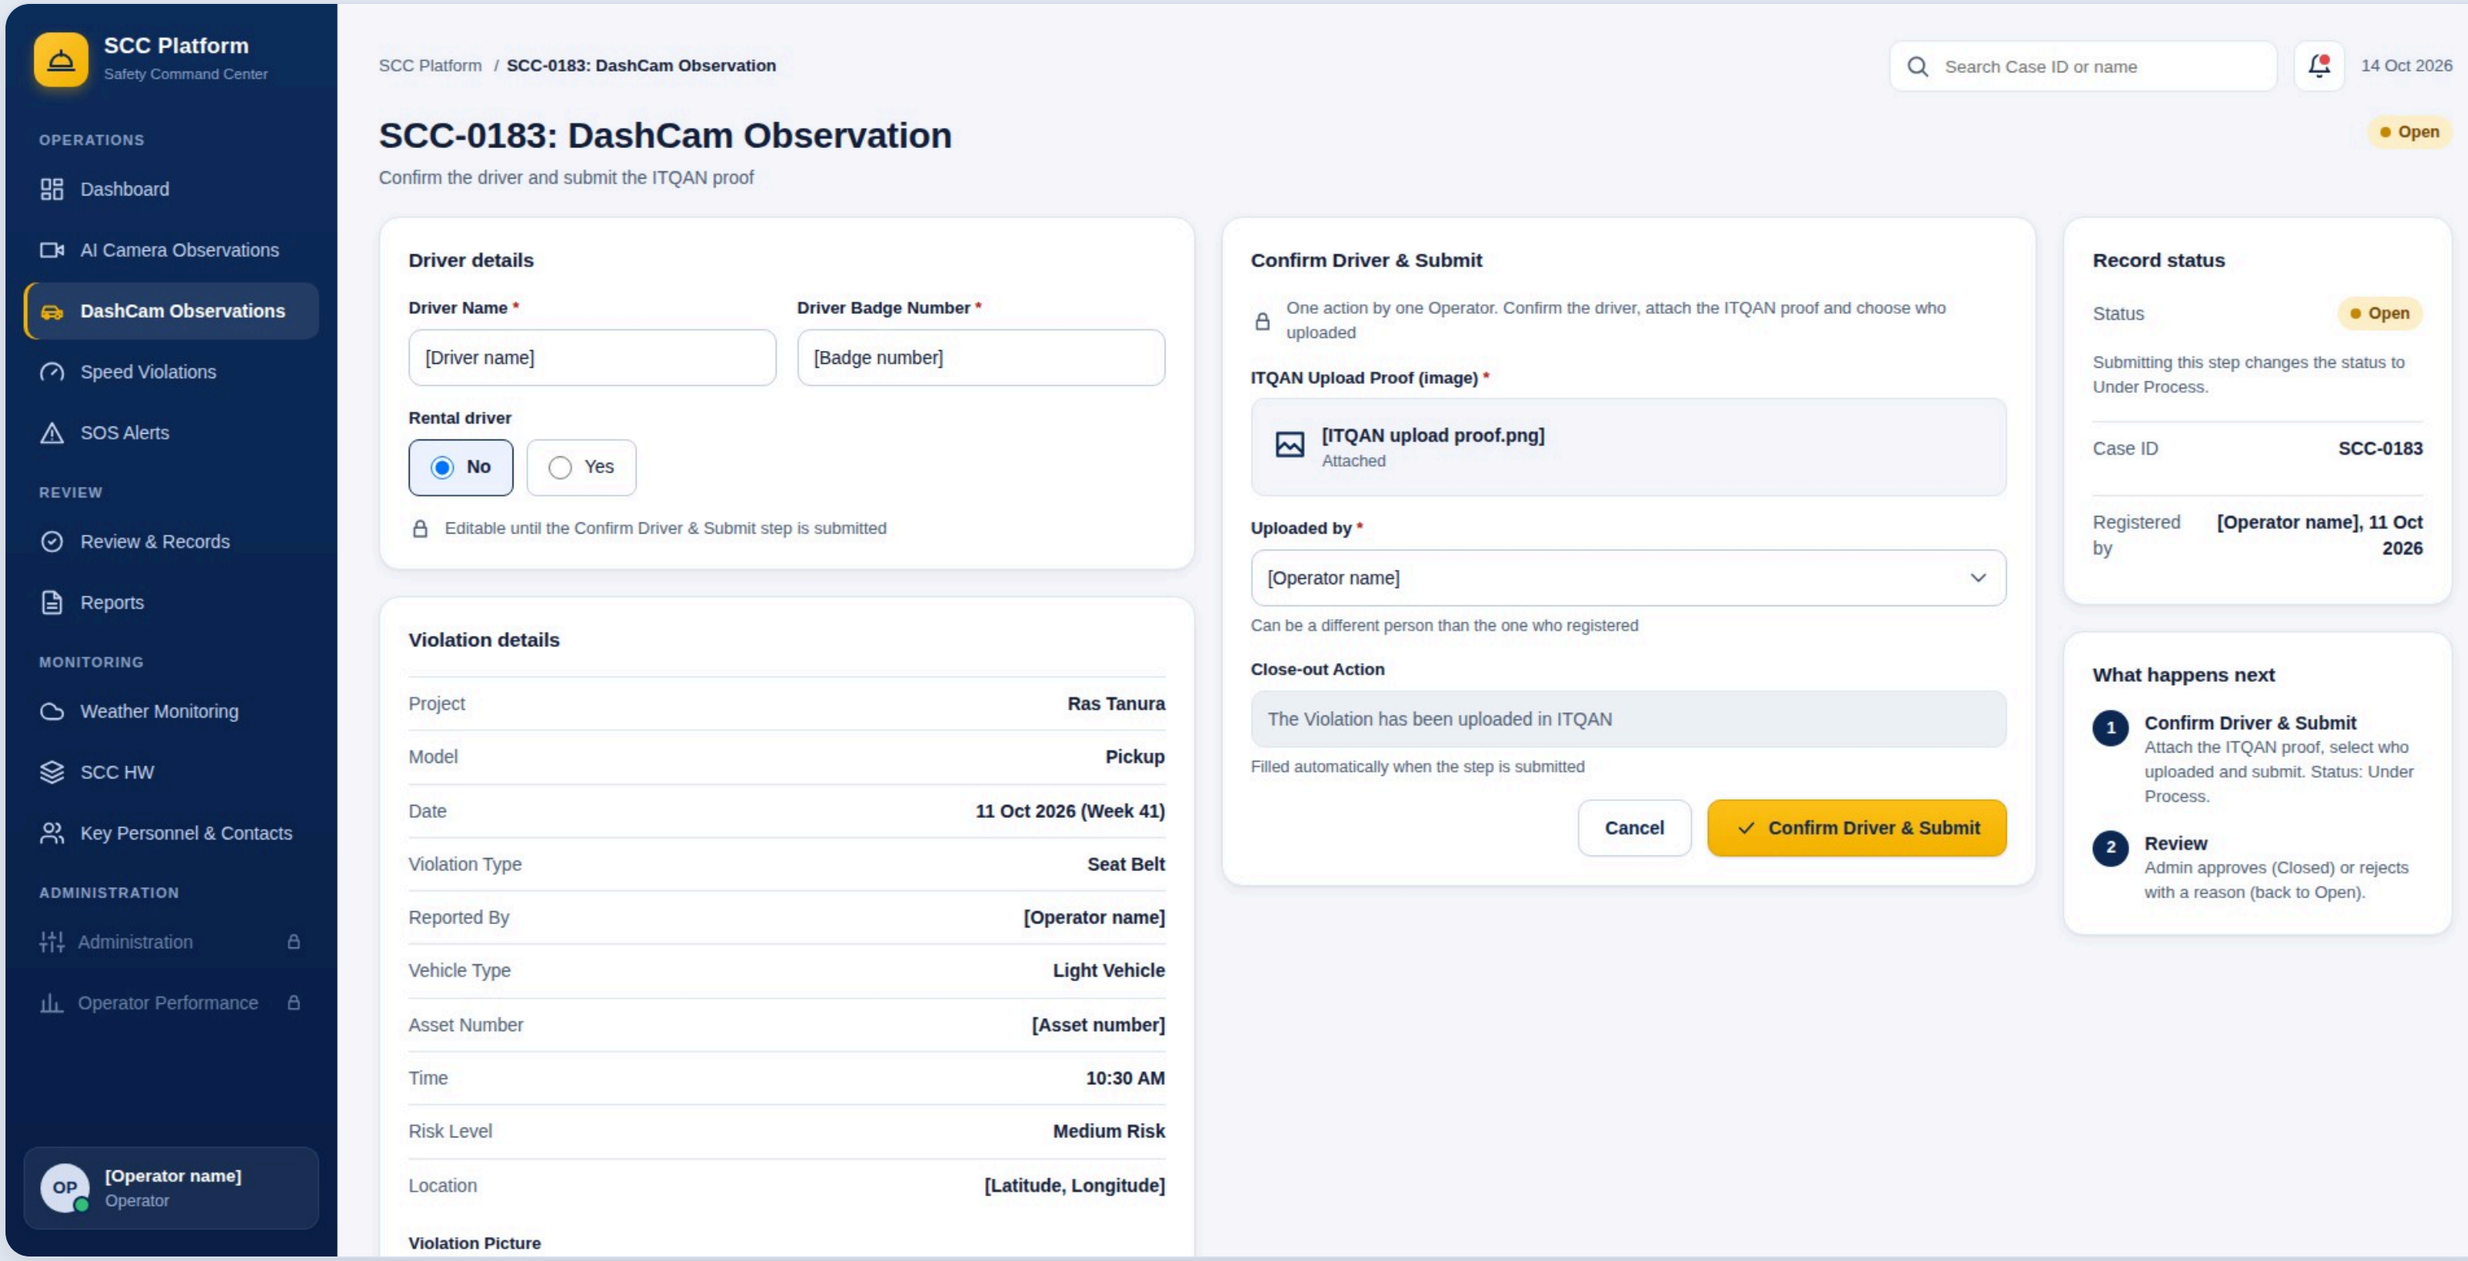

DESIGN NOTE Vehicle Type and Model clarify the vehicle. The driver details, the violation details and the picture are completed before registering, and the record starts as Open.

Register a Speed violation

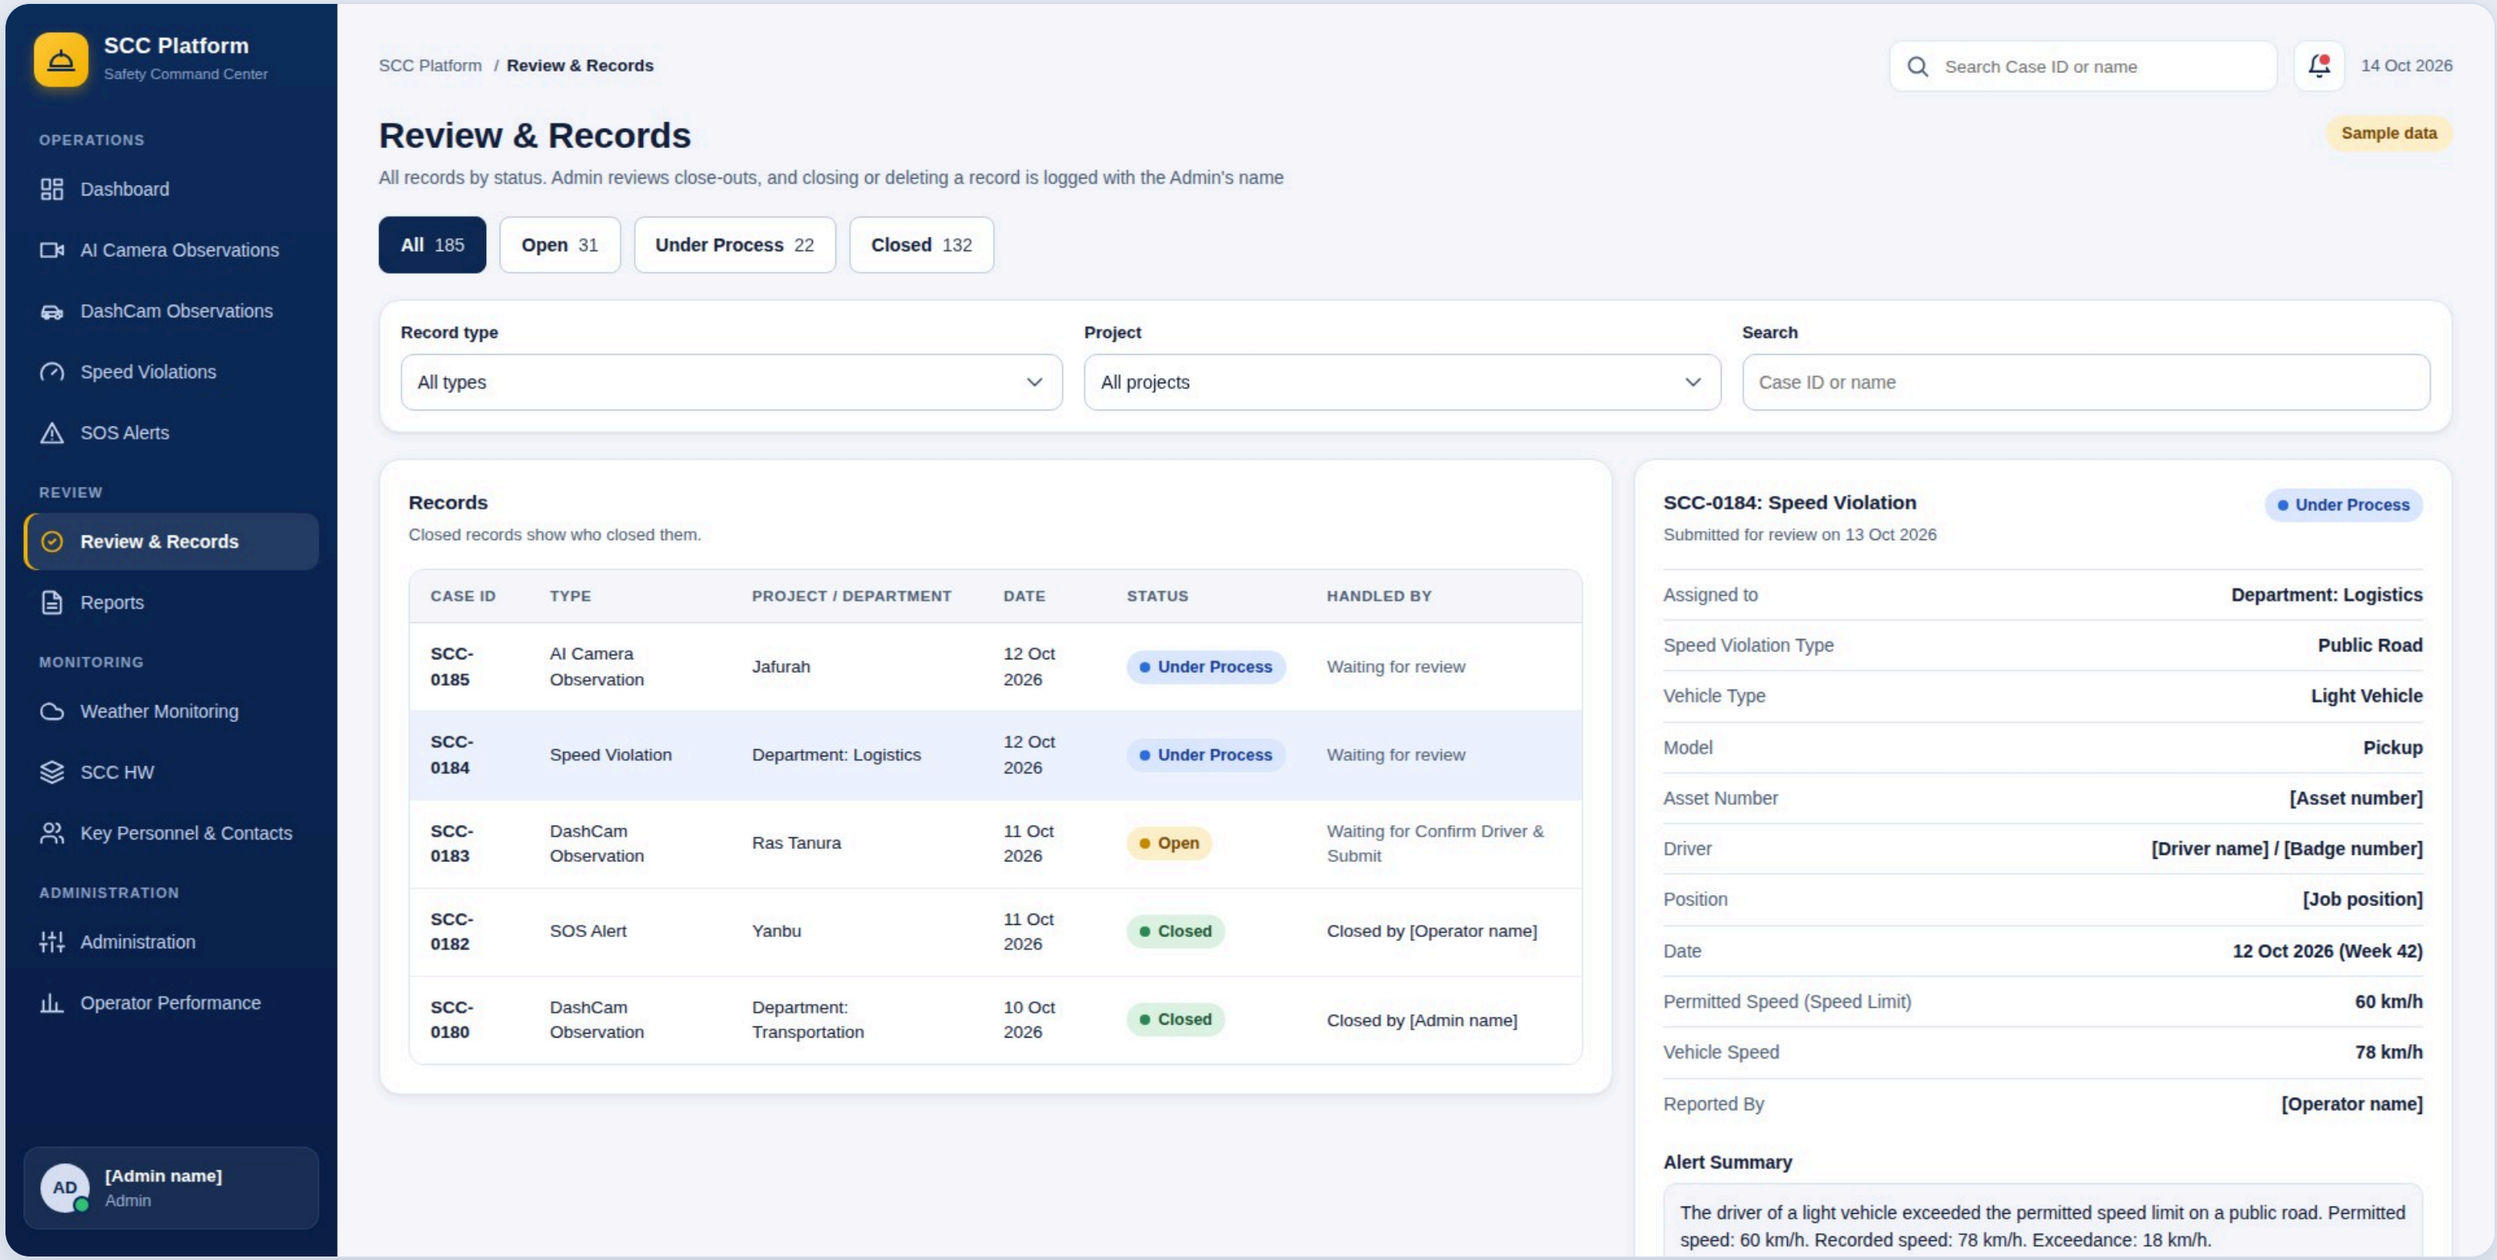

DESIGN NOTE Alert Summary is generated from the violation type, the vehicle type and the two speeds. Vehicle Type is required for Public Road and ROW.

Confirm the driver and submit ITQAN proof

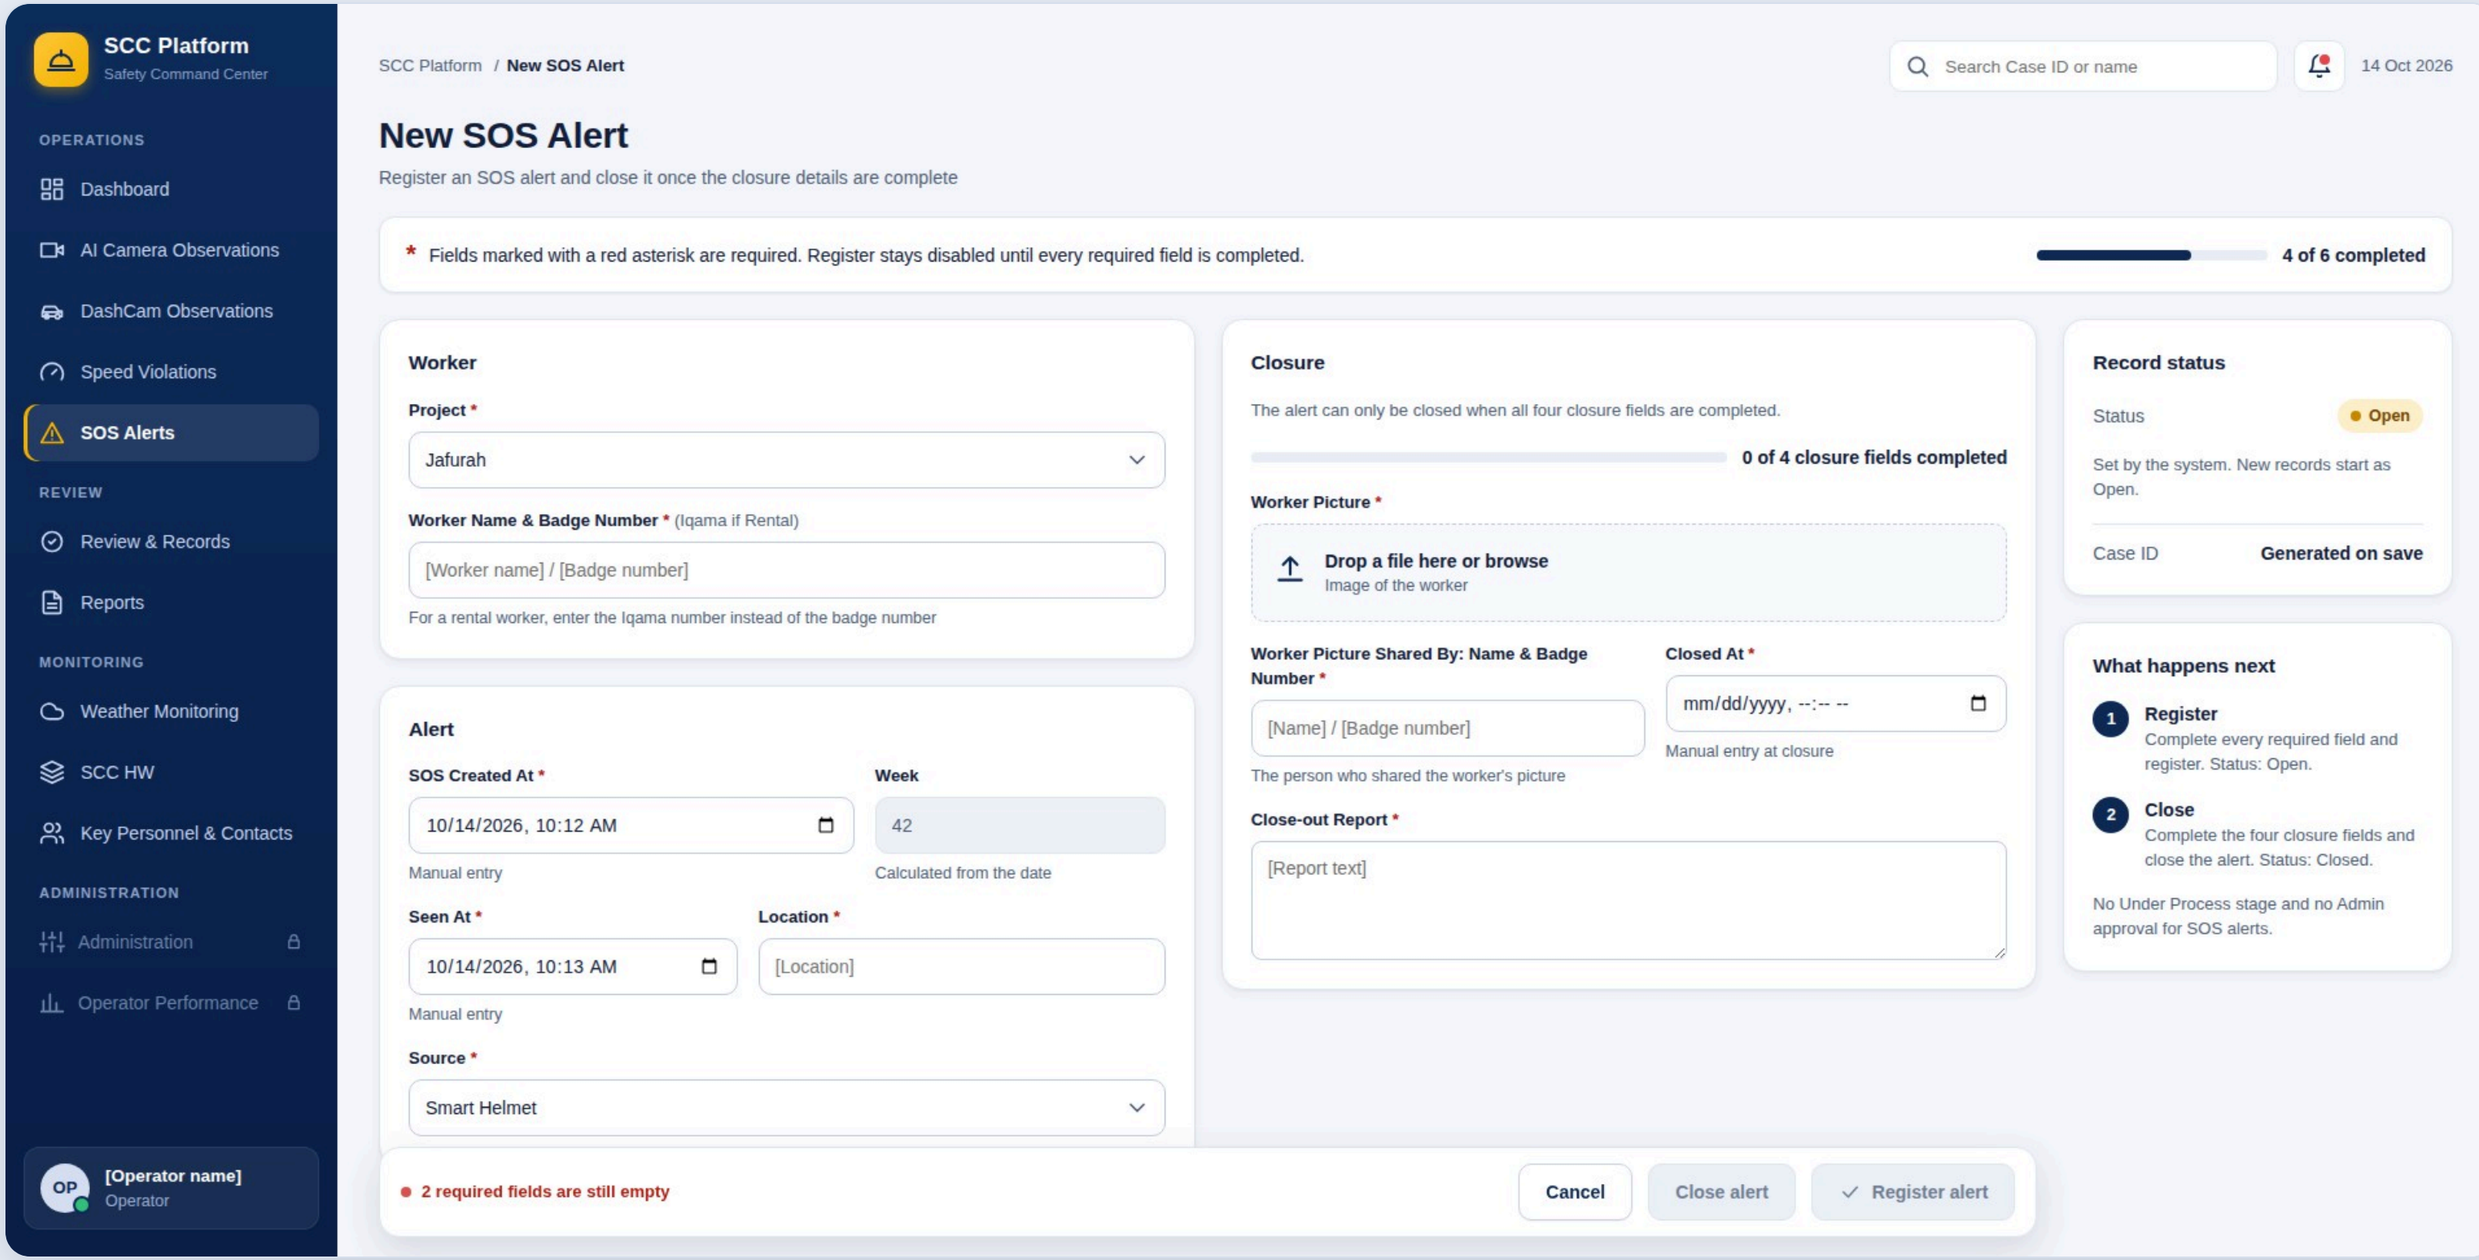

DESIGN NOTE One action by one Operator: confirm the driver, attach the ITQAN proof and choose who uploaded. The status changes to Under Process.

Admin review of a violation

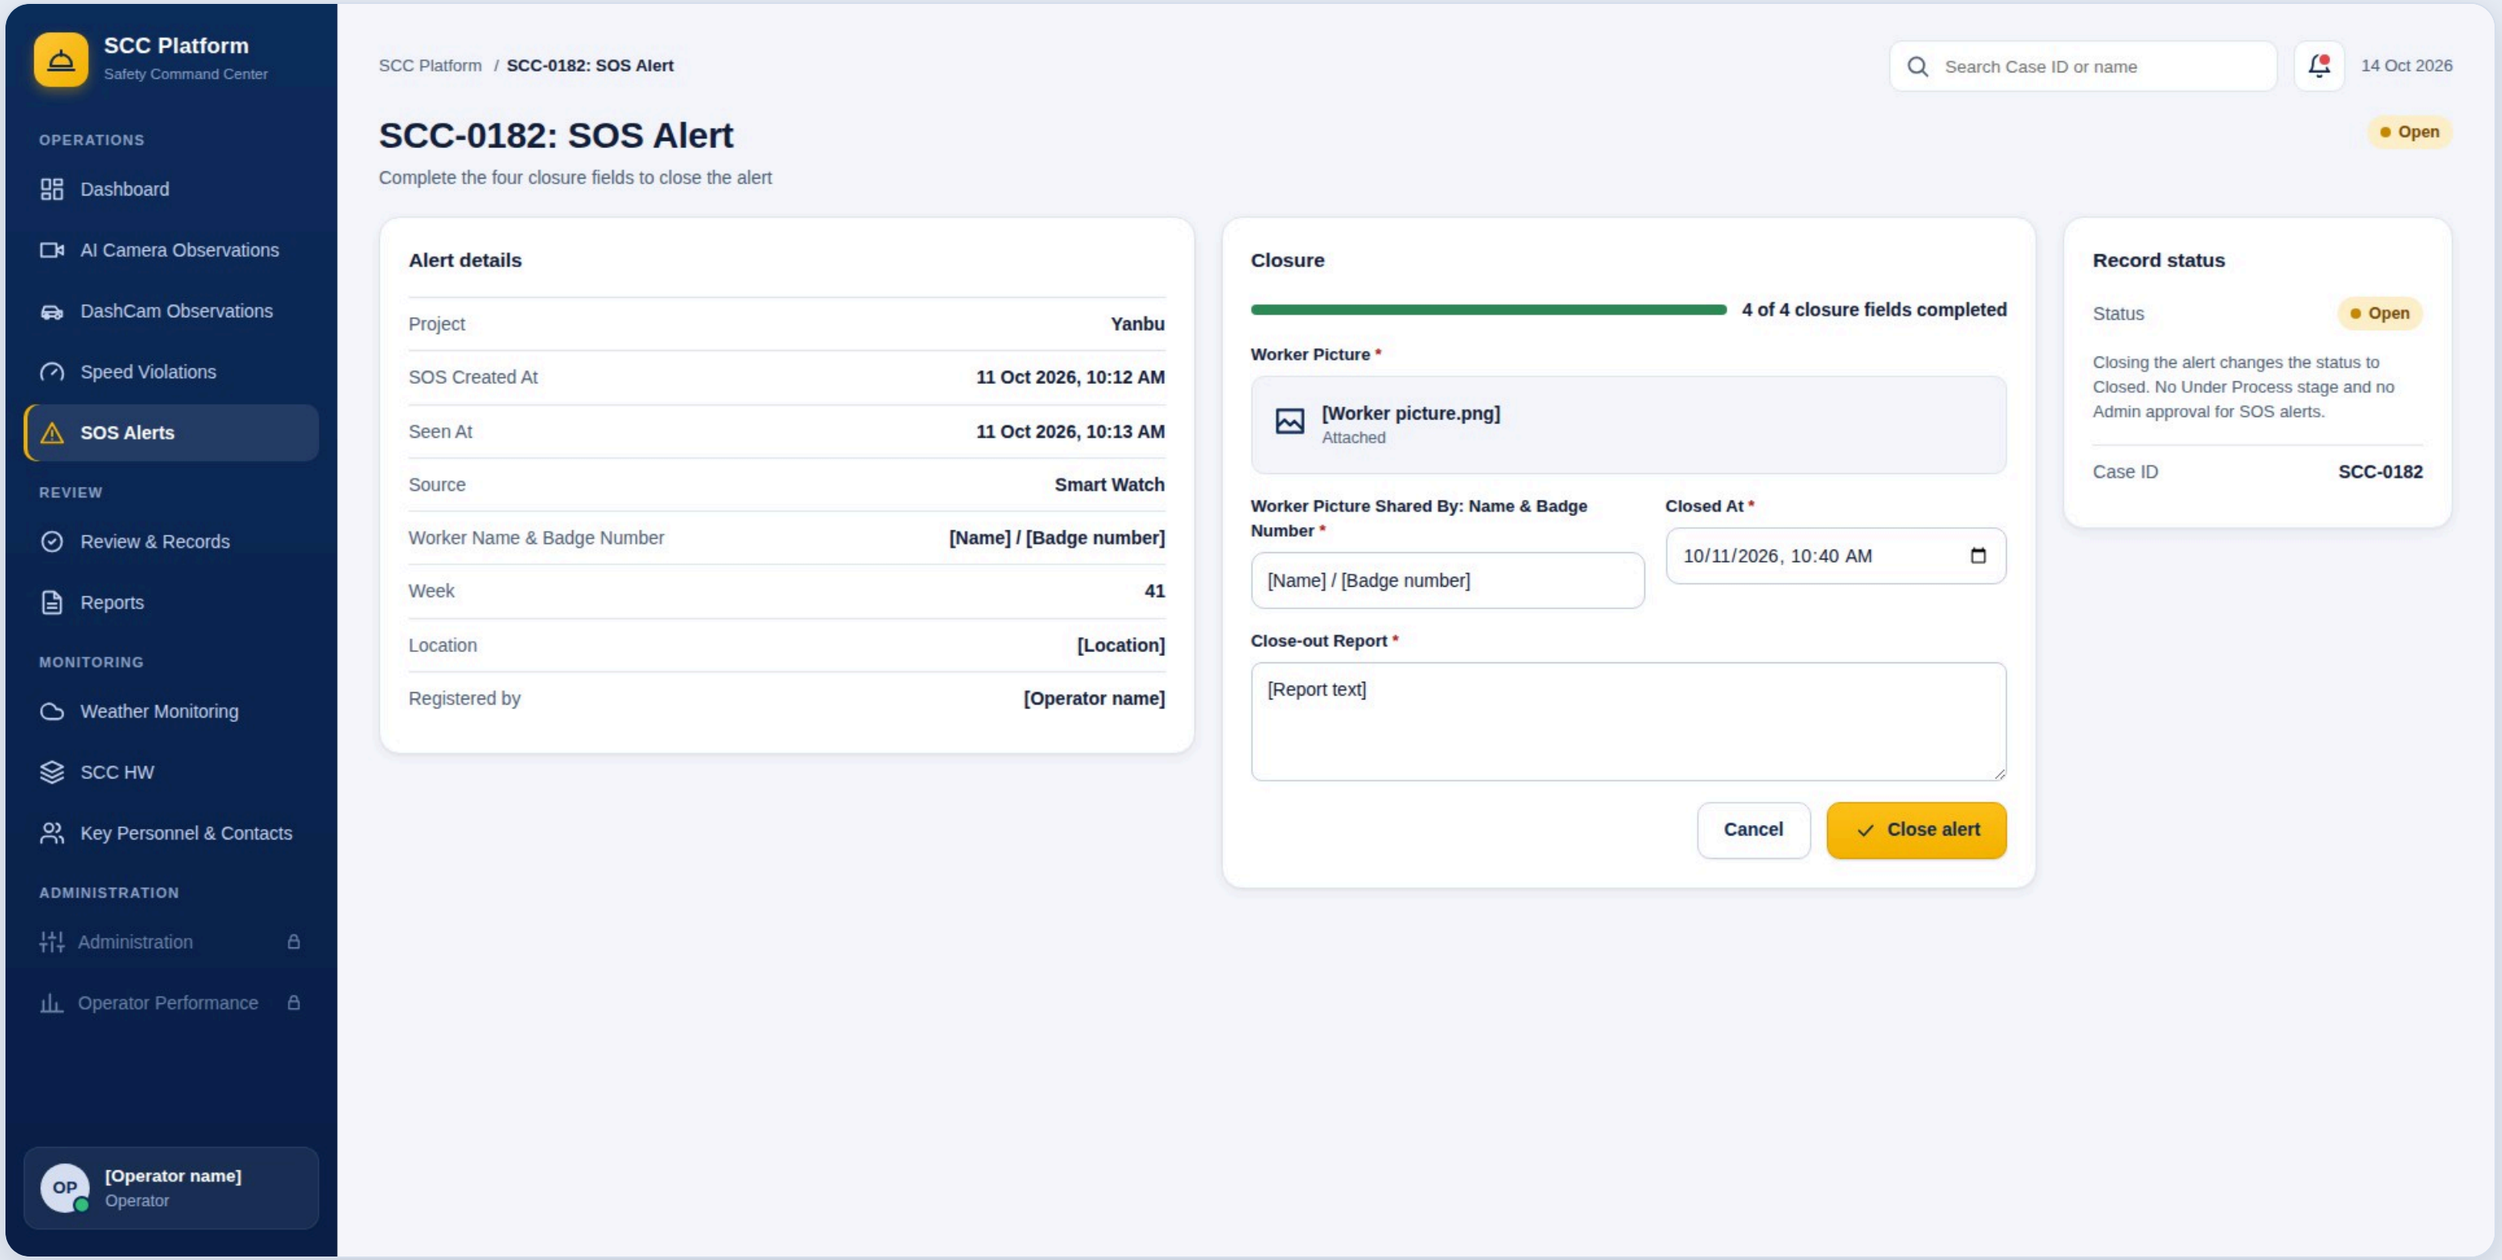

DESIGN NOTE Admin sees who confirmed the driver and uploaded the violation. Approve closes the record, and reject returns it with a reason.

Register an SOS alert

DESIGN NOTE SOS alerts have no Under Process stage. The closure fields are shown with the registration form.

Close an SOS alert

DESIGN NOTE Closure needs four fields: the worker picture, who shared it, the closing time and the close-out report. The Operator closes the alert and no Admin approval is needed.

Weather Monitoring

Record the hourly weather readings in four tables, following the template

* Project, Location and Date are required in each table you fill. The readings can be left empty.

12 of 12 completed

Table 1 of 4

One row for each hour from 7:00 AM to 2:00 PM. Time appears once, at the start of each row.

Location	Project	Date	Time	Wind Speed Monitoring	Temperature Monitoring	Relative Humidity (RH) Monitoring	CO2 (PPM) Monitoring	PM2.5 + PM10 Monitoring		Heat Index	Remarks / Corrective Actions
				Highest Wind Speed Recorded (m/s)	Highest Temperature Recorded (°C)	Highest RH Recorded (%)	Highest CO2 Recorded (ppm)	Highest PM2.5 Recorded	Highest PM10 Recorded		
Riyas Laydown	Jafurah	10/06/2026 Week 41	7:00 AM	1.2	12.2	89%	564.8	100.7	3.6	11.8	Foggy weather
			8:00 AM	5.8	11.3	88%	602.5	9.2	12.4	10.8	Foggy weather
			9:00 AM	6.1	14.4	87%	579.9	18	23.25	14.2	Normal weather
			10:00 AM	10.1	17	77%	586.9	19.4	24.7	16.8	Normal weather
			11:00 AM		17.2	74%	576.8	9.8	12	16.9	Normal weather
			12:00 PM		20.3	68%	575	32.8	6.4	20.2	Normal weather
			1:00 PM		18.6	70%	590	15.4	19.9	18.4	Normal weather
			2:00 PM		18.8	71%	596.8	20.8	26.2	18.6	Normal weather

DESIGN NOTE Four tables follow the sheet. Location, Project, Date and Time come first, then the readings. Project replaces Contractor, and Time appears once.

Weather tables three and four

				Recorded (m/s)	Recorded (°C)	Recorded (%)	(ppm)	Recorded	Recorded		
Riyas Laydown	Jafurah	10/06/2026 Week 41	7:00 AM	1.2	12.2	89%	564.8	100.7	3.6	11.8	Foggy weather
			8:00 AM	5.8	11.3	88%	602.5	9.2	12.4	10.8	Foggy weather
			9:00 AM	6.1	14.4	87%	579.9	18	23.25	14.2	Normal weather
			10:00 AM	10.1	17	77%	586.9	19.4	24.7	16.8	Normal weather
			11:00 AM		17.2	74%	576.8	9.8	12	16.9	Normal weather
			12:00 PM		20.3	68%	575	32.8	6.4	20.2	Normal weather
			1:00 PM		18.6	70%	590	15.4	19.9	18.4	Normal weather
			2:00 PM		18.8	71%	596.8	20.8	26.2	18.6	Normal weather

Table 2 of 4

Location	Project	Date	Time	Wind Speed Monitoring	Temperature Monitoring	Relative Humidity (RH) Monitoring	CO2 (PPM) Monitoring	PM2.5 + PM10 Monitoring		Heat Index	Remarks / Corrective Actions
				Highest Wind Speed Recorded (m/s)	Highest Temperature Recorded (°C)	Highest RH Recorded (%)	Highest CO2 Recorded (ppm)	Highest PM2.5 Recorded	Highest PM10 Recorded		
		10/06/2026	7:00 AM								
			8:00 AM								
			9:00 AM								
			10:00 AM								

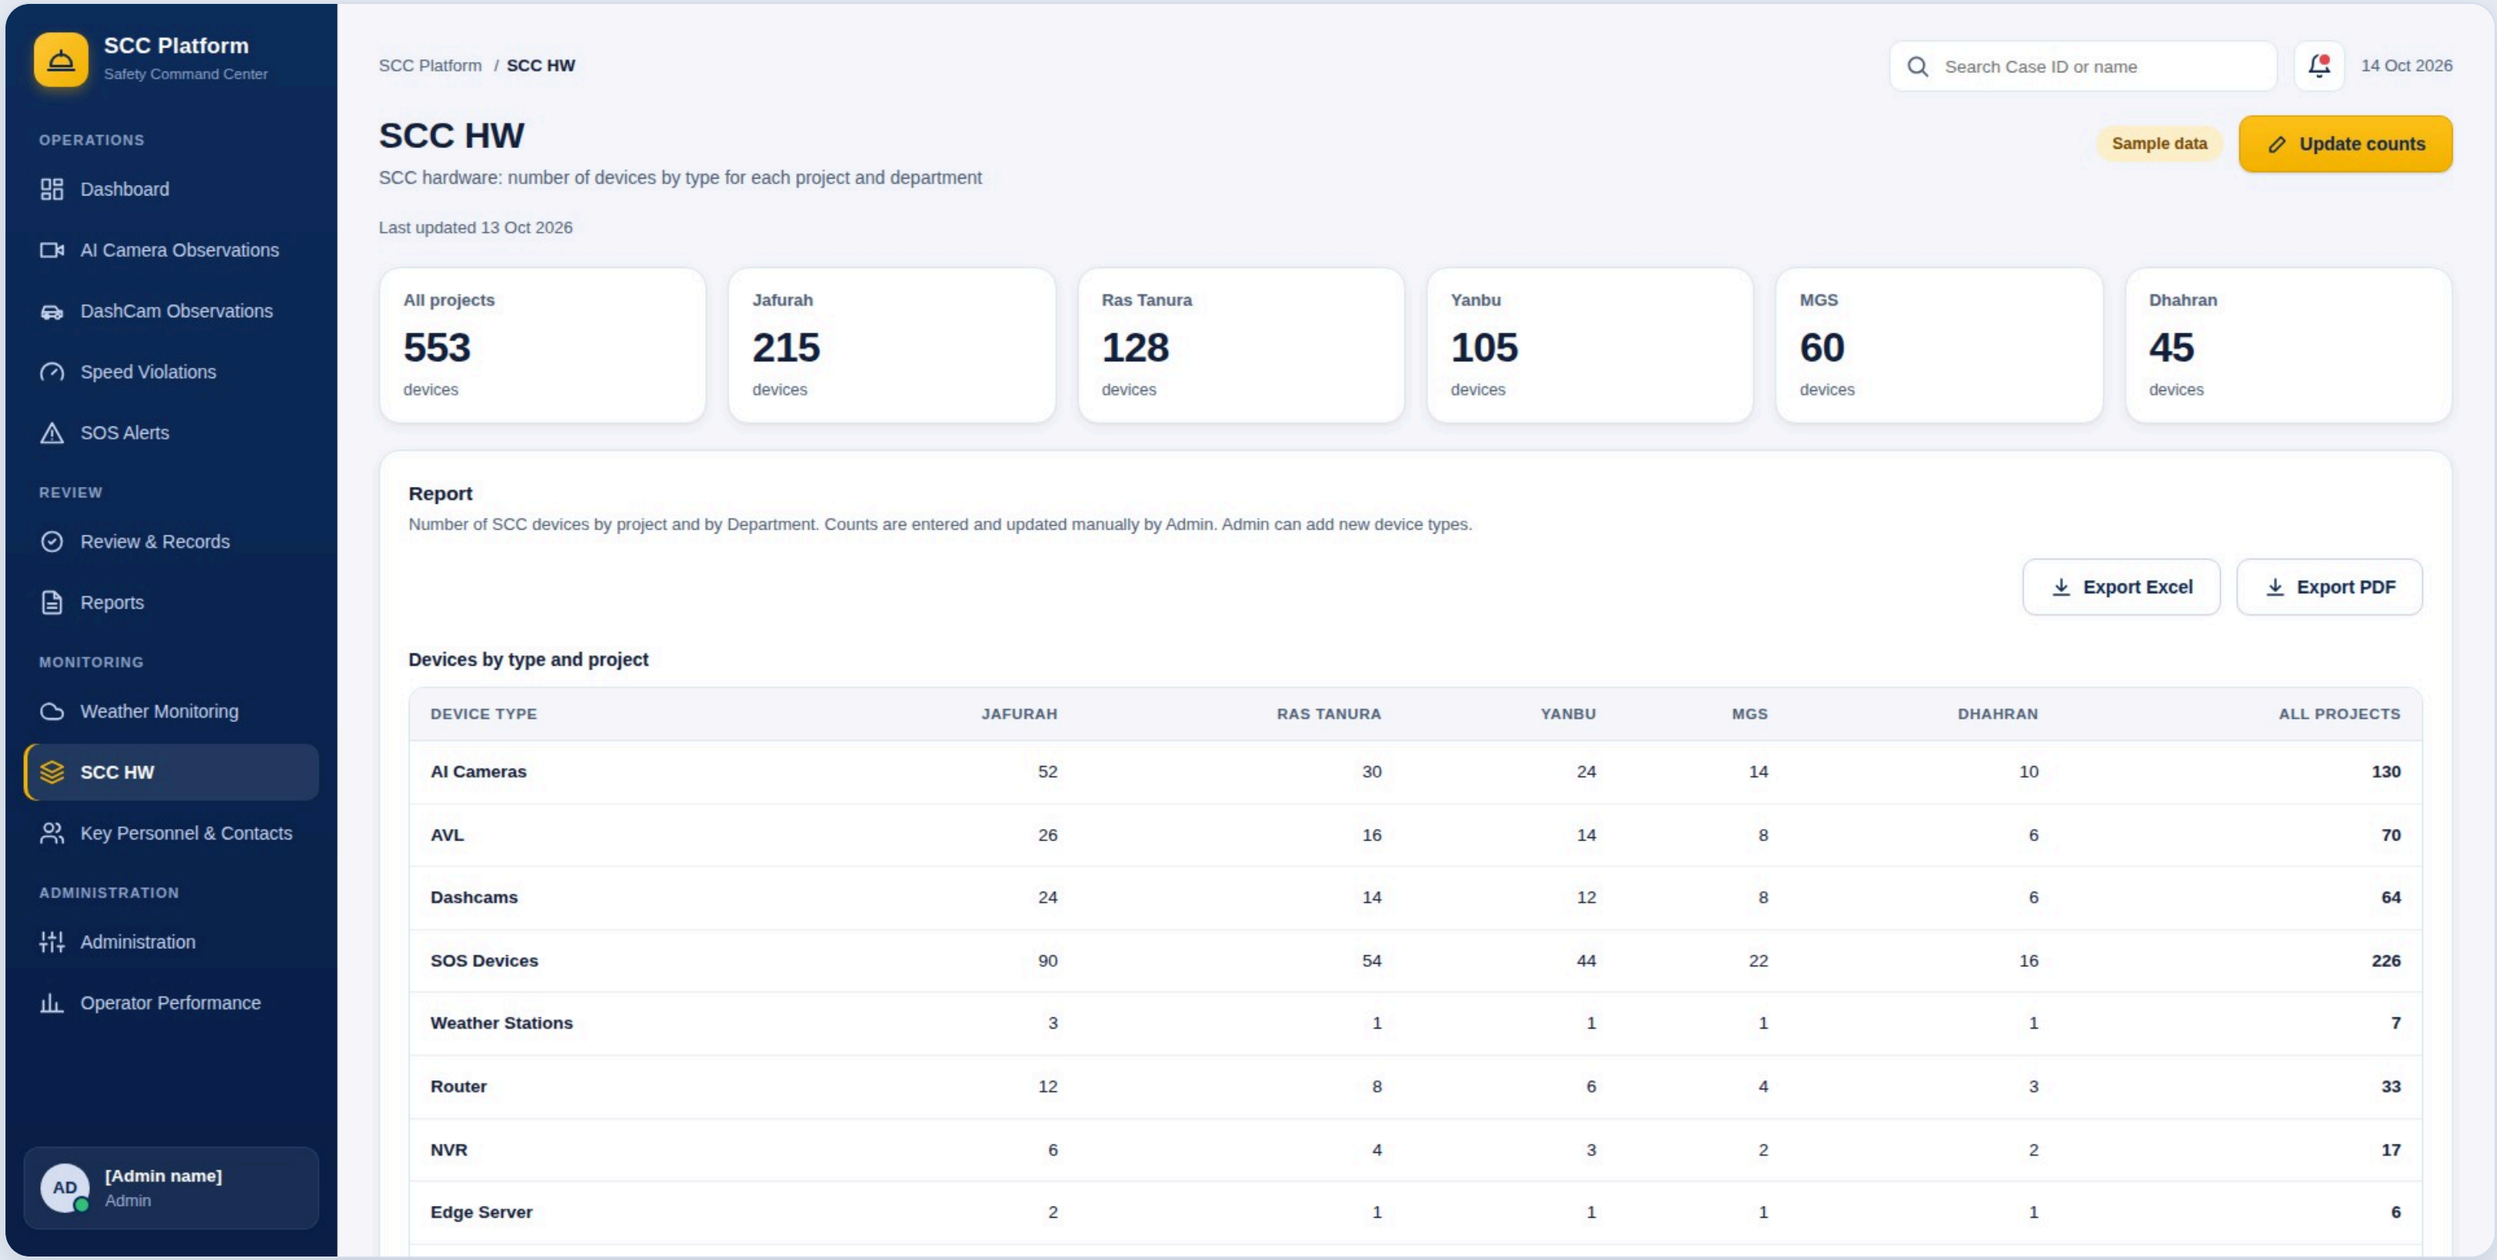

DESIGN NOTE Project, Location and Date are required in each table you fill. The readings are optional, and Heat Index is entered manually. There is no status workflow.

Project key personnel and emergency contacts

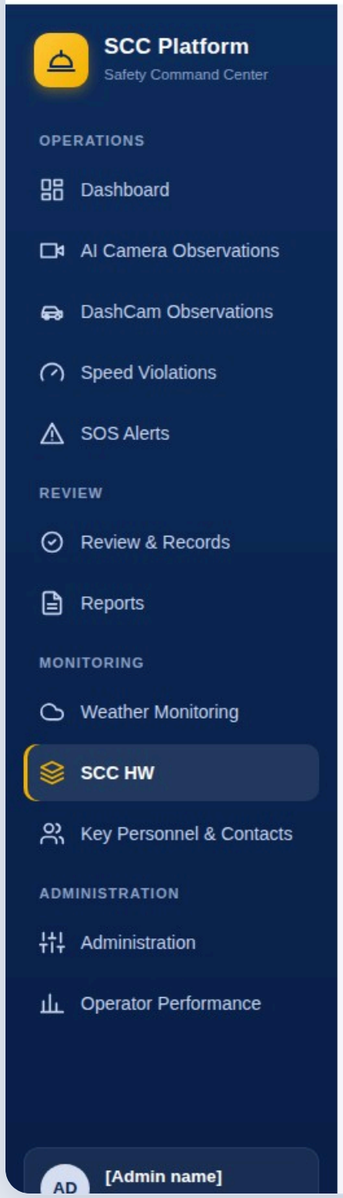

DESIGN NOTE Contacts are grouped by project and updated by Admin.

SCC HW project device report

DESIGN NOTE Device counts by type for each project. Dhahran appears in SCC HW only. Counts are updated by Admin and the report exports to Excel and PDF.

SCC HW department device report

Number of SCC devices by project and by Department. Counts are entered and updated manually by Admin. Admin can add new device types.

Export Excel | Export PDF

Devices by type and project

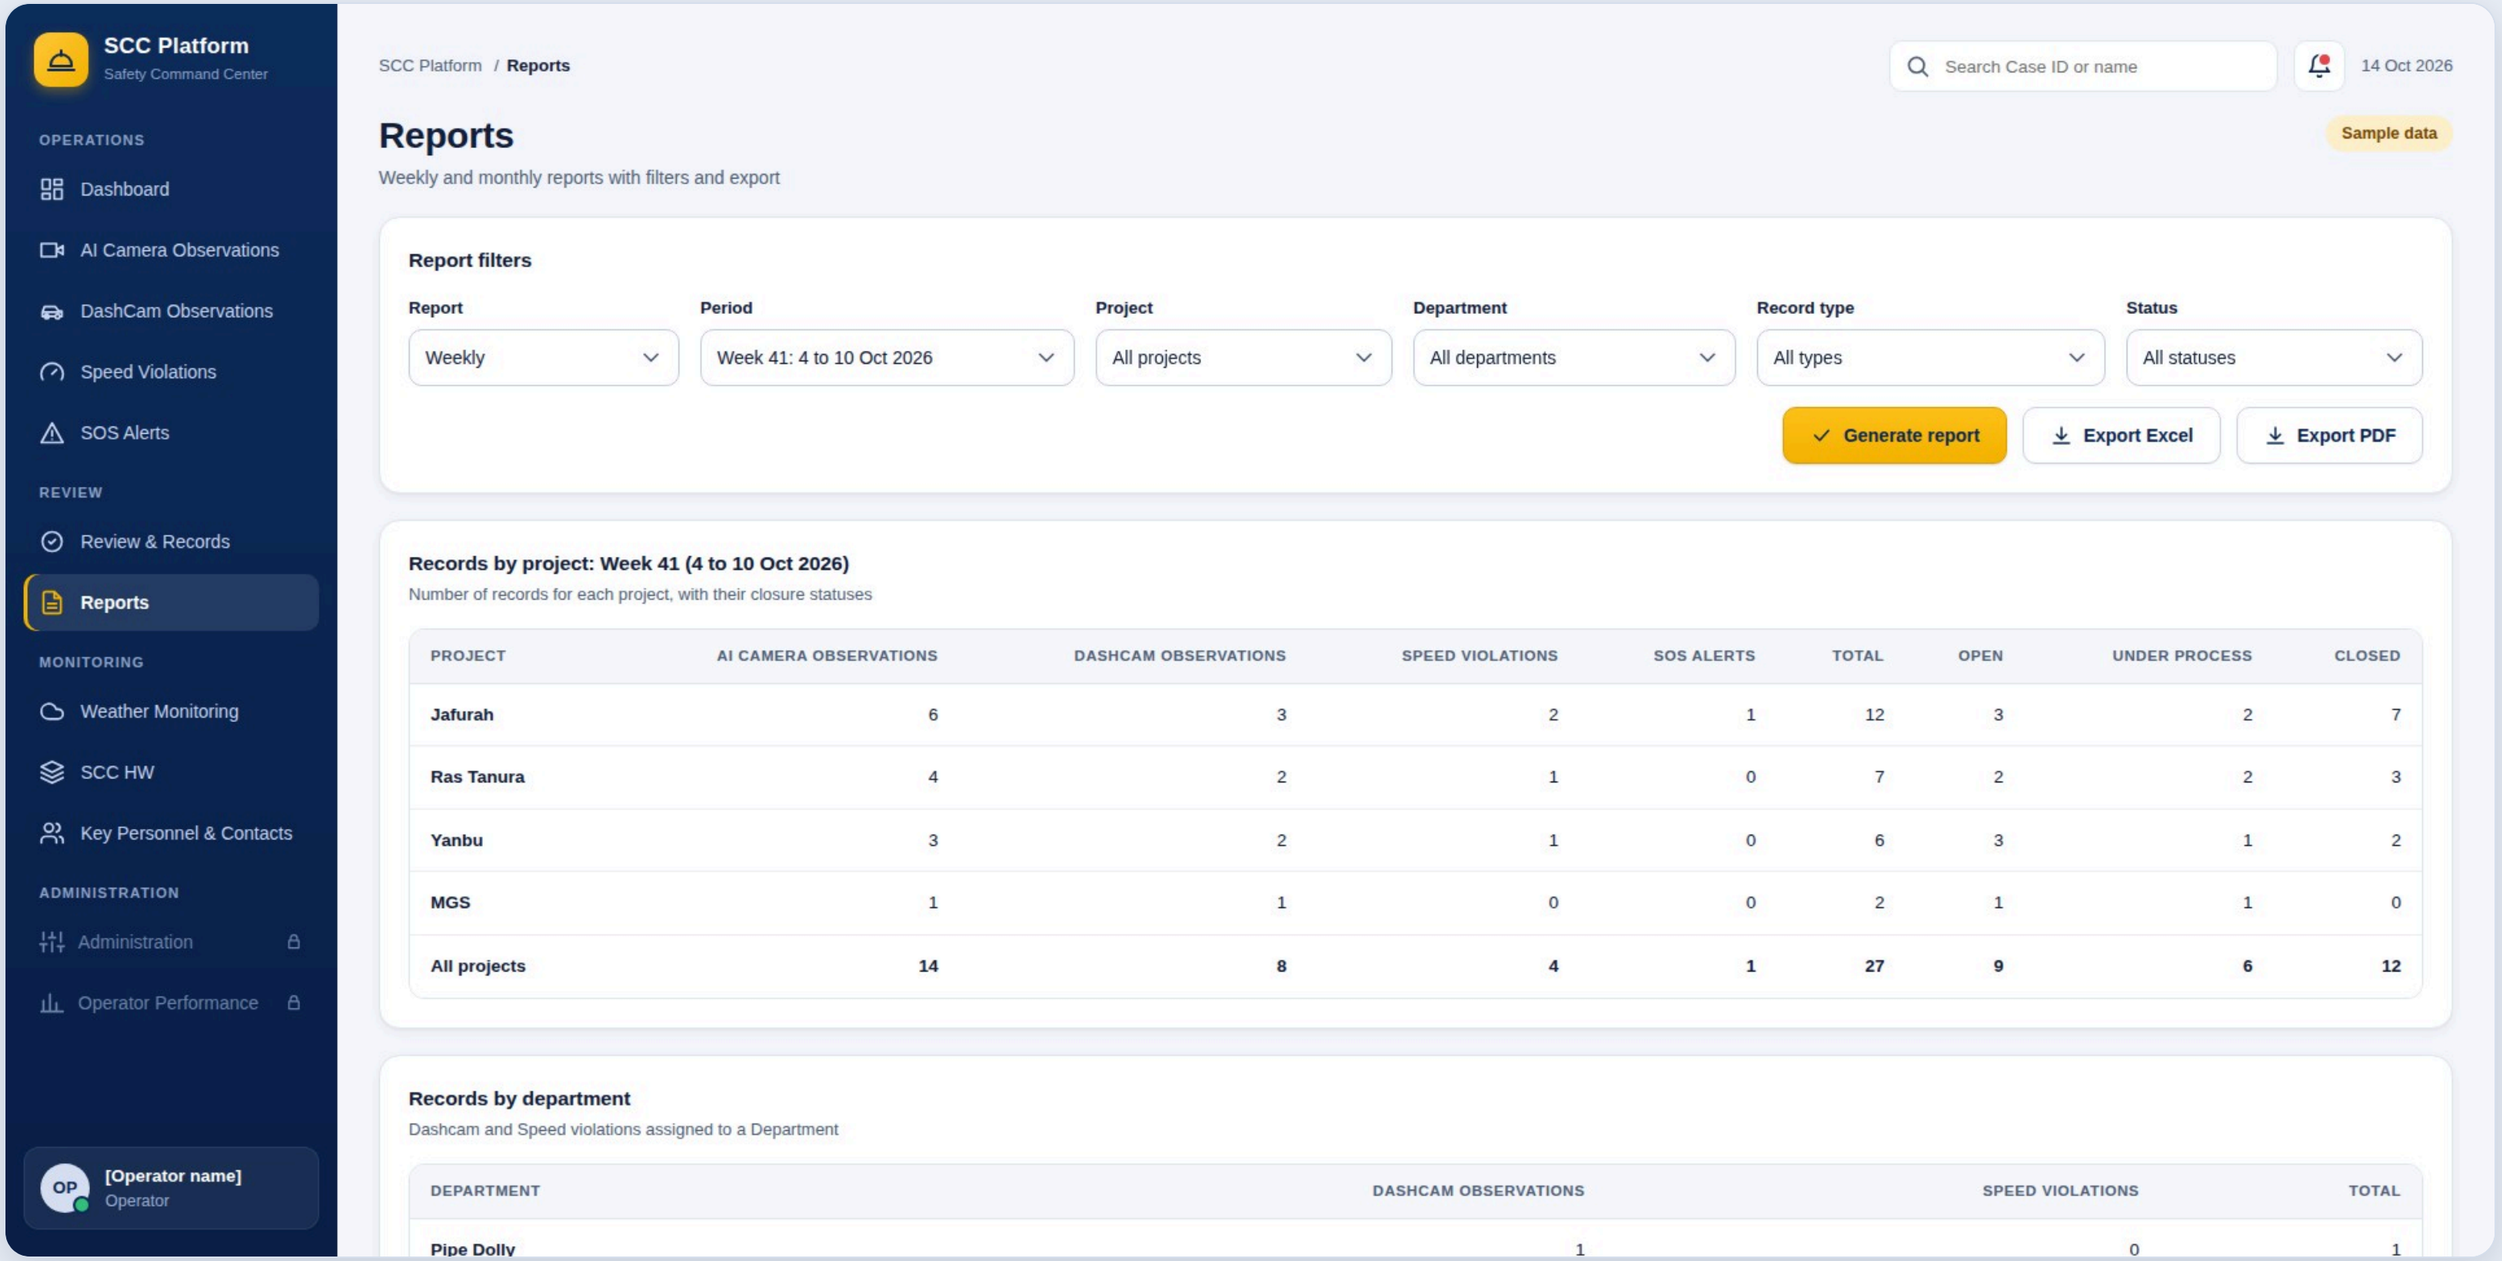

DEVICE TYPE	JAFURAH	RAS TANURA	YANBU	MGS	DHAHRAN	ALL PROJECTS
AI Cameras	52	30	24	14	10	**130**
AVL	26	16	14	8	6	**70**
Dashcams	24	14	12	8	6	**64**
SOS Devices	90	54	44	22	16	**226**
Weather Stations	3	1	1	1	1	**7**
Router	12	8	6	4	3	**33**
NVR	6	4	3	2	2	**17**
Edge Server	2	1	1	1	1	**6**
All devices	**215**	**128**	**105**	**60**	**45**	**553**

AVL and Dashcams by Department

DEPARTMENT	AVL	DASHCAMS	TOTAL
Pipe Dolly	6	5	**11**
Workshop	3	2	**5**
Salasil	5	4	**9**
HR	1	1	**2**

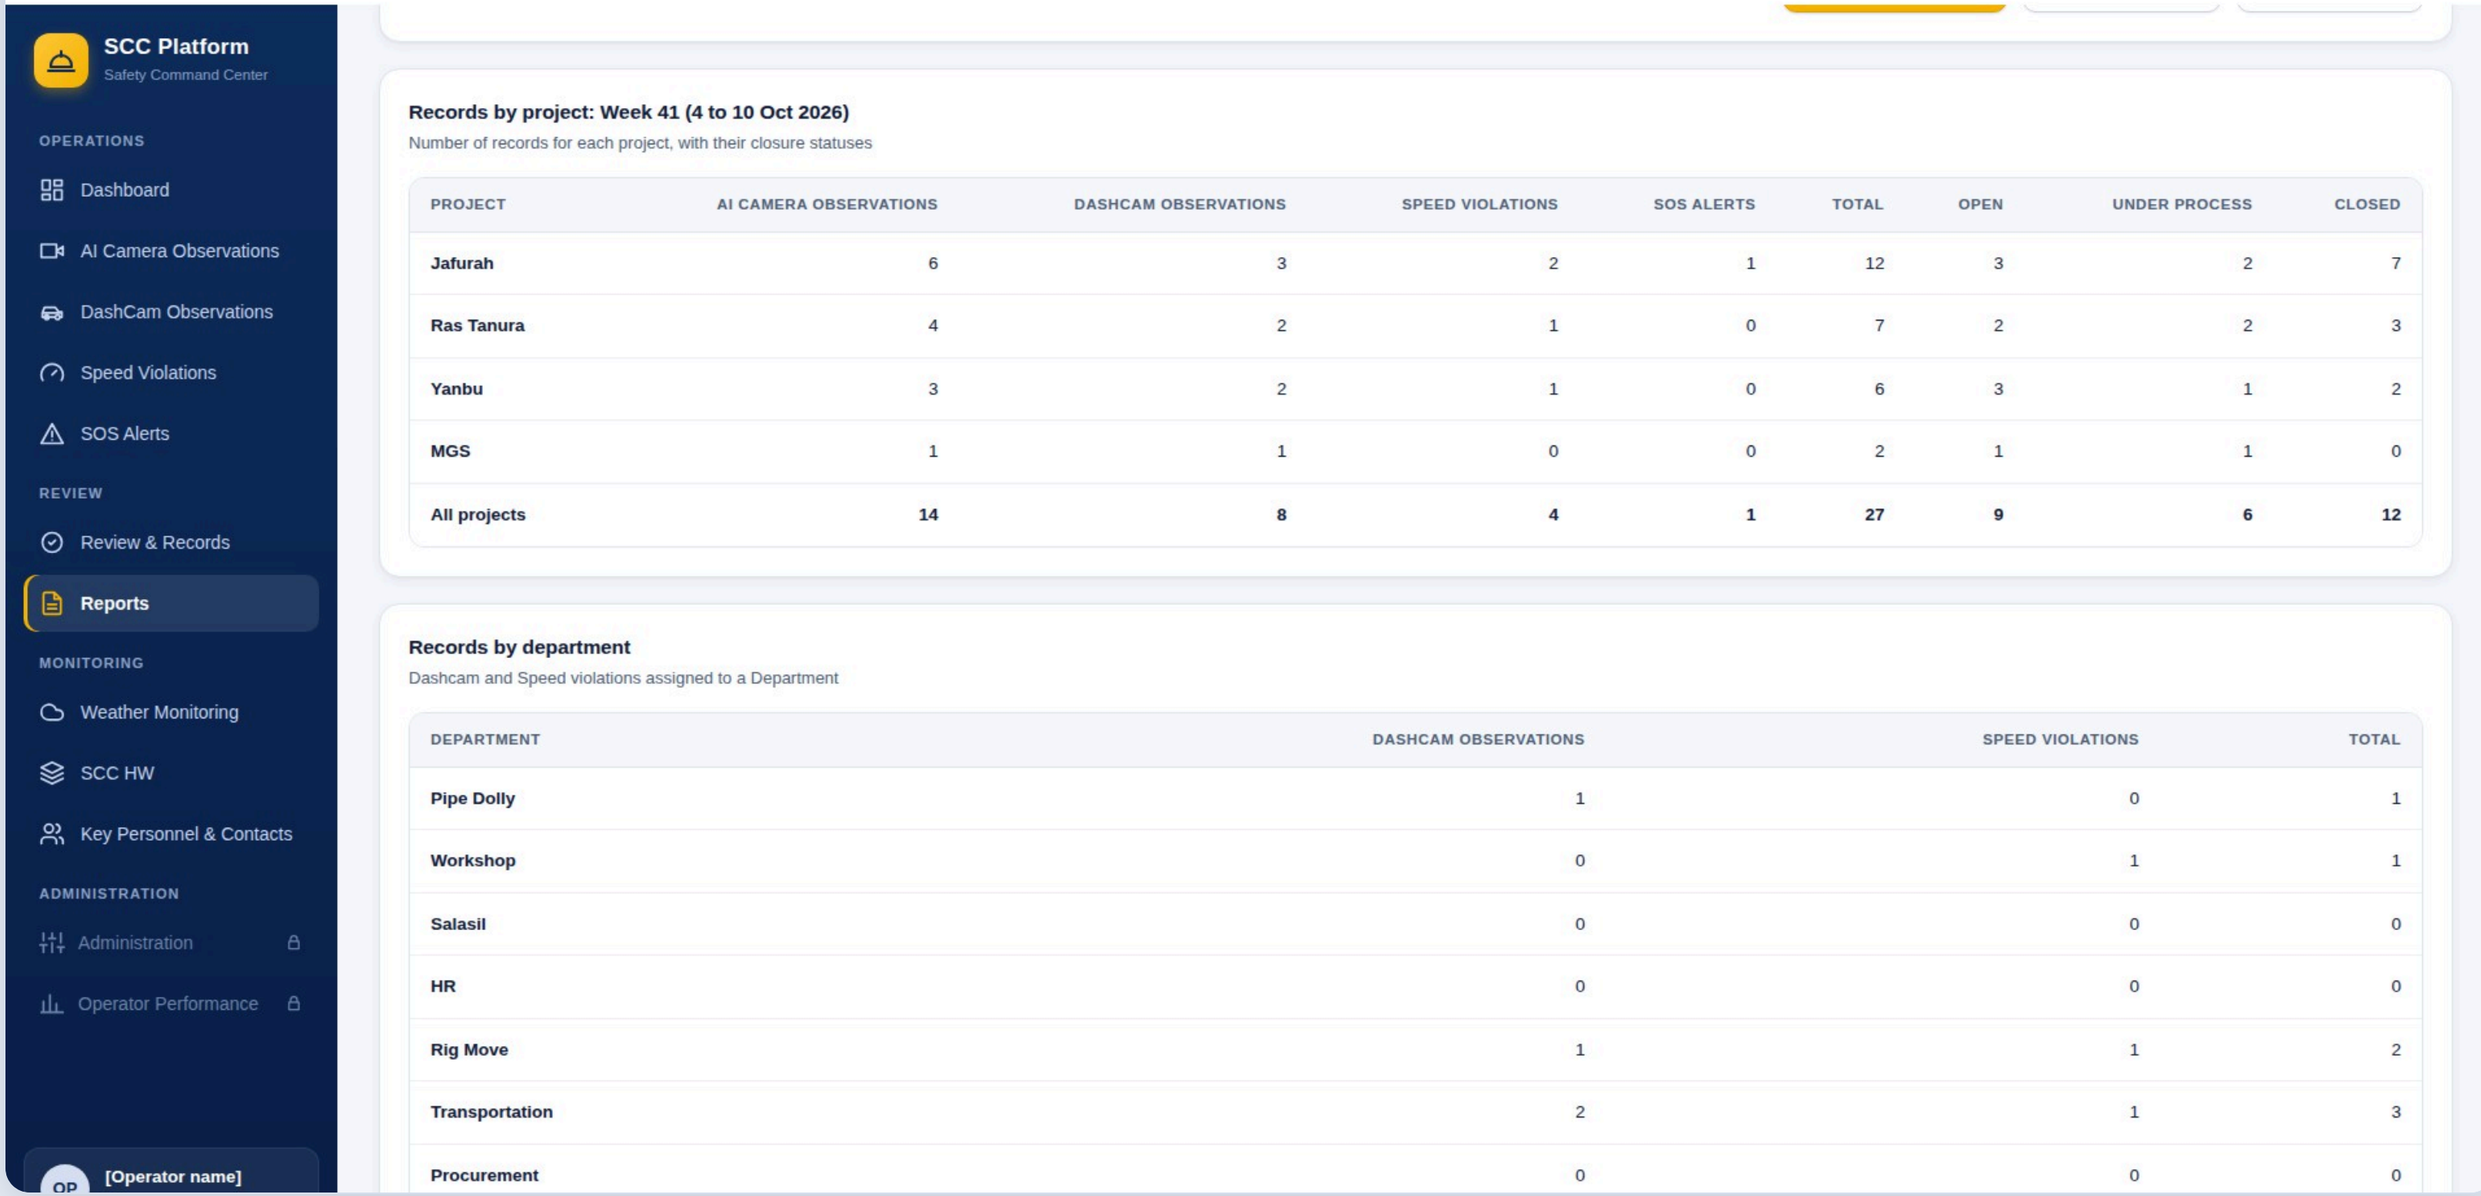

DESIGN NOTE AVL and Dashcam counts are shown for each department.

Weekly and monthly reports

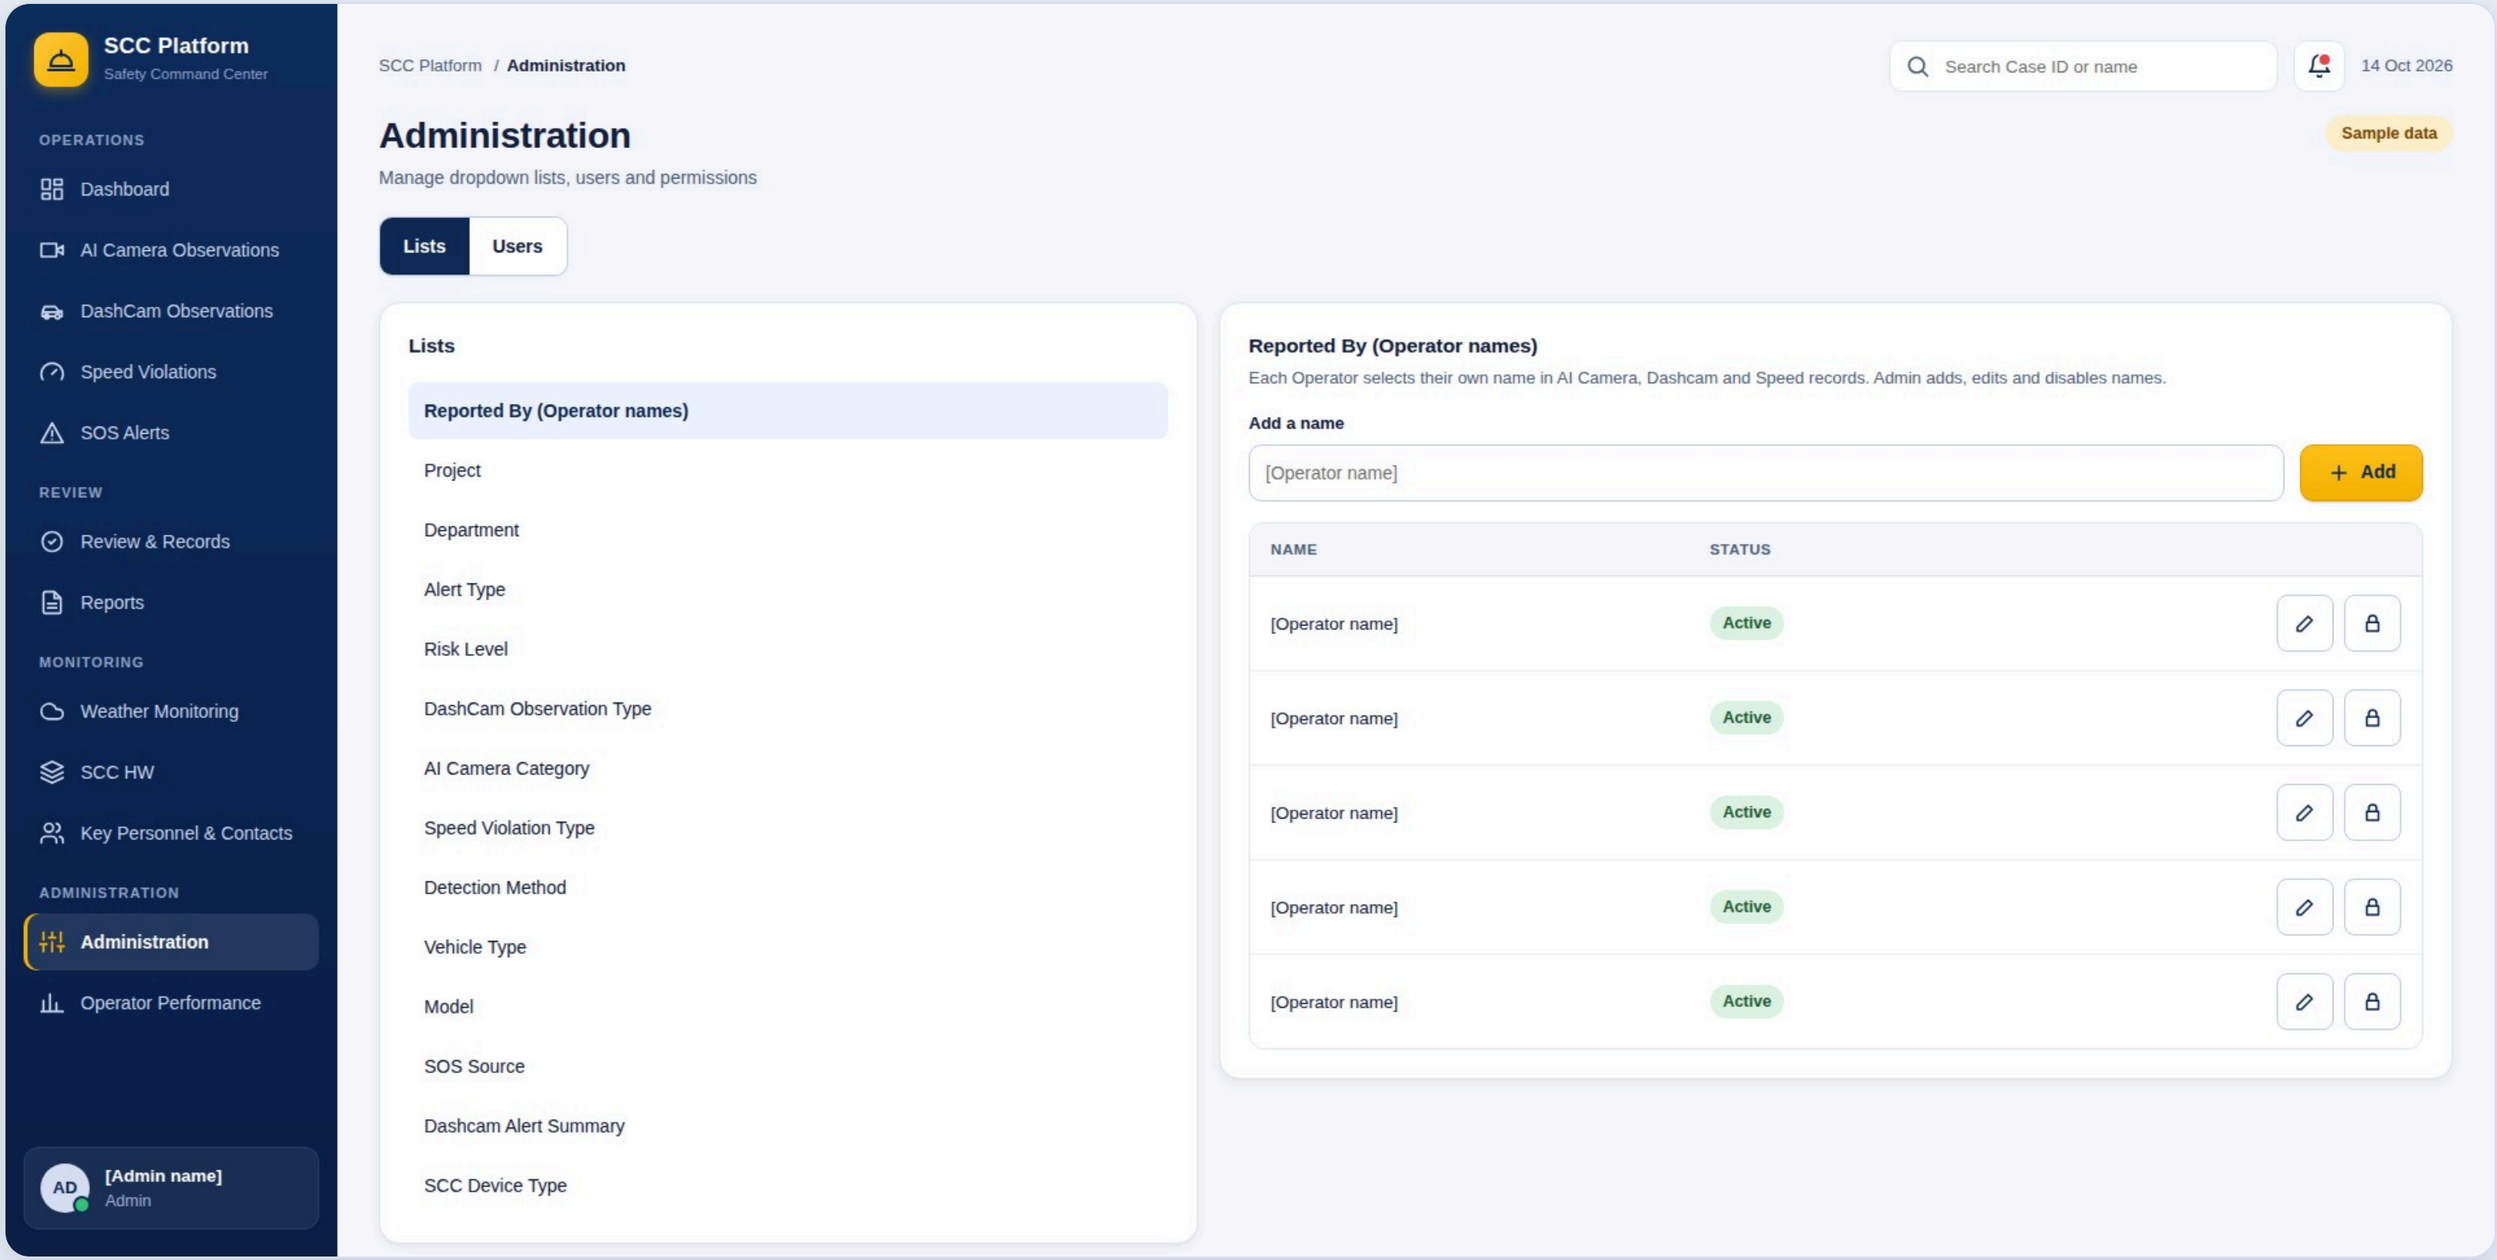

DESIGN NOTE Reports cover records only, weekly and monthly, with filters and export. The devices report is in SCC HW.

Detailed record in reports

DESIGN NOTE The details table shows each observation and violation with its status and who handled it.

Administration users and dropdown lists

DESIGN NOTE Admin manages users, roles and the dropdown lists, including Vehicle Type and Model. Deleting a user or a record asks for confirmation.

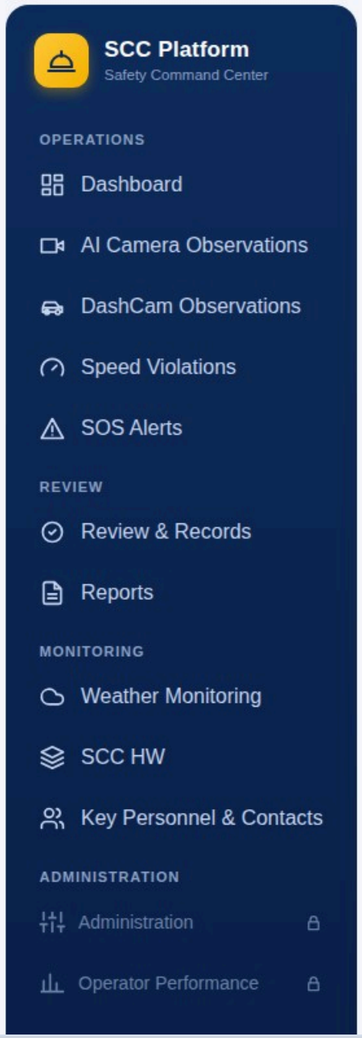

Navigation menu by role

FOR THE DEVELOPMENT TEAM

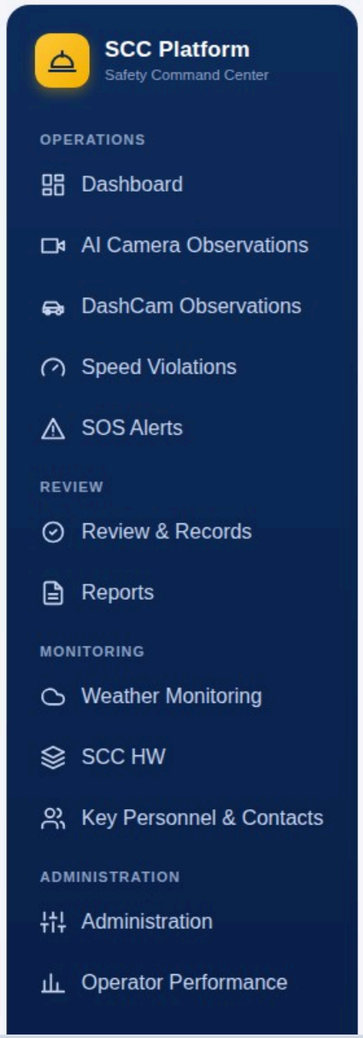

Navigation menu by role

What each role sees in the left menu. Admin-only items appear locked for Operators.

OPERATOR MENU

ADMIN MENU

Menu items by role

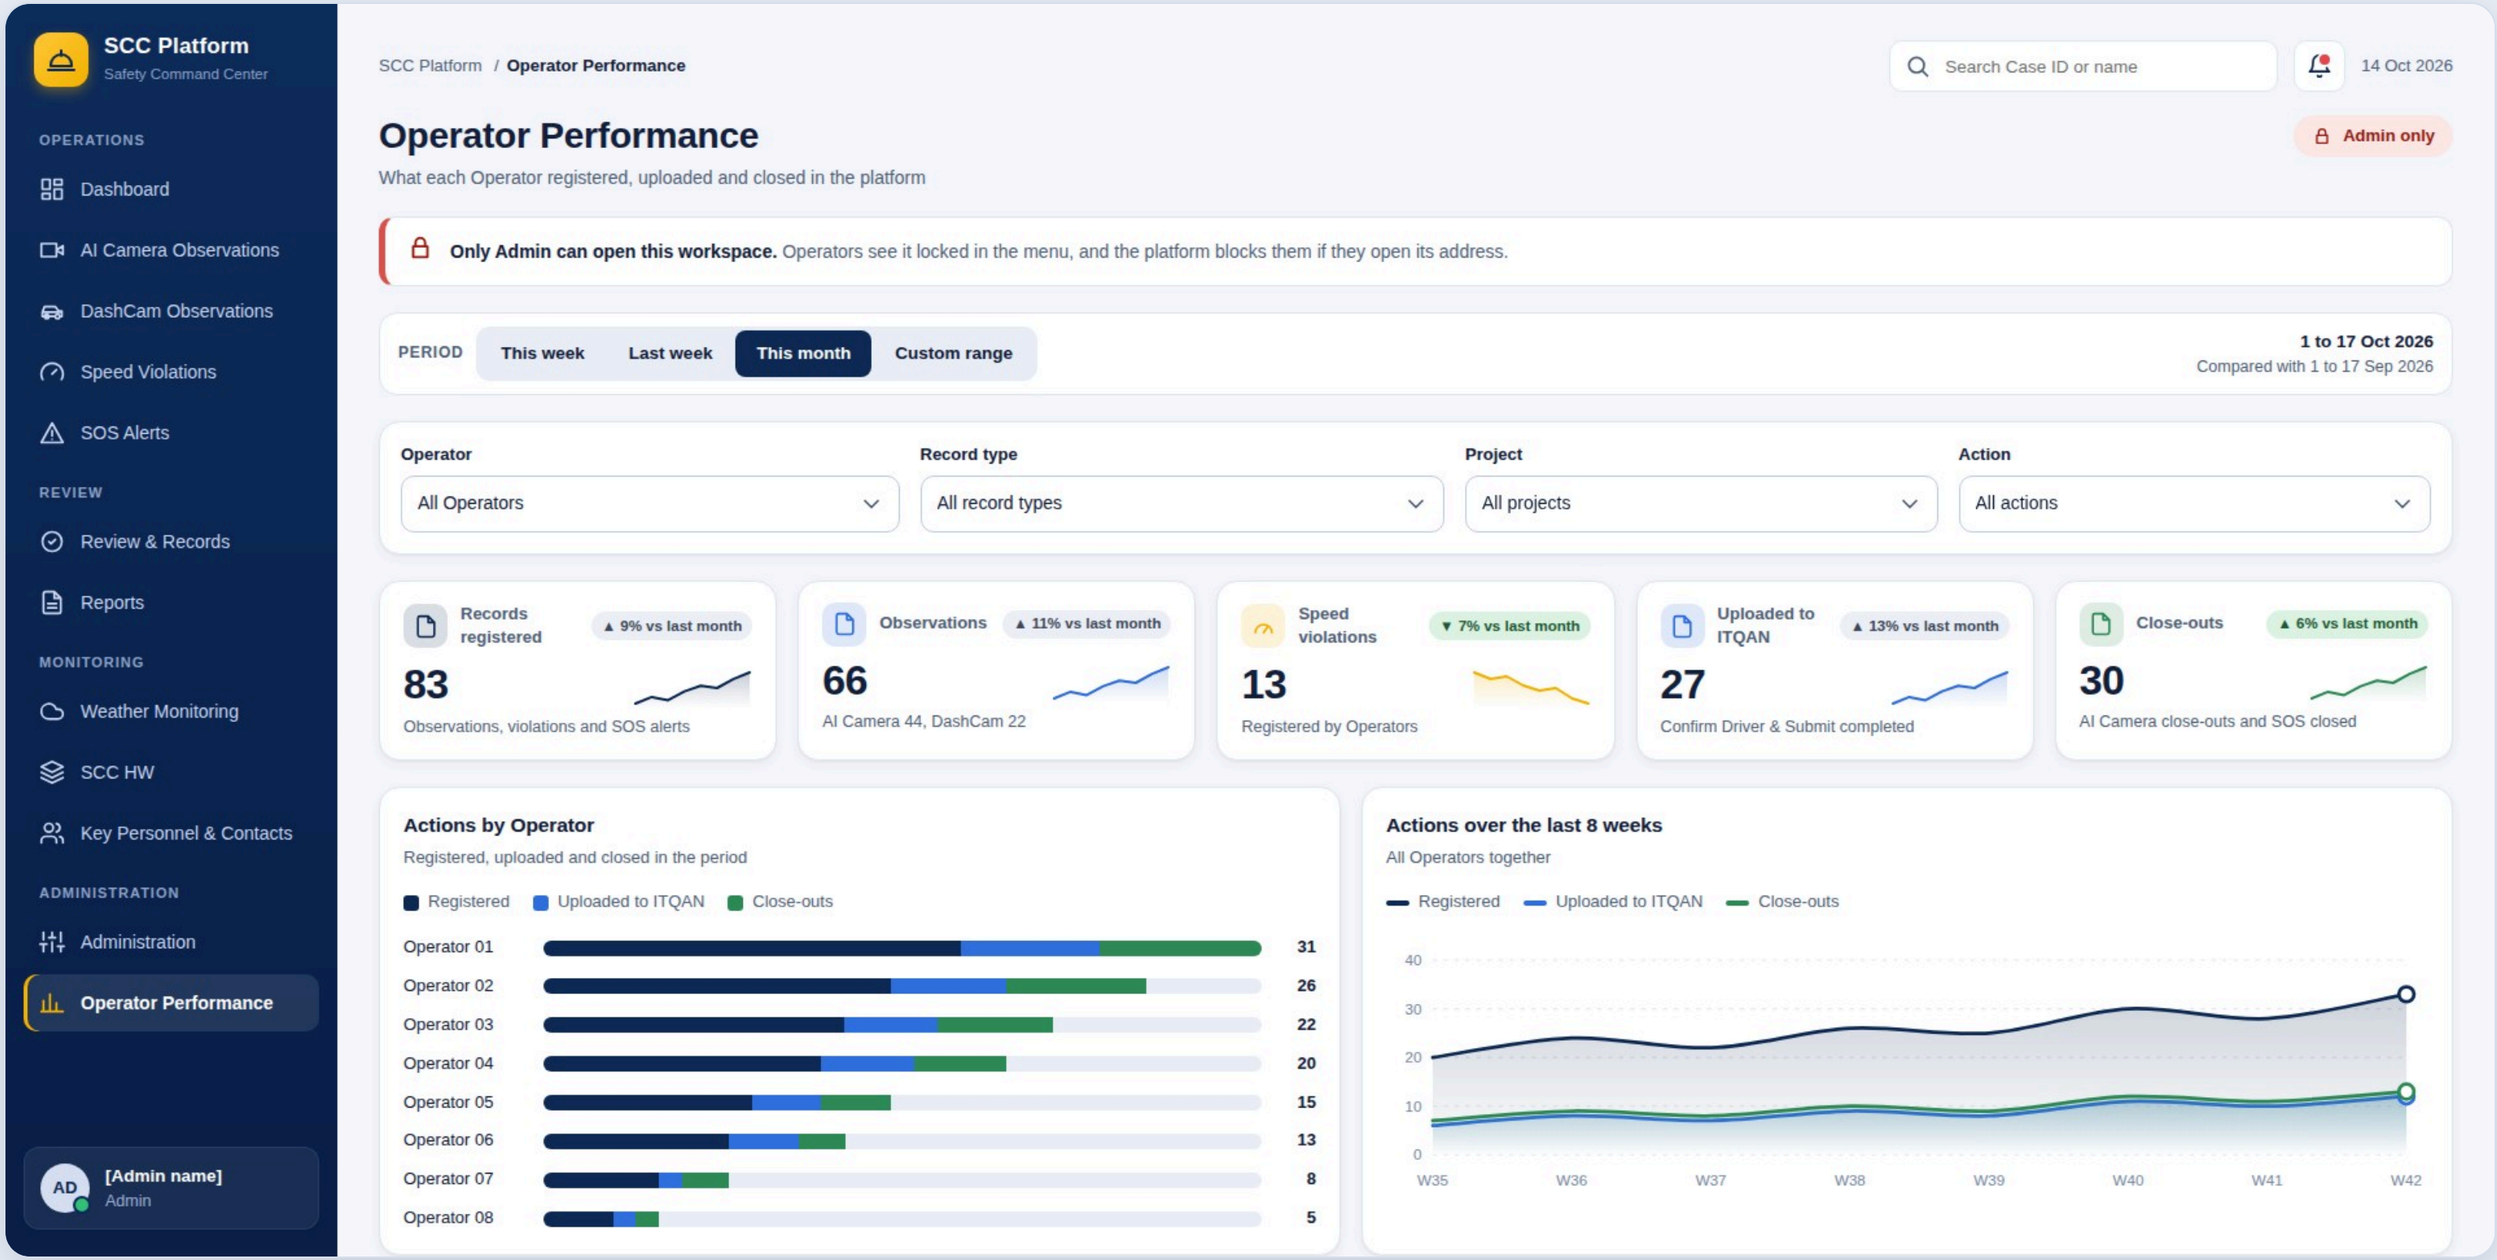

The menu is built from the signed-in user's role.

MENU ITEM	OPERATOR	ADMIN
Dashboard	Shown	Shown
AI Camera Observations	Shown	Shown
DashCam Observations	Shown	Shown
Speed Violations	Shown	Shown
SOS Alerts	Shown	Shown
Review & Records	Shown	Shown
Reports	Shown	Shown
Weather Monitoring	Shown	Shown
SCC HW	Shown (view only)	Shown
Key Personnel & Contacts	Shown (view only)	Shown
Administration	Shown, locked	Shown
Operator Performance	Shown, locked	Shown

Locked items are visible but cannot be opened. Operators see Administration and Operator Performance greyed out with a lock. Selecting them does nothing, and the server blocks their address with an access-denied message.

DESIGN NOTE Operators see Administration and Operator Performance locked in the menu and cannot open them. The server also blocks their address.

Operator Performance (Admin only)

DESIGN NOTE Only Admin can open this workspace. It rates each Operator on what they registered, uploaded to ITQAN, closed and edited, with an activity log.

Interface components and interaction rules

Colour and record types

- **Navy** — Navigation, headings and AI Camera
- **Amber** — Primary actions and Speed
- **Blue** — DashCam observations
- **Teal** — SOS alerts
- **Dark mode** — Same layout, lightened chart colours

Status labels

- **Open** — Registered and waiting for the next Operator step
- **Under Process** — Waiting for Admin review
- **Closed** — Approved by Admin, or closed by the Operator (SOS)

High Risk **Medium Risk** **Low Risk**

Buttons and fields

Primary **Secondary** **Disabled**

Required field *

Value

Locked until the previous step is done

Locked

Automatic text

The Violation has been uploaded in ITQAN

Interaction rules

- **Required fields** carry a red asterisk. Register stays disabled until every required field is completed.
- **Week** is calculated from the date. Weeks start on Sunday.
- **Observations:** Register gives Open. The close-out (action, picture, Safety Officer) gives Under Process. Admin approves for Closed or returns it to Open.
- **Violations:** Register gives Open. Confirm Driver & Submit (ITQAN proof and Uploaded by) gives Under Process. Admin approves for Closed or returns it to Open.
- **SOS alerts:** Register gives Open. The four closure fields give Closed. No Admin approval.
- **Driver details** can be edited until the Confirm Driver & Submit step, then only by Admin.
- **Deleting** a record or a user is for Admin only, asks for confirmation, removes it from every screen and is kept in the audit log.
- **Dhahran** appears in SCC HW only. Departments apply to Dashcam and Speed violations.
- **Light and dark modes** are selected from the dashboard header.
- **All counts, names and pictures** in this document are illustrative.

DESIGN NOTE These rules apply on every screen. Items still to be confirmed are listed in Section 12 of the requirements.
